## 10.1 DELEGATED PERMITS

Delegated Permits are processed by Planning and Development Division staff, authorized by designated staff appointed as Enforcement Officers by the Board of Directors and received monthly by the Executive Committee. Delegated permits are categorized as standard, routine infrastructure works, emergency infrastructure works, minor works and permits after the fact/resolution of violations.

### **Permits originally intended for April 3, 2020 Executive Committee Meeting #2/20**

STANDARD DELEGATED PERMITS FOR RECEIPT – STAFF APPROVED AND ISSUED (Page 28)

PERMISSION FOR ROUTINE INFRASTRUCTURE WORKS FOR RECEIPT – STAFF APPROVED AND ISSUED (Page 35)

MINOR WORKS LETTER OF APPROVAL FOR RECEIPT – STAFF APPROVED AND ISSUED (Page 38)

### Section III – Items for the Information of the Board

**TO:** Chair and Members of the Executive Committee  
Meeting #3/20, Friday, May 01, 2020

**FROM:** Michael Tolensky, Chief Financial and Operating Officer

**RE:** **Q1 2020 MEDIA SUMMARY**

---

#### KEY ISSUE

Information report regarding Toronto and Region Conservation Authority's (TRCA) corporate media communication activities during the first quarter of 2020 (January – March).

#### RECOMMENDATION

**IT IS RECOMMENDED THAT the Q1 2020 Media Summary report be received.**

#### BACKGROUND

The CEO's Office and Marketing and Events business units with involvement of program areas across TRCA's Divisions carry out corporate communications programs to provide TRCA with a unified voice that aligns consistently with strategic priorities, and monitors results to identify opportunities for improvements. Working with staff from all divisions and external program and service providers, the business units deliver communications campaigns through traditional media outlets and online media channels. Content is typically disseminated through materials such as news releases and media advisories, direct outreach to targeted journalists, producers and editors, and responses to incoming media inquiries. Digital campaigns involve posting of visual and written content on websites and distribution via social media platforms. All media activity is supported by ongoing assessment and deployment of technology tools and processes to maximize effectiveness. While TRCA produces communications materials for multiple programs and projects managed by business units across the organization, this report provided in Attachment 1 focuses on notable media coverage during the reporting period.

#### Relationship to Building the Living City, the TRCA 2013-2022 Strategic Plan

This report supports the following strategy set forth in the TRCA 2013-2022 Strategic Plan:  
**Strategy 6 – Tell the story of the Toronto region**

#### DETAILS OF WORK TO BE DONE

TRCA is preparing a Communications Plan to ensure more streamlined and strategically focused media relations that will guide our approach in working with media.

Attachment 1: Notable TRCA Media Coverage: January – March 2020

## Attachment 1: Notable TRCA Media Coverage: January – March 2020

During the first quarter of 2020, TRCA media coverage focused on the following (select examples of media coverage):

### January 2020

**CTV News Toronto** – weather segment – Anwar Knight filmed at Claireville Conservation Authority

### Caledon Enterprise, January 23, 2020

Full article: <https://www.caledonenterprise.com/community-story/9818712-what-are-the-5-oldest-caledon-heritage-properties-log-homes-dating-back-200-years/>

### **What are the 5 oldest Caledon heritage properties? Log homes dating back 200 years**

This past week, Caledon's council endorsed staff work that saw 238 properties listed on a Caledon heritage register. The purpose of this listing was so that these properties could not be demolished without having their heritage value assessed and pieces of them possibly preserved.

In other words, should they have some unique beams the town wants to keep if the property was torn down, that could be done.

That work will see more than a thousand more properties throughout the town examined, and possibly listed in the same way, as heritage staff continues to examine the history and relevance of a number of other Caledon structures.

## Ravine Implementation Strategy: Collaborative Stewardship

■ RAVINE IMPLEMENTATION STRATEGY

# COLLABORATIVE STEWARDSHIP

Andrew Reeves

City of Toronto's executive committee greenlit the city's comprehensive Ravine Implementation Strategy yesterday, setting it up for consideration at city council January 29-30. The strategy seeks significant funding from the city's capital and operating budgets, and promotes collaboration with local non-profit organizations, volunteer citizen groups and private philanthropic partners.

A recent proposal collaboratively by staff from parks, forestry and recreation (PFR), city planning and Toronto Water requests \$2.7 million from the city's 2020 operating budget to fund better litter removal and invasive plant control from city ravines. This money would be in addition to the \$10.1 million that PFR currently spends each year managing the city's natural systems, most of which are located in ravines.

Yet the report also requests \$104.9 million for numerous service improvements for maintaining the city's ravine

systems, a funding ask that staff believe should be considered as part of Toronto's 2021-2030 Capital Plan.

While some of the funds needed to safeguard the city's ravines can be drummed up by better coordination between city departments on capital work projects, the jointly written staff report recommends council also approach the provincial and federal governments for funding, all while attempting to locate private philanthropic partners willing to help raise money in support of specific projects. Much of this would be done under the auspices of a proposed Ravine Campaign, an advisory body reporting to PFR that would be led by philanthropists, NGOs and foundation leaders, with the single goal of making Toronto's Ravine Strategy a success.

But a \$104.9 million funding request is no small ask. "At that scale - this is new" for an environmental program,

parks, forestry and recreation ravines program manager Wendy Strickland told NRU. "That's part of the reason we felt there was a need for a big initiative like the Ravine Campaign."

One early project the Ravine Campaign may champion is partnership with the Toronto and Region Conservation

Authority (TRCA) and Evergreen is the Loop Trail, an 81-kilometre off-road, multi-use trail that would connect the Humber River and Don River ravine systems to the waterfront and numerous neighbourhoods along Finch Avenue. Another is "Toto Ravines Nature at your doorstep", a \$200,000

blogTO

BlogTO, February 2020

Full article: <https://www.blogto.com/city/2020/02/toronto-massive-16-km-linear-park/>

## This is what Toronto's massive 16 km linear park might look like

Toronto announced plans to build a massive 16 km linear park running from the Don River Ravine to Rouge National Urban Park in Scarborough back in 2018, and brand new visuals and renderings offer a glimpse into what The Meadoway might look like once completed.

"Toronto and Region Conservation Authority (TRCA) has partnered with Perkins and Will and Future Landscapes to develop a visualization toolkit that demonstrates the potential future look and feel of The Meadoway," the park's website states.

"The goal of the toolkit is to amplify and celebrate The Meadoway through a compelling visual identity and narrative. It includes conceptual renderings, sketches and animations."

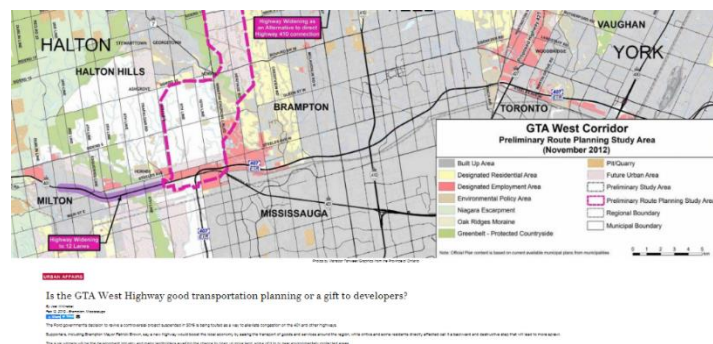

New conceptual renderings include before and after photos of what different sections of the park may look like once completed.

Full article: <https://thepointer.com/article/2019-02-12/is-the-gta-west-highway-good-transportation-planning-or-a-gift-to-developers>

## Is the GTA West Highway good transportation planning or a gift to developers

The Ford government's decision to revive a controversial project suspended in 2015 is being touted as a way to alleviate congestion on the 401 and other highways.

Supporters, including Brampton Mayor Patrick Brown, say a new highway would boost the local economy by easing the transport of goods and

services around the region, while critics and some residents directly affected call it a backward and destructive step that will lead to more sprawl.

## Accidental Wilderness: The Leslie Street Spit

In the middle of Canada's largest city, a natural wilderness is thriving in the unlikelyst of places.

**Accidental Wilderness: The Leslie Street Spit**, a documentary from *The Nature of Things*, tells the surprising story of the Leslie Street Spit — a remarkably rich wilderness located a few short kilometres from the heart of Toronto. Here, the distinction between city and wilderness disappears: a coyote roams freely in a cottonwood forest while in the distance, the CN Tower looms on the cityscape.

“The Spit,” or **Tommy Thompson Park** as it's officially called, was initially conceived of as a breakwater to protect Toronto's bustling shoreline. To build it, construction waste was dumped into Lake Ontario starting in 1959, eventually creating a five-kilometre concrete peninsula. Soon, the heaps of rubble gave way to plants and wild animals proving that, when given the chance, nature can take root anywhere.

**CP24, February 25, 2020**

Full article: <https://www.cp24.com/news/city-to-undertake-accelerated-flood-protection-work-on-toronto-islands-ahead-of-record-water-levels-expected-this-spring-1.4826859>

## City to undertake ‘accelerated’ flood protection work on Toronto Islands ahead of record water levels expected this spring

The city says that it will undertake “accelerated flood and erosion control work” on the Toronto Islands in anticipation of Lake Ontario water levels reaching record highs once again.

In a news release issued on Tuesday morning, the city said that water levels in Lake Ontario are already 12 centimetres above where they were at this time last year and are likely to eventually break the record 76-metres above sea level mark that was recorded last May.

The city says that the accelerated flood protection work is being undertaken in partnership with the Toronto and Region Conservation Authority (TRCA) with the goal of “mitigating the

impacts of high lake water levels and shoreline flooding” this spring.

The work will include the construction of a berm on Algonquin Island using “repurposed brick rubble sourced from demolition projects,” and the construction of another barrier along Ward’s Island beach. The city says that it will also be conducting a geotechnical assessment of the feasibility of raising the roadway for a few hundred metres along both Cibola Avenue and Lakeshore Avenue.

**Toronto Storeys, February 25, 2020**

Full article: <https://torontostoreys.com/flood-control-toronto-islands/>

## “Accelerated” Flood and Erosion Control to Begin on Toronto Islands

As Lake Ontario water levels currently sit 12 cm above those recorded at the same time last year, the City said it’s going to begin “accelerated” flood and erosion control at Toronto Island Park and several waterfront locations in anticipation for levels to reach record highs once again.

On Tuesday, the City said it will work closely with the Toronto and Region Conservation Authority (TRCA) to monitor the conditions that contribute to high lake water levels and shoreline flooding as spring approaches.

In turn, the City will begin work to mitigate the impacts of high water levels. This includes the construction of a berm, or a raised barrier, on Algonquin Island (a small section of the Islands) using “repurposed brick rubble sourced from demolition projects,” and the construction of another barrier along Ward’s Island beach.

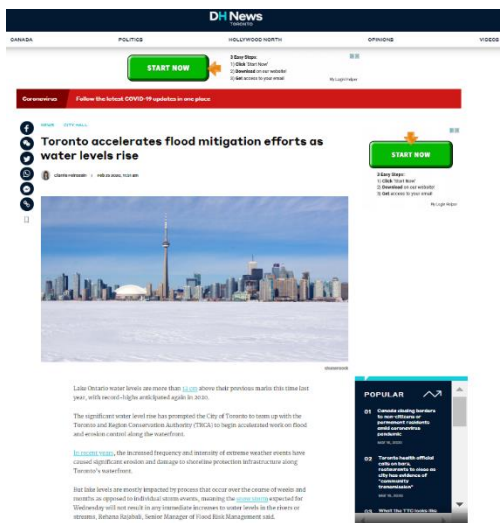

The City says that it will also be conducting a geotechnical assessment of the feasibility of raising the roadway for a few hundred metres along both Cibola Avenue and Lakeshore Avenue.

**Daily Hive, February 25, 2020**

Full article: <https://dailyhive.com/toronto/toronto-flood-mitigation-water-levels-rise>

## Toronto acceleration flood mitigation efforts as water levels rise

Lake Ontario water levels are more than 12 cm above their previous marks this time last year, with record-highs anticipated again in 2020.

The significant water level rise has prompted the City of Toronto to team up with the Toronto and Region Conservation Authority (TRCA) to begin accelerated work on flood and erosion control along the waterfront.

In recent years, the increased frequency and intensity of extreme weather events have caused significant erosion and damage to shoreline protection infrastructure along Toronto’s waterfront.

But lake levels are mostly impacted by process that occur over the course of weeks and months as opposed to individual storm events, meaning the snow storm expected for Wednesday will not result in any immediate increases to water levels in the rivers or streams, Rehana Rajabali, Senior Manager of Flood Risk Management said.

Full article: [https://www.thestar.com/amp/news/city\\_hall/2020/02/25/toronto-island-residents-have-already-started-sandbagging-in-preparation-for-floods.html](https://www.thestar.com/amp/news/city_hall/2020/02/25/toronto-island-residents-have-already-started-sandbagging-in-preparation-for-floods.html)

## Toronto Islands residents have started sandbagging in preparation for floods

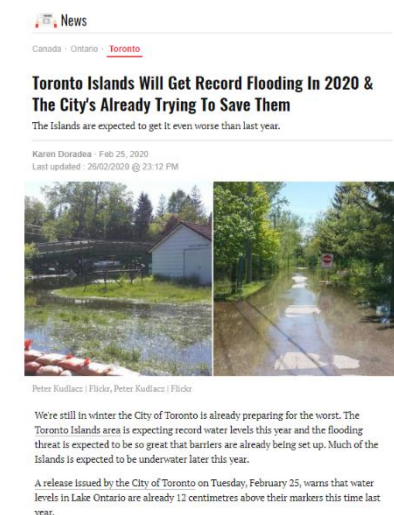

...The city announced Tuesday it is working with the Toronto and Region Conservation Authority (TRCA) to accelerate flood mitigation work at Toronto Island Park and along Toronto's waterfront, including construction of a beach curb on Ward's Island and reinforcement of the existing seawall at Algonquin Island, pending the outcome of engineering investigations.

Construction of a natural barrier at the Eastern Beaches, along the east side of the city's shoreline, is also planned...

Full article: <https://www.narcity.com/amp/toronto-islands-flooding-threat-in-2020-is-so-severe-that-barriers-are-already-being-built>

## Toronto Islands Will Get Record Flooding in 2020 & the City's Already Trying to Save Them

We're still in winter the City of Toronto is already preparing for the worst. The Toronto Islands area is expecting record water levels this year and the flooding threat is expected to be so great that barriers are already being set up. Much of the Islands is expected to be underwater later this year.

A release issued by the City of Toronto on Tuesday, February 25, warns that water levels in Lake Ontario are already 12 centimetres above their markers this time last year.

In fact, it's thought that this year, the flooding on the Islands will ultimately break May 2019's record of 76 metres above sea level.

In collaboration with the Toronto and Region Conservation Authority (TRCA), the city is working on an accelerated flood protection work to lower the impacts of flooding and high water levels.

According to the release, the TRCA and Toronto will begin the flood and erosion control work at Toronto Island Park, as well as several waterfront locations.

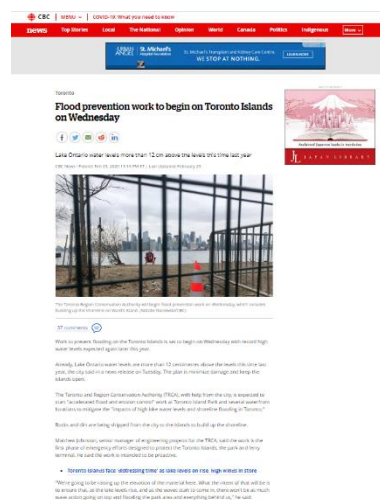

"The City is working closely with TRCA to deliver proactive and innovative solutions to mitigate the impacts of high lake water levels and shoreline flooding in Toronto," reads the release.

**CBC, February 25, 2020**

Full article: <https://www.cbc.ca/news/canada/toronto/trca-city-flooding-toronto-islands-work-prevention-1.5476252>

### **Flood prevention work to begin on Toronto Islands on Wednesday**

Work to prevent flooding on the Toronto Islands is set to begin on Wednesday with record high water levels expected again later this year.

Already, Lake Ontario water levels are more than 12 centimetres above the levels this time last year, the city said in a news release on Tuesday. The plan is minimize damage and keep the islands open.

The Toronto and Region Conservation Authority (TRCA), with help from the city, is expected to start "accelerated flood and erosion control" work at Toronto Island Park and several waterfront locations to mitigate the "impacts of high lake water levels and shoreline flooding in Toronto."

Rocks and dirt are being shipped from the city to the islands to build up the shoreline.

Matthew Johnston, senior manager of engineering projects for the TRCA, said the work is the first phase of emergency efforts designed to protect the Toronto Islands, the park and ferry terminal. He said the work is intended to be proactive.

**CityNews, February 26, 2020**

Full video: <https://toronto.citynews.ca/video/2020/02/26/what-the-city-is-doing-to-prevent-spring-flooding/>

## What the city is doing to prevent spring flooding

Water levels in Lake Ontario are on the rise and as the spring thaw approaches, Mark McAllister looks at what the city is doing to try to prevent the kind of flooding the city has seen in recent years.

**CBC, February 27, 2020**

Full article: <https://www.cbc.ca/news/canada/toronto/steven-del-duca-public-private-pool-1.5477017>

## Ontario Liberal Party front-runner Steven Del Duca wants protected land to save his private pool

Steven Del Duca, the front-runner in the race to become the next leader of the Ontario Liberal Party, and his wife want the Toronto and Region Conservation Authority (TRCA) to hand over a section of protected land to save an in-ground pool they've built, CBC News has learned.

Del Duca and his wife, Utilia Amaral, live on a cul-de-sac in Vaughan. Their backyard is nestled against public parkland that's part of the Humber River watershed. It's considered environmentally sensitive land and is controlled by the TRCA.

Del Duca and his wife built the pool last summer without all the necessary permits — and it's too close to the parkland, according to municipal bylaws.

"It's embarrassing," Del Duca told CBC News.

"I found out based on what I will call an honest mistake and the discussion we had with our contractor. It was alarming for me obviously as someone who has grown up in this community and has served publicly in the past. I knew it was a mistake."

City of Vaughan bylaws stipulate the pool should have been built at least 7.5 metres from the public parkland. Instead, it was built just 1.5 metres away.

Toronto residents seek judicial review to stop Rockcliffe development

Coalition raising funds for legal challenge

NEWS MAR 02 2020 BY VICKI SELLERS TORONTO.COM

Members of the York South-Weston Flooding Accountability Coalition (from left: Tanja Connors, Rich Cicchetti, Denise O'Leary and Mike Minto) gather near Black Creek in Rockcliffe-Smythe. The group is fighting to reverse a Toronto Regional Conservation Authority decision from 2018 to allow the City of Toronto to sell a parcel of land by the river to St. Helen's Meat Packers Ltd. - Ribeiro Velez/Torstar

A group of Rockcliffe-Smythe and Mount Dennis residents is making a final push to prevent the development of land at 200 Rockcliffe Ct., on the southeast bank of Black Creek.

Members argue the undeveloped land is valuable for mitigating flooding in the area, and that to develop it would be a mistake.

Nearly two years after the Toronto and Region Conservation Authority (TRCA) granted the City of Toronto permission to sell the land to St. Helen's Meat Packers Ltd., members of the resident-led York South-Weston Flooding Accountability Coalition (YSW-FAC) realized there was one last tool they could use to try and reverse the decision: a judicial review. However, they only have two years from the date of the decision to request a review.

## The Bolton Flood – One year later

One year out from the flood that destroyed her home in March 2019, Bolton's Tracey Lehman said the work isn't nearly done, but the mood in 2020 is better as contact with local conservation authorities has improved and, well, there hasn't been as much ice as last year.

"We're about halfway finished," said Lehman, whose home is located at 40 James Street. "Our insurance was one of the ones that said no, so we've been trying to do most of the work ourselves."

### Section III – Items for the Information of the Board

**TO:** Chair and Members of the Executive Committee  
Meeting #3/20, Friday, May 01, 2020

**FROM:** Michael Tolensky, Chief Financial and Operating Officer

**RE:** **2021 PRELIMINARY MUNICIPAL LEVIES**

---

#### KEY ISSUE

Update on the 2021 preliminary municipal levies and submission process.

#### RECOMMENDATION

**IT IS RECOMMENDED THAT** Toronto and Region Conservation Authority's (TRCA) 2021 preliminary municipal levy submissions for the regional municipalities of Durham, Peel and York, and the City of Toronto, be consistent with the anticipated 2021 operating and capital funding envelopes proposed for TRCA in the 2020 budget cycle;

**THAT** preliminary operating levy targets be set at: Durham Region 3.0%, Peel Region 3.3%, York Region 1.1% and City of Toronto at 8.6%;

**AND FURTHER THAT** TRCA staff be directed to submit the preliminary 2021 municipal estimates and multi-year funding requests to the regional municipalities of Durham, Peel and York, and the City of Toronto, in accordance with their respective submission schedules.

#### BACKGROUND

The internal process for starting the 2021 budget estimates has commenced. TRCA's partner municipalities require that TRCA provide 4-year capital budget projections and each municipality has its own requirements and format for this information. *Attachment 1* outlines the four-year forecast for capital projects and programs in the City of Toronto and the regional municipalities of Durham, Peel and York.

TRCA staff regularly consult with member municipality staff to: ensure that there is alignment on objectives and deliverables; avoid duplication of effort; coordinate activities and procurement to realize maximum value and efficiency; report on the achievement of project deliverables.

Attachment 1 provides a summary of the anticipated distribution of funding at the Service Area level by regional municipality. Detailed information sheets on each TRCA project and program are available to members upon request.

#### RATIONALE

##### Municipal Capital Funding

##### Regional Municipality of Durham

Durham Region budget guidelines will be provided to TRCA later this year. TRCA will be requesting a funding envelope in the amount of \$1.233 million, which compares to \$1.115 million in 2020. The increase reflects a 10.6% adjustment on the base; rationale for the adjustment includes inflation (2%) and the transition of core TRCA programs (Watershed

## Item 9.2

Planning and Reporting, Regional Watershed Monitoring and Ecosystem Science) to a formula-based funding model that had been previously covered through contract services for specific Durham projects. This funding is distributed on a land area basis for programs that are jurisdiction wide. TRCA will work with the Region in creating a 2021 budget that is sustainable and realistic and will address the core requirements needed to continue to deliver key services across the jurisdiction.

### Regional Municipality of Peel

Annually, Peel Region guidelines provide an approximate 3% increase to the funding envelope from the previous year (2020 \$17.119 million, which compares to \$17.590 million in 2021). The preliminary budget reflects a 2.75% increase on the base, and it is consistent with the 2020 targets contained in the 2020 submission.

### City of Toronto

City of Toronto guidelines for TRCA established during the 2018 – 2027 capital budget cycle provides a 2021 capital funding envelope in the amount of \$18.44 million, which compares to an approved \$24.825 million in 2020. The 25% decrease in 2021 funding is primarily driven by the reduction in funding required for future segments of the Scarborough Waterfront Project; funding received in 2020 supported implementation of the Brimley Road construction access route and detailed design of the West Segment, which is the first of three segments. City of Toronto capital funding is supported by debt financing and Water Rate.

### Regional Municipality of York

York Region's funding envelope is anticipated to be in the amount of \$5.039 million, which compares to \$4.993 million in 2020. This reflects an approximate 0.9% increase on the base.

### Operating Levy

The operating levy anticipated funding envelopes for the regional municipalities of Durham, Peel and York have been set at the amounts proposed in the multi-year targets for TRCA, and which approximate recent historical average increases.

The City of Toronto's contribution to TRCA is funded through Toronto Water revenues and the City of Toronto's tax base. In 2021, Toronto Water's contribution is expected to increase by 2.5% over 2020 (as typical of prior years), resulting in \$5.333 million of funding in 2021. Other anticipated increases in 2021 include an additional \$0.332 million in base budget funding attributable to inflationary impacts, and continuation of the City's additional contributions addressing the under-contribution against the Current Value Assessment proportion. For 2021, an increase of \$0.484 million is proposed over the \$0.243 million contributed in 2020, resulting in a total operating outlook of \$10.286 million in 2021.

Operating levy targets for each partner municipalities are as follows:

Partner Municipality	2020 Operating Levy \$	Preliminary 2021 Operating Levy \$	2021 Change \$	2021 Change %
Adjala-Tosorontio	930	960	30	3.2%
Durham	596,000	614,000	18,000	3.0%
Mono	1,700	1,750	50	2.9%
Peel	1,920,355	1,983,787	63,432	3.3%
Toronto	9,470,400	10,286,300	815,900	8.6%
York	3,458,490	3,495,800	37,310	1.1%
<b>TOTAL</b>	<b>15,447,887</b>	<b>16,382,587</b>	<b>126,989</b>	<b>2.5%</b>

## Item 9.2

### **DETAILS OF WORK TO BE DONE**

TRCA's budget will be finalized in the fourth quarter of 2020 and will include municipal levy projects and programs as expected to be approved by the respective participating municipalities. Staff will make a presentation on key aspects of the 2021 budget in the fourth quarter of 2020, prior to anticipated municipal council approvals by the end of the first quarter of 2021.

### Section III – Items for the Information of the Board

**TO:** Chair and Members of the Executive Committee  
Meeting #3/20, Friday, May 01, 2020

**FROM:** Michael Tolensky, Chief Financial and Operating Officer

**RE:** **2020 THREE MONTH FINANCIAL REPORT**

---

#### KEY ISSUE

Receipt of Toronto and Region Conservation Authority's (TRCA) unaudited expenditures as of the end of the first quarter, March 31<sup>st</sup>, 2020, for informational purposes.

#### RECOMMENDATION

**IT IS RECOMMENDED THAT the 2020 Financial Report for the three-month period ended March 31, be received.**

#### BACKGROUND

As part of TRCA's financial governance procedures, staff are presenting the 2020 Three Month Financial Report, which covers the period January 1, 2020 through to March 31, 2020. This report provides information on the spend rate of expenditures for the first three months of 2020.

#### RATIONALE

TRCA believes in transparency and accountability for its spending, revenue recognition and performance of service delivery objectives against approved budgets, for both the organization and for each project and program as an individual endeavor. This is further supported by TRCA's core values of integrity, collaboration, accountability, respect and excellence. TRCA recognizes that all projects and programs offered have cost implications and that all costs incurred are reasonable and practical in support of services. Transparency throughout the budget management process is achieved in part through the analysis and reporting on year to date revenues/expenses as compared to the current fiscal year budget. In order to improve the accuracy in reporting anticipated issues in expenditures, TRCA established a seasonal forecasting baseline using historical data from the past three years to estimate the seasonal variances within each program area.

#### Relationship to Building the Living City, the TRCA 2013-2022 Strategic Plan

This report supports the following strategy set forth in the TRCA 2013-2022 Strategic Plan:  
**Strategy 9 – Measure performance**

#### FINANCIAL DETAILS

The operating and capital report by Service Area and underlying Program Areas are provided in Attachments 1, 2 and 3 respectively. The attachments provide a summary analysis of expenditures to date and the variance explanations by Program Area which have a variance threshold of +/- 10% and \$500,000 from anticipated quarterly spend rates. Variances within these thresholds are deemed to be within the expected range. The operating report shows zero reportable variance for the three-month period, whereas the capital report contains two Program Areas that have reportable variances. Attachment 3 provides explanations for these variances.

#### DETAILS OF WORK TO BE DONE

Staff are constantly analyzing TRCA's 2020 operations in the context of COVID-19's impact on

## Item 9.3

the organization's revenues and expenditures and potential for government funding to reduce the repercussions to our staff compliment, while ensuring that the safety of staff and the public is maintained.

This includes potential funding opportunities through the Federal Government's COVID-19 Economic Response Plan. Staff will continue to monitor these programs and conduct ongoing communications with the program officers to ensure that the maximum allowable benefits are realized.

**ATTACHMENT 3: THREE MONTH VARIANCE REPORT - REPORTABLE VARIANCE NOTES****OPERATING REPORTABLE VARIANCE NOTES - EXPENDITURES**

	No variance to report in Q1.
--	------------------------------

**CAPTIAL REPORTABLE VARIANCE NOTES - EXPENDITURES (Figures in 000's)**

<b>A</b>	The lower than anticipated expenditures are related to delays in the Bolton Camp recreational infrastructure projects which are anticipated to be incurred in Q2 - Q4 2020. The detailed design of the recreational hall and outdoor pool is ongoing, site servicing initiated in 2019 is expected to be complete by Q3 2020, and implementation of site entrance modifications and internal road improvements are expected to begin in Q3 2020. Once this is taken into consideration, the variance is \$19 and 2% which is within the acceptable threshold.
<b>B</b>	The lower than anticipated expenditures are related to the delay in site plan approvals for the Head Office Construction Project. The approvals delay has been exacerbated by the closure of all City of Toronto Civic Centres on March 6, 2020 due to concerns surrounding the COVID-19 pandemic. While contact with City of Toronto Planning and Real Estate staff has occurred since the closure, there is uncertainty as to when applications will be processed. Once this is taken into consideration the variance is \$539 and 6% which is within the acceptable threshold.

## Section IV – Ontario Regulation 166/06, As Amended

**TO:** Chair and Members of the Executive Committee  
Meeting #3/20, May 1, 2020

**FROM:** Sameer Dhalla, Director, Development and Engineering Services

**RE:** **APPLICATIONS FOR PERMITS PURSUANT TO ONTARIO REGULATION 166/06, AS AMENDED**  
Development, Interference with Wetlands and Alterations to Shorelines and Watercourses

---

### KEY ISSUE

Pursuant to Ontario Regulation 166/06, as amended, written permission from the Authority is required for:

- a) straightening, changing, diverting or interfering in any way with the existing channel of a river, creek, stream or watercourse, or for changing or interfering in any way with a wetland;
- b) development, if in the opinion of the Authority, the control of flooding, erosion, dynamic beaches or pollution or the conservation of land may be affected by the development.

A permit may be refused through a Hearing Process, if in the opinion of the Authority, the control of flooding, erosion, dynamic beaches, pollution or the conservation of land is affected.

### RECOMMENDATION

**THAT standard delegated permits, permission for routine infrastructure works, minor works letters of approval, and permits after the fact / resolution of violations granted by Toronto and Region Conservation Authority staff, in accordance with Ontario Regulation 166/06, as amended, which are listed below, be received.**

### **PERMITS ORIGINALLY INTENDED FOR APRIL 3, 2020 EXECUTIVE COMMITTEE MEETING #2/20**

#### **STANDARD DELEGATED PERMITS FOR RECEIPT– STAFF APPROVED AND ISSUED**

Delegated Permits are processed by Development and Engineering Services Division staff, authorized by designated staff appointed as Enforcement Officers by the Board of Directors and received monthly by the Executive Committee. Delegated permits are categorized as standard, routine infrastructure works, emergency infrastructure works, minor works and permits after the fact/resolution of violations. Standard permits are non-complex permissions consistent with TRCA approved policies and procedures and issued for a time period of two years or less.

#### **CITY OF BRAMPTON**

##### **22643109 ONTARIO INC. - Etobicoke Creek Watershed**

The purpose is to undertake works within TRCA Regulated Area of the Etobicoke Creek Watershed in order to facilitate the development of a secondary dwelling unit located in the basement of the existing house, and a new side entrance located in the existing attached garage. The subject property is located at 3147 Mayfield Road, in the City of Brampton.

**CFN: 62891 - Application #: 0212/20/BRAM**

**Report Prepared by: Lina Alhabash, extension 5657, email [lina.alhabash@trca.ca](mailto:lina.alhabash@trca.ca)**

**For information contact: Lina Alhabash, extension 5657, email [lina.alhabash@trca.ca](mailto:lina.alhabash@trca.ca)**

**Date: March 16, 2020**

##### **2512195 ONTARIO INC. - Etobicoke Creek Watershed**

The purpose is to undertake works within a TRCA Regulated Area of the Etobicoke Creek Watershed in order to facilitate the realignment of a stream corridor bisecting the subject property, convert an existing one-storey industrial building into a 20-unit light industrial plaza, and expand the existing parking lot associated with a site plan application at 134 Kennedy Road South, in the City of Brampton.

**CFN: 61025 - Application #: 0172/19/BRAM**

**Report Prepared by: Adam Miller, extension 5244, email [adam.miller@trca.ca](mailto:adam.miller@trca.ca)**

**For information contact: Adam Miller, extension 5244, email [adam.miller@trca.ca](mailto:adam.miller@trca.ca)**

**Date: March 23, 2020**

#### **CITY OF BRAMPTON - Humber River Watershed**

The purpose is to replace an existing culvert with a larger structure along Countryside Drive, west of Clarkway Drive, in the City of Brampton. The warm water construction window applies to this project.

**CFN: 55434 - Application #: 0105/18/BRAM**

**Report Prepared by: Annette Lister, extension 6443, email [annette.lister@trca.ca](mailto:annette.lister@trca.ca)**

**For information contact: Annette Lister, extension 6443, email [annette.lister@trca.ca](mailto:annette.lister@trca.ca)**

**Date: February 20, 2020**

## Item 11.1

### **GURDWARA GURU NANK MISSION CENTRE - Etobicoke Creek Watershed**

The purpose is to undertake works within TRCA's Regulated Area of the Etobicoke Creek Watershed in order to facilitate the construction of an 80 sq.m (862 sq.ft) two-storey addition to the existing place of worship located at 581-585 Peter Robertson Boulevard in the City of Brampton. Site works also include a parking lot expansion and are associated with a municipal Site Plan application (City File: SP 10-057.001) and building permit.

**CFN: 62119 - Application #: 0930/19/BRAM**

**Report Prepared by: Anthony Syhlonyk, extension 5272, email [anthony.syhlonyk@trca.ca](mailto:anthony.syhlonyk@trca.ca)**

**For information contact: Adam Miller, extension 5244, email [adam.miller@trca.ca](mailto:adam.miller@trca.ca)**

**Date: September 24, 2019**

### **58 VIEWMOUNT CRESCENT - Etobicoke Creek Watershed**

The purpose is to undertake works within TRCA Regulated Area of the Etobicoke Creek Watershed in order to facilitate the development of a secondary dwelling unit, a below-grade entrance and a new window, located in the basement of the existing house. The subject property is located at 58 Viewmount Crescent, in the City of Brampton.

**CFN: 62889 - Application #: 0200/20/BRAM**

**Report Prepared by: Lina Alhabash, extension 5657, email [lina.alhabash@trca.ca](mailto:lina.alhabash@trca.ca)**

**For information contact: Lina Alhabash, extension 5657, email [lina.alhabash@trca.ca](mailto:lina.alhabash@trca.ca)**

**Date: March 16, 2020**

### **42 CAPE DORSET CRESCENT - Humber River Watershed**

The purpose is to undertake works within TRCA Regulated Area in the Humber River Watershed in order to facilitate the development of a secondary unit, a side entrance and a new window, located in the basement of the existing house. The subject property is located at 42 Cape Dorset Crescent, in the City of Brampton.

**CFN: 62924 - Application #: 0192/20/BRAM**

**Report Prepared by: Lina Alhabash, extension 5657, email [lina.alhabash@trca.ca](mailto:lina.alhabash@trca.ca)**

**For information contact: Lina Alhabash, extension 5657, email [lina.alhabash@trca.ca](mailto:lina.alhabash@trca.ca)**

**Date: March 16, 2020**

### **26 GOLD TREE STREET - Mimico Creek Watershed**

The purpose is to undertake works within TRCA Regulated Area of the Mimico Creek Watershed in order to facilitate the development of a secondary dwelling unit, 4 new windows, and the enlargement of 2 existing windows, located in the basement of the existing house. The subject property is located at 26 Gold Tree Street, in the City of Brampton.

**CFN: 62883 - Application #: 0182/20/BRAM**

**Report Prepared by: Lina Alhabash, extension 5657, email [lina.alhabash@trca.ca](mailto:lina.alhabash@trca.ca)**

**For information contact: Lina Alhabash, extension 5657, email [lina.alhabash@trca.ca](mailto:lina.alhabash@trca.ca)**

**Date: March 10, 2020**

### **57 EXECUTIVE COURT - Humber River Watershed**

The purpose is to undertake works within TRCA Regulated Area of the Humber River Watershed in order to facilitate the development of a secondary dwelling unit, below grade entrance and a new window, located in the basement of the existing house. The subject property is located at 57 Executive Court, in the City of Brampton.

**CFN: 62878 - Application #: 0152/20/BRAM**

**Date: March 11, 2020**

### **TOWN OF AJAX**

#### **CPSP AJAX NOMIEE INC. - Carruthers Creek Watershed**

The purpose is to perform grading works on the north portion of the site to facilitate the construction of a multi-storey commercial warehouse, stormwater management pond, and outfall channel to be located at the southeast corner of Rossland Road East and Salem Road in the Town of Ajax.

**CFN: 62990 - Application #: 0270/20/AJAX**

**Report Prepared by: Stephanie Worron, extension 5907, email [stephanie.worron@trca.ca](mailto:stephanie.worron@trca.ca)**

**For information contact: Steve Heuchert, extension 5311, email [steve.heuchert@trca.ca](mailto:steve.heuchert@trca.ca)**

**Date: March 24, 2020**

### **TOWN OF CALEDON**

#### **7171 COOLIHANS SIDE ROAD - Humber River Watershed**

The purpose is to construct a 120.63 square metre residential accessory structure (i.e., garage) and a 15.58 square metre residential accessory structure (i.e., pool house) within the regulated area of the Humber River Watershed at 7171 Coolihans Side Road, in the Town of Caledon, associated with a municipal site plan application.

**CFN: 62976 - Application #: 0230/20/CAL**

**Report Prepared by: Jason Wagler, extension 5370, email [jason.wagler@trca.ca](mailto:jason.wagler@trca.ca)**

**For information contact: Jason Wagler, extension 5370, email [jason.wagler@trca.ca](mailto:jason.wagler@trca.ca)**

**Date: March 13, 2020**

### **TOWNSHIP OF KING**

#### **REGIONAL MUNICIPALITY OF YORK - Humber River Watershed**

The purpose is to undertake emergency culvert replacement works on three cross culverts crossing King Road, 50 m east of Kinsley Street, in the Township of King. The proposed works involve removal of three existing corrugated steel pipe (CSP) culverts (600 mm x 22 m, 1200 mm x 21 m and 1200 mm x 20 m) and replacing with the same size and type culverts. The Redside Dace fisheries timing window will apply to this proposal, unless otherwise specified in writing by the Ministry of Environment, Conservation and Parks (MECP). The proposed works are classified as "Emergency Infrastructure Works" due to the structural soundness that could lead to sudden collapse, representing an immediate hazard to public safety, and as such represented a threat of loss of property (Conservation Authorities Act) and are considered urgent. This permit is in accordance with TRCA Permission for Emergency Infrastructure Works Review Protocol (Authority Res. #A105/15).

## Item 11.1

**CFN: 55817 - Application #: 0504/16/KING**

**Report Prepared by: Harsimrat Pruthi, extension 5744, email [harsimrat.pruthi@trca.ca](mailto:harsimrat.pruthi@trca.ca)**

**For information contact: Harsimrat Pruthi, extension 5744, email [harsimrat.pruthi@trca.ca](mailto:harsimrat.pruthi@trca.ca)**

**Date: March 20, 2020**

### **6655 17TH SIDEROAD - Humber River Watershed**

The purpose is to undertake works within TRCA's Regulated Area of the Humber River Watershed in order to facilitate the construction of a 556.12 sq. m. (5986 sq. ft.) replacement dwelling with porches and an associated septic system. The subject property is located on lands known municipally as 6655 17th Sideroad, in the Township of King.

**CFN: 62973 - Application #: 0231/20/KING**

**Report Prepared by: Hamedeh Razavi, extension 5256, email [hamedeh.razavi@trca.ca](mailto:hamedeh.razavi@trca.ca)**

**For information contact: Jason Wagler, extension 5370, email [jason.wagler@trca.ca](mailto:jason.wagler@trca.ca)**

**Date: March 23, 2020**

### **PERMISSION FOR ROUTINE INFRASTRUCTURE WORKS FOR RECEIPT – STAFF APPROVED AND ISSUED**

Permission for Routine Infrastructure Works, including Emergency Infrastructure Works permissions, are subject to authorization by staff designated as Enforcement Officers as per Authority Res. #A198/13 and #A103/15, respectively. All routine and emergency infrastructure works are located within a regulated area, generally within or adjacent to the hazard or natural feature and in the opinion of staff do not affect the control of flooding, erosion, dynamic beaches, pollution or the conservation of land.

### **CITY OF MARKHAM**

#### **CITY OF MARKHAM**

To undertake road/pathway resurfacing or reconstruction and undertake drainage structure general maintenance on Edward Jefferys Avenue, west of Golden Meadow Drive, near McCowan Road and 16th Avenue, in the City of Markham, Rouge River Watershed as located on property owned by the City of Markham. The purpose is to undertake rehabilitation of a culvert located on Edward Jefferys Avenue, west of Golden Meadow Drive, near McCowan Road and 16th Avenue in the City of Markham. The rehabilitation works will include removal of deteriorated concrete from the culvert walls and wingwalls and concrete patch repairs to deck soffit, west abutment wall, wingwalls and repair railing post foundation on wingwalls. In water and near water works are subject to the cold water construction timing window.
