RE: Request for Delegation - April 9, 2021 Executive Committee Meeting Subject:

Wednesday, April 7, 2021 12:49:19 AM Date:

Attachments: image001.png

I feel the process is not designed for public concerns to be addressed. On July 29, 2011 we had an understanding regarding the Clairville Trail in that the neighbouring area residences would investigate with the TRCA certain aspects of the trail, TRCA had 10 years to investigate with the neighbouring area residences and did not do this. The trail is moving along and the time to meet with the residence has not been dealt with. This is wrong and should be addressed now not in the future, it should have been addressed during the past 10 years before the trail construction commenced.

We are demanding a full investigation into the process and the reason that we were not contacted prior to the commencement of the construction as we were led to believe back in 2011 would occur.

The TRCA HAS LOST Any credibility with the neighbouring area residences at this time.

We are apposed to the trail and will not be in favour of any connections to our Valleycreek neighbourhood.

I have heard how these connection are for our neighbourhood, thanks but no thanks we want no part of the trail.

The Vista blocks are not to be part of any access points to the unwanted Trail.

I want the TRCA TO MEET ASAP WITH US, we are requesting that we appear at you meeting to Express our frustration and disappointment in the way we have been treated and left out of the process.

Please share this at the April 9, 2021 executive meeting as I am not being allowed to participate by the TRCA.

**Thanks** Tony

Subject: Request for Delegation - April 9, 2021

Date: Wednesday, April 7, 2021 1:25:36 PM

Importance: High

#### Request for Delegation - April 9, 2021 Executive Committee Meeting

I Cynthia requesting for a delegation.

As a community we are demanding a full investigation into Clairville Trail Project as it was not transparent with the residents. Looks like councils passed it back in 2011 not sure why it was not disclosed to residents. Till now there was no signs posted about this project. Absolutely no communication for either the city or TRCA. The process and the reason that we were not contacted prior to the commencement of the construction as we were led to believe back in 2011 would occur.

The TRCA HAS LOST Any credibility with the neighbouring area residences at this time. We are opposed to the trail and will not be in favour of any connections to our neighbourhood's vista blocks.

We have heard these connections are for our neighbourhood use only from the city, city councillors and TRCA. We do not want trails; we do not need the trails in our neighbourhoods. If we want to use the trails, we will drive to McVean farm entrance or any other main entrances.

The Vista blocks are not an option to be part of any access points to the unwanted Trail. We want the TRCA to meet with the residents as soon as possible, we are requesting that we appear at you meeting to express our frustration and disappointment in the way we have been treated and left out of the process.

As a community we have over 100 signature and counting opposing the trail project.

Once email is received pls confirmed that you have received this email kindly.

Regards,

Cynthia Sri Pragash

#### Section I - Items for Board of Directors Action

**TO:** Chair and Members of the Executive Committee

Friday, April 09, 2021 Meeting

**FROM:** Michael Tolensky, Chief Financial and Operating Officer

RE: 2021 BUDGET

#### **KEY ISSUE**

Approval of Toronto and Region Conservation Authority's (TRCA) 2021 Budget, including municipal general (operating), capital levies, grants, donations, contract services, application fees, user fees and other revenues.

#### RECOMMENDATION

THAT the 2021 TRCA Budget, and all projects and programs therein, be adopted;

THAT TRCA staff be authorized to amend the 2021 Budget, to reflect actual 2020 provincial transfer payment allocations to set the amount of matching levy required by the Conservation Authorities Act;

THAT the cost of property taxes imposed by municipalities be included as additional levy to the participating municipalities where the lands are located, excluding the cost of property taxes which are passed on to a third party under a lease or similar agreement;

THAT, except where statutory or regulatory requirements provide otherwise, TRCA staff be authorized to enter into agreements with private sector organizations, non-governmental organizations or governments and their agencies for the undertaking of projects which are of benefit to TRCA and funded by the sponsoring organization or agency, including projects that have not been provided for in the approved TRCA budget;

AND FURTHER THAT authorized TRCA officials be directed to take such action as may be necessary to implement the foregoing, including obtaining approvals and the signing and execution of documents.

#### **BACKGROUND**

TRCA's annual budget is partially funded by levies to the upper tier partner municipalities within our jurisdiction as permitted under the *Conservation Authorities Act* and as set out in regulation. The budget also includes funding from other revenue sources such as contract services, user fees, application fees, internal charge backs, grants from other levels of government and through fundraising or donations.

#### **RATIONALE**

Enclosed in *Attachment 1* is the recommended 2021 Budget, which is composed of operating and capital projects and programs. As a note, the financials within the 2021 Budget are rounded to the nearest thousand, which leads to minor addition differences within the document.

#### **Municipal Approvals**

Preliminary budgets are prepared each year for submission to TRCA's partner municipalities. Staff meet with municipal staff throughout the year, as required by the budget processes in our partner upper tier municipalities and according to schedules that are set out by each participating municipality. Presentations are made to partner municipality staff and their respective committees and councils.

The funding identified in the recommended apportionment of the levies reflects the amounts that the partner municipalities have approved in their 2021 budgets. Contributions from the City of Toronto and the regional municipalities of Durham, Peel and York have received council approval. The Township of Adjala-Tosorontio and the Town of Mono have been advised of TRCA's levy request.

#### Notice of Meeting

As required by regulation, TRCA has provided 30 days' written notice to its partner municipalities of the date of the meeting at which the Board of Directors will consider the budget, which includes the approved municipal levies.

Relationship to Building the Living City, the TRCA 2013-2022 Strategic Plan
This report supports the following strategy set forth in the TRCA 2013-2022 Strategic Plan:
Strategy 9 – Measure performance

#### **FINANCIAL DETAILS**

The 2021 budget is reflective of COVID-19 adapted business models which enabled TRCA to largely maintain service delivery and mitigate net financial losses throughout 2020. COVID-19 restrictions are anticipated to continue intermittently throughout 2021 and self-generated revenues have been budgeted accordingly. Staff are prepared to adapt the organization's programming and facilities in response to changing Provincial directives and will monitor actual revenue and expenditures throughout 2021. *Table 1* below provides a comparison of operating and capital budget details by service area in 2020 and 2021.

Table 1: Operating and Capital Budget Details by Service Area

| Service Area (SA) |  | 2021<br>Surplus /<br>(Deficit)<br>(\$) | 2020<br>Surplus /<br>(Deficit)<br>(\$) | Explanation  |
|-------------------|--|--|--|--|
| 1.                | Watershed<br>Studies &<br>Strategies     | -                                      | -                                      | No change.   |
| 2.                | Water Risk<br>Management                 | 282,000                                | 209,000                                | This SA surplus is due to the structure of the Regional Watershed Monitoring Program (RWMP) which crosses SA 2 and 3. Additional program funding was directed towards SA 3 in 2021, but this did not entirely close the funding gap. |
| 3.                | Regional<br>Biodiversity                 | 424,000                                | (82,000)                               | This SA surplus is due to tipping fees generated at Brock North (\$712,000) which will be used for future restoration of the site. The SA surplus is reduced by RWMP expenditures which are offset by SA 2.                          |
| 4.                | Greenspace<br>Securement &<br>Management | 386,000                                | 1,133,000                              | Budgeted Greenspace Land Acquisition revenue was reduced considering actual revenue earned in 2020. The SA surplus is generated by TRCA's rental program will be used to offset related expenditures in Corporate                    |

|                            |  |  | Services (SA 9).   |
|----------------------------|--|--|--|
| Service Area (SA)          | 2021<br>Surplus /<br>(Deficit)<br>(\$) | 2020<br>Surplus /<br>(Deficit)<br>(\$) | Explanation  |
| 5. Tourism & Recreation    | 165,000                                | 1,000                                  | This SA surplus is attributable to the Parks and Culture Division (\$53,000) and the Education & Training Division (\$112,000).  |
| 6. Planning & Development  | 19,000                                 | (1,000)                                | Similar to previous years, the Planning & Development SA is cost recoverable through fees.   |
| 7. Education & Outreach    | (763,000)                              | (1,000)                                | This SA deficit is partially offset by Kortright revenue in SA 5 (\$112,000). The remaining deficit in this SA is tied to Education & Training staffing costs. Staff will monitor revenue and expenditures throughout the year and will work to close the remaining gap throughout 2021. |
| 8. Sustainable Communities | -                                      | 1,000                                  | No change.   |
| 9. Corporate<br>Services   | 512,000                                | 841,000                                | This SA surplus is reduced due to the increased cost of insurance (\$105,000) and an enhanced staff development budget (\$224,000). In 2021, Human Resources will develop and coordinate corporate-wide training to close skill gaps previously identified by staff.                     |
| Total                      | 1,025,000                              | 2,101,000                              |  |

#### **DETAILS OF WORK TO BE DONE**

TRCA is committed to supporting everyone's health and well-being while remaining operationally sustainable throughout the COVID-19 pandemic. Recognizing that circumstances change quickly, TRCA is committed to monitoring and acting swiftly to address changing conditions. Staff will continue to monitor the financial health of the organization and report to the Board of Directors and partner municipalities at minimum, on a quarterly basis and more frequently, should circumstances require.

With respect to the *Conservation Authorities Act* (CA Act) amendments released in November 2020, TRCA will continue to provide input as part of the Province's CA Act Working Group and inform the Board of Directors of any major developments. Enabling regulations are anticipated to be released in 2021, impacting the 2022 fiscal year. As such, staff continue to work with partner municipalities to develop and/or update Memorandums of Understanding, Service Level Agreements and/or Fee-for-Service Agreements to ensure the seamless delivery of shared sustainability objectives.

**TO:** Chair and Members of the Executive Committee

Friday, April 09, 2021 Meeting

**FROM:** Michael Tolensky, Chief Financial and Operating Officer

RE: 2021 UNFUNDED PRIORITIES

### **KEY ISSUE**

Approval of Toronto and Region Conservation Authority's (TRCA) list of 2021 Unfunded Priorities and the allocation of unrestricted reserves as recommended by Senior Leadership Team (SLT).

### **RECOMMENDATION**

THAT the 2021 Unfunded Priorities list, and all projects and programs therein, be adopted;

THAT TRCA staff be authorized to amend the 2021 Unfunded Priorities throughout the year as new funding pressures arise.

THAT the Petticoat Creek Infrastructure - Maintenance Shop project (\$523,000) be funded by TRCA's unrestricted reserves and removed from the list, as recommended by SLT.

THAT the Data Strategy project (\$85,000) be funded by TRCA's unrestricted reserves and removed from the list, as recommended by SLT.

THAT the Digital Strategy project (\$70,000) be funded by TRCA's unrestricted reserves and removed from the list, as recommended by SLT.

### **BACKGROUND**

The unfunded priorities list is a budget document outlining funding pressures that are not currently allocated in the organizations existing budget. This may include an increase in service level, additional staffing, or new programs or modifications that are not part of the base existing budget from the previous year.

The unfunded priority list is prepared by staff in coordination with divisional directors and managed by the Strategic Business Planning and Performance (SBPP) Business Unit. The procedure for adding a project or program to the list of unfunded priorities is outlined in SPP No. CS6.03.

### **RATIONALE**

SBPP coordinated updates for the 2021 Unfunded Priorities list with staff and have prioritized initiatives according to the evaluation matrix which was developed in consultation with partner municipalities. Prioritized initiatives have been placed into four equal groupings determined according to the distribution of the ranking values: A, B, C and D in *Attachment 1*. Initiatives have also been organized by partner municipality in *Attachment 2*.

The prioritization process helped to arrange initiatives based on several categories including but not limited to alignment, risk and *Conservation Authorities Act* classification. Through the 2021

process, inequities in initiative scoring have been noted by SBPP stemming from initiatives that are directly associated with maintaining TRCA's service levels. The initiatives that support the operations of TRCA often score low compared to other initiatives that are strongly aligned with partner municipality priorities. Due to these findings, SBPP added an additional categorization "Potential Funding" which helps to identify the funding methodology for each initiative. This process will help to determine how funding opportunities could be allocated in an equitable manner. If an operational surplus is deemed available in a given fiscal year, SBPP will provide a recommendation to SLT based on the categorization of potential funding types.

At the end of 2019, TRCA's unrestricted reserves were \$14,239,000 and although the 2020 financial year is still being finalized, the expected operational surplus for the year is estimated to be approximately \$4,200,000, including \$2,100,000 which was budgeted to repay initiatives that were spent ahead in prior year. TRCA's SLT is recommending that a portion of the additional operation surplus be allocated to the following projects utilizing the organization's unrestricted reserves, subject to Board approval:

- Petticoat Creek Infrastructure Maintenance Shop \$523,000
- Data Strategy \$85,000
- Digital Strategy \$70,000

Relationship to Building the Living City, the TRCA 2013-2022 Strategic Plan
This report supports the following strategy set forth in the TRCA 2013-2022 Strategic Plan:
Strategy 7 – Build partnerships and new business models

### FINANCIAL DETAILS

The list of 2021 Unfunded Priorities has no 2021 budgetary impact. This list, in addition to new Board priorities, will help to inform the 2022 budget process. In addition, this list will also be communicated to senior levels of government to inform their budget processes and their program design and delivery where relevant programs already exist.

### **DETAILS OF WORK TO BE DONE**

The Unfunded Priority List will continue to evolve as new funding pressures arise and revised iterations will be approved by the Board annually. Maintenance of the Unfunded Priority List will enable a consistent and coordinated response to internal and external funding opportunities, which may arise at any time.

Throughout 2021 staff will liaise with TRCA Board of Directors and partner municipalities to integrate priority projects. In addition, staff will liaise with relevant federal and provincial officials to discuss how such projects could be considered. The TRCA Grant Centre will also seek opportunities to work with partners and TRCA divisions to apply for relevant grants and funding intakes.

RE: GREENSPACE ACQUISITION PROJECT FOR 2021-2030 (COUGS (DUFFINS

VILLAGE) LTD.)

Flood Plain and Conservation Component, Duffins Creek Watershed

Cougs (Duffins Village) Ltd. (CFN 64683)

### **KEY ISSUE**

Acquisition of property located east of Church Street and north of Rossland Road, in the Town of Ajax, Regional Municipality of Durham, under the "Greenspace Acquisition Project for 2021-2030," Flood Plain and Conservation Component, Duffins Creek watershed.

### RECOMMENDATION

THE EXECUTIVE COMMITTEE RECOMMENDS THAT 5.05 hectares (12.47 acres), more or less, of vacant land, located east of Church Street and north of Rossland Road, said land being all of PIN 26408-1528 (LT), legally described as Part Lot 14, Concession 3 Pickering, Parts 1 and 2, Plan 40R-4663, Save and Except Parts 1 and 2, Plan 40R-29414, Town of Ajax; Part of PIN 26408-2037 (LT), legally described as Part Lot 14, Concession 3 Pickering, being Part 2, Plan 40R-29414, Except Plan 40-M2691, Town of Ajax; PIN 26408-02035 (LT) legally described as Part Lot 13, Concession 3 Pickering, Part 1, Plan 40R-25752, Save and Except Plan 40M-2436 and Except Plan 40M-2691, Town of Ajax, and; PIN 26408-2041 (LT) Block 2, on plan 40M-2041; and an access easement through Block 1 on Plan 40M-2691; all in Town Ajax, Regional Municipality of Durham, be purchased from Cougs (Duffins Village) Ltd.;

THAT the purchase price be \$2.00;

THAT Toronto and Region Conservation Authority (TRCA) receive conveyance of the land free from encumbrance, subject to existing service easements;

THAT the transaction completed at the earliest possible date and all reasonable expenses incurred incidental to the closing for land transfer tax, legal costs, and disbursements are to be paid by TRCA;

AND FURTHER THAT once Ministerial approval of the Greenspace Acquisition Project 2021-2030 is received, authorized TRCA officials be directed to take the necessary action to finalize the transaction, including obtaining any necessary approvals and the signing and execution of documents.

### **BACKGROUND**

Resolution #A28/20 at Board of Directors Meeting #3/20, held on April 24, 2020, approved the Greenspace Acquisition Project for 2021-2030.

Negotiations have been conducted with Ian McCullough, Vice President of Land Development, Coughlan Homes.

Access to the subject lands will be achieved through an access easement through the townhouse complex.

Attachment 1 is a sketch illustrating the location of the subject lands. Attachment 2 is an orthophoto illustrating the location of the subject lands.

# **RATIONALE**

The subject lands fall within TRCA's plan for acquisition as outlined in the approved Greenspace Acquisition Project for 2021-2030. Through the review of the Plan of Subdivision Application S-A-2016-02 and Plan of Condominium Application C-A-2016-02, TRCA staff established the limits of the open space land.

Relationship to Building the Living City, the TRCA 2013-2022 Strategic Plan
This report supports the following strategy set forth in the TRCA 2013-2022 Strategic Plan:
Strategy 4 – Create complete communities that integrate nature and the built
environment

### **FINANCIAL DETAILS**

Acquisition funds for the costs related to this purchase are available in the TRCA land acquisition capital account.

The annual costs regarding the subject lands are projected to be:

- 1) The subject property is eligible for a property tax exemption under the provincial Conservation Land Tax Incentive Program; and
- 2) The management cost associated with these subject lands is estimated to be \$2,348 annually (aggregate value based on low service lands consisting of biennial property line inspections and anticipated hazard tree removal).

The management costs will be added to future annual budgetary requests to the Regional Municipality of Durham.

RE: GREENLANDS ACQUISITION PROJECT FOR 2021-2030 (DEFRIES

**DEVELOPMENTS LIMITED)** 

Flood Plain and Conservation Component, Don River Watershed

Defries Developments Limited (CFN 63986)

### **KEY ISSUE**

Acquisition of property located south of Dundas Street East and west of Bayview Avenue, municipally known as 1-25 Defries Street, in the City of Toronto, under the "Greenland Acquisition Project for 2021-2030," Flood Plain and Conservation Component, Don River watershed.

### RECOMMENDATION

THE EXECUTIVE COMMITTEE RECOMMENDS THAT 0.1105 hectares (0.2731 acres), more or less, of vacant land, located south of Dundas Street East and west of Bayview Avenue, said land being designated firstly as Part of Lots 19, 20, 21, 22, 23, 24, 25, 26 and 27 Plan D233, Toronto, secondly, Part of Lot F, Don Improvement Plan, all being Parts 2 & 3 of Plan 66R-31592, Toronto, municipally known as 1-25 Defries Street, in the City of Toronto, be purchased from Defries Developments Limited;

THAT the purchase price be \$2.00;

THAT Toronto and Region Conservation Authority (TRCA) receive conveyance of the land free from encumbrance, subject to existing service easements;

THAT TRCA enter into a Limiting Distance Agreement with City of Toronto and Defries Developments Limited in respect of a portion of the lands to be conveyed to TRCA;

THAT consideration of One Million Five Hundred Eighty-Two Thousand and Four Hundred Twenty-Five Dollars (\$1,582,425) be paid to TRCA from Defries Developments Limited for the Limiting Distance Agreement;

THAT TRCA receive conveyance of the land free from encumbrance, subject to the Limiting Distance Agreement and existing service easements;

THAT the Limiting Distance Agreement be executed, and the transaction be completed at the earliest possible date and all reasonable expenses incurred incidental to the closing for land transfer tax, legal costs, and disbursements are to be paid by Defries Developments Limited;

AND FURTHER THAT once Ministerial approval of the Greenspace Acquisition Project 2021-2030 is received, authorized TRCA officials be directed to take the necessary action to finalize the acquisition, including obtaining any necessary approvals and the signing and execution of documents.

# **BACKGROUND**

Resolution #A28/20 at Board of Directors Meeting #3/20, held on April 24, 2020, approved the Greenspace Acquisition Project for 2021-2030. Negotiations have been conducted with Matthew Lakatos-Hayward, Associate at Goodmans LLP, acting as agent/counsel for the owners Defries Developments Limited.

Access to the subject lands will be achieved through its frontage on Bayview Avenue.

Through staff review of the combined Official Plan Amendment Application, Zoning By-law Amendment Application and Site Plan Application for a residential development, TRCA staff established the limits of the open space land and requested that certain lands be conveyed into public ownership. Through discussions with City of Toronto, it was determined that the lands are to be conveyed to TRCA.

Subsequent to that determination, the proponent requested a Limiting Distance Agreement, whereby TRCA agrees that it shall not construct, or cause or permit to be constructed, any building or other structure on the subject lands within the Limiting Distance Area (0.02 hectares or 0.04 acres). A Limiting Distance Agreement is a mechanism that is used for compliance with the Ontario Building Code to reduce the risk of fire spreading from a building situate on one property to a building located on adjacent property.

A Narrative Appraisal Report and Valuation Analysis was prepared by D. Bottero & Associates Limited for TRCA for the purposes of determining compensation for burdening the lands to be conveyed to TRCA by the Limiting Distance Agreement. The appraisal assessed the value of the area at Nine Hundred and Seventy-Five Dollars (\$975) per square foot. Staff negotiated compensation based on 75% of the appraised value of the Limiting Distance Area.

The compensation shall be paid in the following installments:

- 1. The Defries Owner shall pay TRCA the sum of Three Hundred and Ninety-Five Thousand Six Hundred and Six Dollars (\$395,606) upon TRCA's execution of the Limiting Distance Agreement.
- 2. The Defries Owner shall pay to TRCA the sum of Three Hundred and Ninety-Five Thousand Six Hundred and Six Dollars (\$395,606) on or before December 31, 2022.
- 3. The Defries Owner shall pay to TRCA the sum of Seven Hundred and Ninety-One Thousand Two Hundred and Thirteen Dollars (\$791,213) within five (5) business days following the conveyance of the lands to TRCA.

Attachment 1 is a sketch illustrating the location of the subject lands as well as the are subject to the Limiting Distance Agreement. Attachment 2 is an orthophoto illustrating the location of the subject lands.

### **RATIONALE**

The subject lands fall within TRCA's approved master plan for acquisition for the Don River watershed as outlined in the approved Greenland Acquisition Project for 2021-2030. Through the review of the Official Plan Amendment Application, Zoning By-law Amendment Application (14 213710 STE OZ), and Site Plan Application (18 209086 STE 28 SA) for residential development, TRCA staff established the limits of the open space land.

This acquisition opportunity was brought through a Planning application to undertake development within TRCA's Regulated Area of the Don River watershed in order to facilitate the construction associated with a 37-storey residential building containing 560 dwelling units and 3 levels of below grade parking at 1-25 Defries Street. The works are to be approved in multiple phases. The first phase is associated with grading, shoring and piling. The latter phase(s) is associated with foundations, above grade works, hard and soft landscaping.

The proposed acquisition by TRCA of the subject lands is pursuant to a Section 37 Agreement between the proponent and City of Toronto, as approved by City Council. The proposed public trail and connections to Bayview are envisioned through the approved Queen-River Secondary Plan (see Map 34-2 <a href="https://www.toronto.ca/legdocs/mmis/2019/te/bgrd/backgroundfile-135204.pdf">https://www.toronto.ca/legdocs/mmis/2019/te/bgrd/backgroundfile-135204.pdf</a>) and are to be managed and maintained by the City of Toronto through the current Management Agreement between TRCA and the City of Toronto. The subject lands are not to be used for parking or advertising.

The Regulatory Floodplain associated with the watercourse, is contained within blocks to be conveyed to TRCA. The subject site was previously occupied by a light industrial use building which was constructed into the slope. It is noted that the entire slope and buffer will be remediated, and the slope reconstructed at a stable slope inclination. As per the Queen-River Secondary Plan, public access will be provided by a trail located within the 10-metre buffer. Access from the site down to the sidewalk on Bayview Avenue will be established at two locations with a staircase and a switchback.

# Relationship to Building the Living City, the TRCA 2013-2022 Strategic Plan

This report supports the following strategies set forth in the TRCA 2013-2022 Strategic Plan:

Strategy 3 – Rethink greenspace to maximize its value

Strategy 7 – Build partnerships and new business models

# TAXES AND MAINTENANCE

This parcel of land will be turned over to the City of Toronto under the terms of the existing management agreement.

Friday, April 09, 2021 Meeting

**FROM:** Michael Tolensky, Chief Financial and Operating Officer

RE: GREENSPACE ACQUISITION PROJECT FOR 2021-2030 (RIVERSIDE

(BRISCOE) INC.)

Flood Plain and Conservation Component, Duffins Creek watershed

Riverside (Briscoe) Inc. (CFN 64534)

### **KEY ISSUE**

Acquisition of property located south of Rossland Road W. and east of Riverside Drive, in the Town of Ajax, Regional Municipality of Durham, under the "Greenspace Acquisition Project for 2021-2030," Duffins Creek watershed.

### RECOMMENDATION

THE EXECUTIVE COMMITTEE RECOMMENDS THAT 0.33 hectares (0.80 acres), more or less, of vacant land, located south of Rossland Road W. and east of Riverside Drive, said land being Part of Lots 3 and 4, Part 40M-1263 and designated as Block 10 on draft M-plan, in the Town of Ajax, Regional Municipality of Durham, be purchased from Riverside (Briscoe) Inc.;

THAT the purchase price be \$2.00;

THAT Toronto and Region Conservation Authority (TRCA) receive conveyance of the land free from encumbrance, subject to existing service easements;

THAT the transaction be completed at the earliest possible date and all reasonable expenses incurred incidental to the closing for land transfer tax, legal costs, and disbursements are to be paid by TRCA;

AND FURTHER THAT once Ministerial approval of the Greenspace Acquisition Project 2021-2030 is received, authorized TRCA officials be directed to take the necessary action to finalize the transaction, including obtaining any necessary approvals and the signing and execution of documents.

# **BACKGROUND**

Resolution #A28/20 at Board of Directors Meeting #3/20, held on April 24, 2020, approved the Greenspace Acquisition Project for 2021-2030.

Negotiations have been conducted with Dugald Wells, General Manager of Marshall Homes.

Access to the subject lands will be achieved from Riverside Drive.

Attachment 1 is a sketch illustrating the location of the subject lands. Attachment 2 is an orthophoto illustrating the location of the subject lands.

# **RATIONALE**

The subject lands fall within TRCA's plan for acquisition as outlined in the approved Greenspace Acquisition Project for 2021-2030. Through the review of the residential plan of subdivision (S-A-2014-01), TRCA staff established the limits of the open space land.

Relationship to Building the Living City, the TRCA 2013-2022 Strategic Plan
This report supports the following strategy set forth in the TRCA 2013-2022 Strategic Plan:
Strategy 4 – Create complete communities that integrate nature and the built
environment

### **FINANCIAL DETAILS**

Funds for the costs related to this purchase are available in the TRCA land acquisition capital account.

The annual costs regarding the subject lands are projected to be:

- 1) Property tax is \$1,214 annually; and
- 2) The management cost associated with these subject lands is estimated to be \$154 annually (aggregate value based on low service lands consisting of biennial property line inspections and hazard tree removal).

These costs will be added to future annual budgetary requests for the Regional Municipality of Durham.

RE: ASSIGNMENT OF LEASE AGREEMENT

(Part of Lot 17, Concession 2, City of Vaughan)

Shoresh Jewish Environmental Programs to York Region Food Network

### **KEY ISSUE**

Request from Shoresh Jewish Environmental Programs to assign the existing rental agreement to York Region Food Network, for the land located at 145 Lebovic Campus Drive, City of Vaughan, Regional Municipality of York, for the operation of a community garden.

### RECOMMENDATION

THE EXECUTIVE COMMITTEE RECOMMENDS THAT WHEREAS Toronto and Region Conservation Authority (TRCA) is in receipt of a request from Shoresh Jewish Environmental Programs ("Shoresh") to assign their rental agreement on approximately 0.236 acres (956 m²) of land, said land being Part of Lot 17, Concession 2, City of Vaughan, Regional Municipality of York, and municipally known as 145 Lebovic Campus Drive;

AND WHEREAS TRCA is in receipt of a request from York Region Food Network ("YRFN") to assume the rental agreement on this same area of land, said land being Part of Lot 17, Concession 2, City of Vaughan, Regional Municipality of York;

THEREFORE, LET IT BE RESOLVED THAT TRCA assign the existing rental agreement with Shoresh to YRFN for approximately 0.236 acres (956 m<sup>2</sup>) of land for the operation of a community garden, said land being Part of Lot 17, Concession 2, City of Vaughan, Regional Municipality of York;

THAT the rental agreement with YRFN be premised on assuming the terms and conditions of the current lease agreement with Shoresh, as per the following, save and except the original term:

- i. The term of the rental arrangement with YRFN will be for the remainder of the assigned term, that term being the period of July 1, 2013 to June 30, 2023, without the option of one ten-year, less one day, extension;
- ii. The assumed rental rate is to be \$18.00 per annum;
- iv. YRFN will be solely responsible for all costs associated with the operation of the community garden;
- v. YRFN will be solely responsible for all costs associated with the removal of any fixtures/infrastructure on the lands under lease, at the end of the term, and will restore the lands to the satisfaction of TRCA;
- vi. YRFN will be required to obtain at its cost, all necessary licenses and permits, and comply will all applicable by-laws, rules, regulations, and laws governing the conduct and operation of the community garden or anything in connection therewith; and

**Item 7.7** 

vii. The assigned lease to YRFN will assume all other terms and conditions of the existing lease with Shoresh;

AND FURTHER THAT the appropriate TRCA officials be authorized and directed to take whatever action may be required to give effect thereto, including the obtaining of necessary approvals and the execution of any documents.

### BACKGROUND

At Executive Committee Meeting #9/15, held on October 30, 2015, Resolution #A212/15 was adopted in part as follows:

"THAT 1.96 hectares (4.83 acres), more or less, of vacant land located west of Bathurst Street and north of Rutherford Road, in the City of Vaughan, Regional Municipality of York, said land being Part of Lot 17, Concession 2 and designated as Parts 2, 3, 4, 5, 6, 8, 9 and 12 on Plan 65R-35616, be purchased from the Joseph & Wolf Lebovic Jewish Community Campus;

...THAT Toronto and Region Conservation Authority (TRCA) receive conveyance of the lands free from encumbrance, subject to existing service easements and existing lease;..."

As part of this land acquisition in 2015, TRCA assumed the position of Landlord in the lease agreement with Shoresh Jewish Environmental Programs ("Shoresh"), by execution of a lease amending agreement. TRCA has collaborated with Shoresh through the implementation of this project. This lease TRCA assumed from Joseph & Wolf Lebovic Jewish Community Campus, had a term of ten years for the period of July 1, 2013 to June 30, 2023, with the option of one ten-year, less one day, extension. As TRCA cannot enter into lease agreements for terms longer than five years without provincial approval, the option of the extension of term will be excluded from the lease assignment from Shoresh to YRFN, and the assigned lease to YRFN will expire on June 30, 2023.

Since its establishment in 2009, Shoresh's community garden site at 145 Lebovic Campus Drive, Vaughan, known as the Shoresh "Kavanah Garden", has had over 1000 community members visit the garden to participate in educational school field trips, community festivals and events, gardening workshops, and to participate in the Community Supported Agriculture Program in partnership with local, organic farmers. Prior to 2020, the food grown at Shoresh's garden was donated to community members experiencing food insecurity, through partnerships at the Chasdei Kaduri Jewish Food Bank. In 2020, due to the COVID-19 pandemic, Shoresh transitioned the "Kavanah Garden" from an educational space to a community allotment garden so that community members struggling with food insecurity would still be able to access fresh, local, organic produce.

In 2019 Shoresh's Board of Directors undertook a strategic planning process in which the decision was reached to focus organizational resources on the development of Shoresh's additional projects in the Toronto area, and as such maintaining the garden site in Vaughan would no longer be one of Shoresh's strategic priorities. Given this, Shoresh conversed with their community partners at the York Region Food Network (YRFN) and YRFN have proposed to assume Shoresh's lease agreement with TRCA.

YRFN is a non-profit organization serving the Regional Municipality of York, to help provide access to healthy food, food skill development and educate about food insecurity. Since the

early 1990's YRFN have started, operated, and maintained allotment and communal gardens in schools, housing co-ops and on both private and municipal lands. YRFN's garden programs are designed to improve physical and mental health while creating opportunities for community members to connect to the environment and build relationships with the land and others. YRFN is committed to inclusive and equity programming that creates opportunities for people from all ages, backgrounds, and cultures to come and share their knowledge and skills.

YRFN is looking to transition the Shoresh "Kavanah Garden" into a Compost Learning Hub where there will be opportunities for food growing, environmental education and the demonstration of waste-free practices. Further, in 2022, YRFN plans to integrate public education programs into the space, with regular workshops and environmental education opportunities, including the potential to integrate youth programming onto the site by working with local children and youth organizations and the local schools.

A regional leader in the development and implementation of community gardens, YRFN currently coordinates five community gardens in three municipalities (City of Vaughan, Town of Aurora, Town of Newmarket), and has a full time Urban Agriculture Manager, and Garden Coordinators during the growing season and has the staff capacity to take on this garden space. YRFN plans to leverage their partnerships with organizations, businesses, and partners in the community to ensure the garden is animated, benefits the broad public and is maintained with high environmental standards.

Given COVID-19, the 2021 growing season will focus on the production of food. The 2021 season will open according to York Region Public Health's protocols and approvals. Gardeners will need to sign in/sign out every time they visit the garden, follow strict cleaning and sanitizing guidelines, and not be allowed to bring visitors into the garden with them. YRFN will also post signage at the garden to ensure safety is prioritized. YRFN staff will be on-site regularly to ensure a smooth transition from Shoresh to YRFN, and to ensure gardeners are following COVID-19 protocols.

As per the terms and conditions of the existing lease agreement between TRCA and Shoresh, YRFN would assume all responsibility for the community garden located on TRCA-owned land, said land being Part of Lot 17, Concession 2, City of Vaughan, Regional Municipality of York, and municipally known as 145 Lebovic Campus Drive.

Attachment 1 is a sketch illustrating the location of the subject lands. Attachment 2 is an orthophoto illustrating the location of the subject lands.

#### **RATIONALE**

The assignment of the lease from Shoresh Jewish Environmental Partners to York Region Food Network would be in the best interest of TRCA in furthering its objectives as set out in Section 20 of the *Conservation Authorities Act.* TRCA supports agriculture on its properties, where appropriate, and aligns its work in agriculture and urban agriculture with partners, to improve the health of watersheds and communities. Community and Allotment Gardens are an important means to empower communities to grow their own food and contribute towards sustainability. Furthermore, considering the current COVID-19 pandemic, community gardens have been recognized as an important essential service for continuing Ontario's food supply.

#### Section I - Items for Board of Directors Action

**TO:** Chair and Members of the Executive Committee

Friday, April 09, 2021 Meeting

**FROM:** Michael Tolensky, Chief Financial and Operating Officer

RE: STRABAG INC.

Proposal to Extend the Lease

3205 Sideline 16, City of Pickering, Regional Municipality of Durham, Duffins

Creek Watershed (CFN 50429)

#### **KEY ISSUE**

Proposal from Strabag Inc. to exercise the option to extend their lease for an additional 5 year period on Toronto and Region Conservation Authority-owned land for the purpose of temporary storage of Strabag Inc.'s equipment and materials located east of Sideline 16 and north of Concession Road 5, municipally known as 3205 Sideline 16, City of Pickering, Regional Municipality of Durham, Duffins Creek watershed.

#### RECOMMENDATION

THE EXECUTIVE COMMITTEE RECOMMENDS THAT WHEREAS the Toronto and Region Conservation Authority (TRCA) is in receipt of a request from Strabag Inc. to exercise their option to extend the term of their existing lease agreement for the purpose of temporary storage of Strabag Inc.'s equipment and materials located east of Sideline 16 and north of Concession Road 5, municipally known as 3205 Sideline 16, City of Pickering, Regional Municipality of Durham, Duffins Creek watershed;

AND WHEREAS it is in the opinion of TRCA that it is in the best interest of TRCA in furthering its objectives, as set out in Section 20 of the *Conservation Authorities Act*, to cooperate with Strabag Inc. in this instance;

THEREFORE LET IT BE RESOLVED THAT TRCA extend their lease with Strabag Inc. for the use of 0.999 hectares (2.47 acres), more or less, said land being part of Lot 16, Concession 5, municipally known as 3205 Sideline 16, City of Pickering, Regional Municipality of Durham;

THAT the extension of the lease with Strabag Inc. be subject to the following terms and conditions:

- i. That the renewal option term of the lease for 5 years be approved;
- ii. That consideration be \$28,000 per annum plus HST in 2021, \$30,200 per annum plus HST in 2022, and commencing in 2023 and for each subsequent year of the Term, the previous year's annual rental rate shall be increased (but never decreased) by the rate of inflation as calculated by Statistics Canada's All-Items Consumer Price Index (CPI) as per the annual average inflation rates index for Ontario for the previous calendar year, plus HST;
- iii. That Strabag Inc. is to be responsible for all approvals required for construction and operation of the temporary storage site for Strabag Inc.'s equipment and materials:
- iv. That Strabag Inc. is to be responsible for all costs associated with the removal of

- any equipment, materials and infrastructure associated with the construction and operation of their temporary storage site, at the end of the lease extension term, and restore the site to the satisfaction of TRCA;
- v. That the lease extension will assume all other terms and conditions of the existing lease with Strabag Inc.;
- vi. Any other terms and conditions deemed appropriate by TRCA staff and solicitor.

THAT said lease be subject to the approval of the Ministry of Natural Resources and Forestry in accordance with Section 21(2) of the *Conversation Authorities Act*, R.S.O. 1990, Chapter C.27, as amended, if required;

AND FURTHER THAT authorized TRCA officials be directed to take the necessary action to finalize the transaction, including obtaining any necessary approvals and the signing and execution of documents.

#### **BACKGROUND**

As part of temporary ancillary use of the Brock lands, Toronto and Region Conservation Authority (TRCA) entered into a lease agreement with Strabag Inc. for the purpose of temporary storage of Strabag Inc.'s equipment and materials located east of Sideline 16 and north of Concession Road 5, municipally known as 3205 Sideline 16, City of Pickering, Regional Municipality of Durham, Duffins Creek watershed.

The original lease agreement with Strabag Inc. dated April 1, 2016, was for a period of five years, with the option of one five-year extension. Since establishing the lease with Strabag Inc. in 2016 at an annual rental rate of \$12,000 plus HST, TRCA has increased Strabag Inc.'s annual rent by increments of \$3,000, bringing their current rental rate for the 2020/2021 lease period to \$24,000 plus HST. Nearing the end of the initial term, TRCA received a request from Strabag Inc. to extend their lease agreement for the additional five- year period, prompting TRCA to complete a fair market rent assessment of the leased lands. In February 2021, an independent appraisal company completed the assessment, returning a proposed annual rental rate of \$30,200 plus HST.

As per the terms and conditions of the lease, TRCA and Strabag Inc. will agree to modified terms for the extension period of the lease. It is therefore proposed that commencing with the extension term, the annual rent for the first year be established at \$28,000 plus HST, and the second year of the term at annual rent of \$30,200 plus HST. Commencing in 2023 and for each subsequent year of the Term, the previous year's annual rental rate shall be increased (but never decreased) by the rate of inflation as calculated by Statistics Canada's All-Items Consumer Price Index (CPI) as per the annual average inflation rates index for Ontario for the previous calendar year.

Attachment 1 is a sketch illustrating the location of the subject lands. Attachment 2 is an orthophoto illustrating the location of the subject lands. This renewal confirms the removal of the entrance and roadway from the existing leased lands.

#### **Lease Agreement**

The area subject to this lease extension consists of approximately 0.999 hectares (2.47 acres) of land. The following are the key terms and conditions of the proposed lease extension arrangement:

1. Lease Payment: For 2021 the rate is \$28,000 per annum plus HST, for 2022 the rate is \$30,200 per annum plus HST, for 2023 and for each subsequent year of the Term, the

previous year's annual rental rate shall be increased (but never decreased) by the rate of inflation as calculated by Statistics Canada's All-Items Consumer Price Index (CPI) as per the annual average inflation rates index for Ontario for the previous calendar year, plus HST;

- 2. Term of the extension: 5 years;
- 3. Insurance: Strabag Inc. will provide \$5 million in commercial general liability insurance;
- 4. Utilities: Strabag Inc. will be responsible for all utilities;
- 5. Further Approvals: Strabag Inc. will comply with any applicable laws, directions, rules and regulations;

#### **RATIONALE**

The extension of the lease with Strabag Inc. would be in the best interest of TRCA in furthering its objectives as set out in Section 20 of the *Conservation Authorities Act*. Extending the term of the lease agreement with Strabag Inc. is a temporary use that would allow for continued revenue generation, supporting financial sustainability of the Brock North lands and future restoration of the site.

## Relationship to Building the Living City, the TRCA 2013-2022 Strategic Plan

This report supports the following strategies set forth in the TRCA 2013-2022 Strategic Plan:

Strategy 3 – Rethink greenspace to maximize its value

Strategy 7 – Build partnerships and new business models

#### FINANCIAL DETAILS

The revenue generated from this lease extension will continue to be used for TRCA purposes and applied to 106-19 Brock North account series. The annual rental rate for the five year term is established as: \$28,000 plus HST for 2021, \$30,200 plus HST for 2022, and commencing in 2023 and for each subsequent year of the Term, the previous year's annual rental rate shall be increased (but never decreased) by the rate of inflation as calculated by Statistics Canada's All-ltems Consumer Price Index (CPI) as per the annual average inflation rates index for Ontario for the previous calendar year, plus HST.

#### Section I - Items for Board of Directors Action

**TO:** Chair and Members of the Executive Committee

April 09, 2021 Meeting

**FROM:** Michael Tolensky, Chief Financial and Operating Officer

RE: TEMPORARY SALES OFFICE PAVILION

(3966 EBENEZER ROAD, CITY OF BRAMPTON)

Rental Agreement with 2652367 Ontario Inc.

#### **KEY ISSUE**

Proposal to terminate the current TRCA rental agreement with Highcastle Homes and enter into a new rental agreement with 2652367 Ontario Inc., for the land located at 3966 Ebenezer Road, City of Brampton, Regional Municipality of Peel for the operation of a temporary sales office pavilion, for a five (5) year term.

#### RECOMMENDATION

THE EXECUTIVE COMMITTEE RECOMMENDS THAT WHEREAS Toronto and Region Conservation Authority (TRCA) is in receipt of a request from Highcastle Homes to terminate their rental agreement for approximately 0.4 hectares (1 acre) of land, said land being Part of Lot 6, Concession 8 N.D., City of Brampton, Regional Municipality of Peel and municipally know as 3966 Ebenezer Road;

AND WHEREAS TRCA is in receipt of a request from 2652367 Ontario Inc. to rent this same area of land, said land being Part of Lot 6, Concession 8 N.D., City of Brampton, Regional Municipality of Peel;

THEREFORE, LET IT BE RESOLVED THAT TRCA terminate the existing rental agreement with Highcastle Homes and enter into a new rental agreement for approximately 0.4 hectares (1 acre) of land with 2652367 Ontario Inc. for the operation of a temporary sales office, said land being Part of Lot 6, Concession 8 N.D., City of Brampton, Regional Municipality of Peel;

THAT the rental agreement with 2652368 Ontario Inc. be premised on the following:

- i. The rental arrangement with 2652368 Ontario Inc. be for a 5-year period, with the option of one 5-year extension;
- ii. The rental rate is to be \$77,900 per annum, established as fair market rent by an independent appraisal in January 2021, subject to an annual CPI adjustment, year over year;
- iii. 2652367 Ontario Inc. is to be solely responsible for all costs associated with the operation of the sales office, including but not limited to renovations, repairs, and utilities:
- iv. 2652367 Ontario Inc. is to utilize the existing one (1) temporary sales pavilion currently on site and will not construct any new buildings on the site without prior written consent from TRCA;
- v. 2652367 Ontario Inc. will be responsible for all costs associated with the removal of the structure, including all hydro connections, at the end of the term and restore the site to the satisfaction of TRCA.
- vi. 2652367 Ontario Inc. will be required to obtain at its cost, all necessary licenses

- and permits, and comply will all applicable by-laws, rules, regulations and laws governing the conduct and operation of the licensed business or anything in connection therewith;
- vii. That 2652367 Ontario Inc., provide shared use of the parking lot for TRCA urban agricultural famers farming adjacent to the sales pavilion;
- viii. Any other terms and conditions deemed appropriate by TRCA's solicitor

AND FURTHER THAT the appropriate TRCA officials be authorized and directed to take whatever action may be required to give effect thereto, including the obtaining of necessary approvals and the execution of any documents.

#### **BACKGROUND**

At Executive Committee Meeting #2/03, held on April 25, 2003, Resolution #B28/03 was approved as follows:

THAT WHEREAS the Toronto and Region Conservation Authority (TRCA) is in receipt of a request from Highcastle Homes to rent approximately 0.4 hectares (1 acre) of land located on the north west corner of Ebenezer Road and McVean Drive, City of Brampton;

AND WHEREAS it is in the opinion of TRCA that it is in the best interests of TRCA in furthering its objectives, as set out in Section 20 of the Conservation Authorities Act, to cooperate with Highcastle Home in this instance;

THAT TRCA enter into a rental arrangement for approximately 0.4 hectares, more or less, (1 acres) with Highcastle Homes for the construction and use of sales offices, said land being Part of Lot 6, Concession 8 N.D., City of Brampton, Regional Municipality of Peel:

THAT the rental arrangement with Highcastle Homes be premised on the following:

- i. The rental arrangement be for a 2-year period with the option of an additional 1 year;
- ii. The rental rate is to be \$20,000 per year;
- iii. Highcastle Home is to be responsible for all approvals required for construction of the sales offices;
- iv. Highcastle Homes shall be solely responsible for all costs associated with the construction and operation of the sales offices and for restoration of the site to the satisfaction of the Authority;
- v. Highcastle Homes will be responsible for the cost of installation and payment of all utilities to the site;
- vi. Highcastle Homes will only construct a maximum of 2 sales offices on the site and the design and construction will be done to the satisfaction of TRCA staff;
- vii. Any other terms and conditions deemed appropriate by the Authority's solicitor.

THAT an archeological review is to be completed at the expense of Highcastle Homes with any mitigative measures being carried out to the satisfaction of the Authority;

AND FURTHER THAT the appropriate Authority officials be authorized and directed to take whatever action may be required to give effect thereto, including the obtaining of necessary approvals and the execution of any documents.

Since entering into the original rental agreement with Highcastle Homes in 2003, TRCA has continued to renew the agreement with Highcastle Homes on an annual basis. In 2005 the annual rental rate was reduced from \$20,000 to \$10,000 to reflect the removal of one of the two sales pavilions from the leased lands. During Highcastle Homes' tenure, their annual rental rate has been increased, bringing their current rental rate for one sales pavilion at this location, to \$17,059, plus HST for the 2020 lease period. As Highcastle Homes is no longer utilizing the sales pavilion, Highcastle Homes provided their notice to terminate their agreement with TRCA with the intent of transferring the ownership of the sales pavilion to 2652367 Ontario Inc., and TRCA entering into an agreement with 2652367 Ontario Inc. directly for this site. The intended termination of the lease with Highcastle Homes prompted a fair market rent assessment of the leased lands in January 2021, by an independent appraisal company, returning a proposed annual rental rate of \$77,900. During TRCA's review and negotiation process with 2652367 Ontario Inc., Highcastle Homes has continued its obligations under lease but has requested rent be waived during this process, with rent for the 2021 period to be assumed by 2652367 Ontario Inc. established under the new lease agreement at the rate of \$77,900.

2652367 Ontario Inc. is a local developer interested in using the sales office for the advertisement of an upcoming condominium development and submitted a request to TRCA to rent this 0.4 hectare (1 acre) parcel of land located on the north west corner of Ebenezer Road and McVean Drive, City of Brampton. 2652367 Ontario Inc. will use the lands as a temporary sales pavilion site for the sale of condominium units being constructed on a parcel of land situated between Queen Street, Ebenezer Road, Cherrycrest Drive and McVean Drive, City of Brampton.

2652367 Ontario Inc. would assume all responsibility for the sales pavilion, which would include but not be limited to: renovations, repairs, utilities, removal of the structure and restoration of the site.

Attachment 1 is a sketch illustrating the location of the subject lands. Attachment 2 is an orthophoto illustrating the location of the subject lands.

#### Section I - Items for Board of Directors Action

**TO:** Chair and Members of the Executive Committee

Friday, April 09, 2021 Meeting

**FROM:** Michael Tolensky, Chief Financial and Operating Officer

RE: CITY OF TORONTO

Request from the City of Toronto for a Permanent Easement of Toronto and Region Conservation Authority-owned Lands Required for the Basement Flooding Protection Area 5 Program, City of Toronto, Humber River Watershed

(CFN 64684)

## **KEY ISSUE**

Receipt of a request from the City of Toronto, for a permanent easement of Toronto and Region Conservation Authority-owned lands located north of Catherine Street and west of Old Mill Drive, in the City of Toronto, required for the Basement Flooding Protection Area 5 Program, Humber River watershed.

#### **RECOMMENDATION**

THE EXECUTIVE COMMITTEE RECOMMENDS THAT WHEREAS the Toronto and Region Conservation Authority (TRCA) is in receipt of a request from the City of Toronto for a permanent easement on TRCA-owned lands located north of Catherine Street and west of Old Mill Drive, in the City of Toronto, required for the Basement Flooding Protection Area 5 Program, Humber River watershed;

AND WHEREAS it is in the best interest of TRCA in furthering its objectives as set out in Section 20 of the *Conservation Authorities Act* to cooperate with City of Toronto in this instance.

THEREFORE LET IT BE RESOLVED THAT a permanent easement of TRCA-owned land containing 0.07 hectares (0.16 acres), more or less, of vacant land, required for the Basement Flooding Protection Area 5 program, said lands being Part of Lot 2, Concession 2, and shown as 'proposed easement area=654m²' on design drawing titled Catherine Street by WSP, Contract No. 20ECS-LU-01FP and drawing number 19-00663-003, in the City of Toronto, be granted to the City of Toronto.

THAT consideration be the nominal sum of \$2.00 and all legal, survey and other costs to be paid by the City of Toronto;

THAT the City of Toronto is to fully indemnify TRCA from any and all claims from injuries, damages or costs of any nature resulting in any way, either directly or indirectly, from this conveyance or the carrying out of construction;

THAT an archaeological investigation be completed, with any mitigation measures being carried out to the satisfaction of TRCA staff, at the expense of City of Toronto;

THAT a landscape plan be prepared for TRCA staff review and approval, in accordance with existing TRCA landscaping guidelines at the expense of City of Toronto;

THAT a permit pursuant to Ontario Regulation 166/06, as amended, be obtained by City of Toronto prior to the commencement of construction;

AND FURTHER THAT authorized TRCA officials be directed to take the necessary action to finalize the transaction, including obtaining any necessary approvals and the signing and execution of documents.

#### **BACKGROUND**

The City of Toronto has requested the conveyance of TRCA-owned lands, located north of Catherine Street and west of Old Mill Drive, in the City of Toronto, required for the Basement Flooding Protection Area 5 Program, Humber River watershed.

The subject TRCA-owned lands were acquired from the Corporation of the City of Toronto on July 24, 1962 under the Water Control Project #4 for the Lower Humber River Flood Plain

Attachment 1 is a sketch illustrating the location of the subject lands. Attachment 2 is an orthophoto illustrating the location of the subject lands.

#### **RATIONALE**

The City of Toronto has conveyed lands to TRCA over the years for nominal consideration of \$2.00 and has requested that TRCA lands required for the Basement Flooding Protection Area 5 Program be conveyed for a nominal consideration of \$2.00.

## **Plantings**

All lands disturbed by construction will be stabilized and, where deemed appropriate by TRCA staff, revegetated with native woody and herbaceous plant material in accordance with existing TRCA landscaping guidelines. A landscape plan will be prepared as part of the permit application submission.

Relationship to Building the Living City, the TRCA 2013-2022 Strategic Plan
This report supports the following strategy set forth in the TRCA 2013-2022 Strategic Plan:
Strategy 4 – Create complete communities that integrate nature and the built environment

#### FINANCIAL DETAILS

The City of Toronto has agreed to assume all legal, survey and other costs involved in completing this transaction.

#### Section I - Items for Board of Directors Action

**TO:** Chair and Members of the Board of Directors

Friday, April 09, 2021 Meeting

**FROM:** Michael Tolensky, Chief Financial and Operating Officer

RE: AMENDMENT TO SIGNING OFFICERS POLICY RELATED TO AMENDING

AND TERMINATING AGREEMENTS

#### **KEY ISSUE**

Approval of amendment to Toronto and Region Conservation Authority's (TRCA) Signing Officers Policy to expressly provide for authority to amend, extend, or terminate agreements.

#### **RECOMMENDATION**

THAT the proposed amendment to TRCA's Signing Officers Policy be approved.

#### **BACKGROUND**

At Authority Meeting #9/19, held on October 25, 2019, Resolution #A185/19 was approved as follows:

THAT Toronto and Region Conservation Authority's (TRCA) Signing Officers Policy including herein along with Attachment 1 (the Policy) be approved and take effect January 1, 2020.

The Policy clarifies the authority for the Chief Executive Officer to assign signing authority to an Authorized Signing Officer, or designate, for routine contracts, agreements and other legally binding documents. The internal control process for review and recommendation for execution of contracts, agreements and other documents which legally bind the corporation.

### **RATIONALE**

The Signing Officer's Policy does not expressly address the approval and execution of amendments to agreements and termination of agreements. Frequently agreements have contractual rights to renew/extend the term for an additional period, provided they are in good standing. These agreements may also include the right to assign, sublet, sublicense to other parties with consent of TRCA. Furthermore, these agreements may require minor amendment that do not affect the pith & substance of the agreement. These contractual rights & obligations may be time sensitive for the counterparty and this clarification to the policy will remove inefficient impediments to the execution of previously negotiated and approved terms within leases/licenses.

Additionally, there are situations where existing property agreements have termination rights afforded to TRCA. These rights may be time sensitive, such as when there are emergent safety concerns. The clarification to the policy will provide the express authority to terminate these agreements where emergent situations require immediate response to protect the best interests of TRCA.

The proposed signing authority amendment is as follows:

3.06. Signing authority pursuant to this Policy includes the authority to execute any ancillary documents necessary to give effect to the delegated authority and shall include the authority to amend any document, including extending the term of any agreement, and to terminate any agreement, provided such amendment or termination does not result in any additional financial obligations outside of existing purchasing thresholds, or significant increase risk, to TRCA, and subject to compliance with applicable TRCA policies and any administrative procedures established by the CEO.

Relationship to Building the Living City, the TRCA 2013-2022 Strategic Plan
This report supports the following strategy set forth in the TRCA 2013-2022 Strategic Plan:
Strategy 7 – Build partnerships and new business models

#### **DETAILS OF WORK TO BE DONE**

Upon approval, the updated policy will be circulated to TRCA staff and implemented through TRCA's procurement and agreement database.

Report prepared by: Daniel Byskal, extension 6452

Emails: daniel.byskal@trca.ca

For Information contact: Daniel Byskal, extension 6452

Emails: daniel.byskal@trca.ca

Date: March 18, 2021

#### Section II - Items for Executive Action

**TO:** Chair and Members of the Executive Committee

Friday, April 09, 2021 Meeting

FROM: Sameer Dhalla, Director, Development and Engineering Services

RE: APPLICATION FOR PERMITS PURSUANT TO S.28.0.1 OF THE

CONSERVATION AUTHORITIES ACT (MINISTER'S ZONING ORDERS) – Conmar (Fenmarcon Inc.), Lorwood Holdings Inc. and Fleur de Cap Developments/Cuenca Developments Inc. CFNs: 63914 & 63915

#### **KEY ISSUE**

Issuance of permission pursuant to Section 28.0.1. of the *Conservation Authorities Act* to remove and relocate three Provincially Significant Wetlands to a corridor on an adjacent site, and allow topsoil stripping in preparation for the construction of a local road located at 11110 & 10980 Jane Street and 3180 Teston Road, in the City of Vaughan, Region of York.

#### RECOMMENDATION

WHEREAS the Executive Committee reiterates the position of the Board of Directors, as adopted at the October 23, 2020 Board of Directors meeting (amended Res.#A164/20), that in recognition of Toronto and Region Conservation Authority's (TRCA) role as a watershed management and regulatory agency, and stewards of lands within TRCA's jurisdiction, the Board of Directors does not support development within wetlands, particularly, Provincially Significant Wetlands;

WHEREAS TRCA staff using a science-based approach to decision making and TRCA's Living City Policies, would customarily not support the issuance of a permit in support of development within a Provincially Significant Wetland;

WHEREAS the Provincially Significant Wetlands on the subject property have been impacted by their proximity to Highway 400, previous agricultural activities and are expected to be further degraded through planned infrastructure and approved urban development as isolated features in the landscape;

WHEREAS the Minister of Municipal Affairs issued a Minister's Zoning Order (MZO) for the subject property, including these wetlands on April 24, 2020.

WHEREAS TRCA staff were consulted prior to the MZO being requested and issued about the potential for a net ecological gain to be achieved by relocating these wetlands into a natural heritage system corridor on the property directly to the south;

WHEREAS TRCA staff, using a science-based approach has been able to, in this circumstance, support relocating the deteriorating Provincially Significant Wetlands to create a more resilient and cohesive Natural Heritage System on adjacent lands within the East Purpleville Creek subwatershed that is part of the Humber River watershed;

WHEREAS in correspondence received by the Minister of the Ministry of Natural Resources and Forestry in December 2020 the Minister indicated that MNRF is reclassifying Provincially Significant Wetlands on the subject property;

WHEREAS Section 28.0.1 of the *Conservation Authorities Act* requires the Authority to issue permission for a development project that has been authorized by a Minister's Zoning Order (MZO) issued under the *Planning Act*, outside of the Greenbelt;

AND WHEREAS Section 28.0.1 of the *Conservation Authorities Act* requires that the Authority shall not refuse to grant permission for a development project that has been authorized by a Minister's Zoning Order (MZO), outside of the Greenbelt, under subsection (3) despite, (a) anything in section 28 or in a regulation made under section 28; and (b) anything in subsection 3 (5) of the *Planning Act*;

THEREFORE, LET IT BE RESOLVED THAT Conmar (Fenmarcon Inc.), Lorwood Holdings Inc. and Fleur de Cap Developments/Cuenca Developments Inc. be granted permission to interfere with Provincially Significant Wetlands through relocation at 11110 & 10980 Jane Street and 3180 Teston Road subject to the conditions in Attachment 7 hereto.

THAT TRCA staff continue to seek full cost recovery on this permit application in accordance with TRCA's Administrative Fee Schedule;

THAT the Chief Executive Officer be authorized to execute an Agreement with the landowner:

AND FURTHER THAT TRCA staff report back to a future meeting of the Executive Committee or Board of Directors on the results of the wetland relocation as part of reporting on TRCA's Ecosystem Compensation Protocol.

#### **MZO PERMIT SUMMARY**

- Section 28.0.1 applies, and the Committee must issue this permit.
- TRCA Staff support the issuance of this permit application based upon the conditions included herein and the forthcoming Agreement.
- It is our opinion that the required measures included in the conditions and Agreement can adequately mitigate effects on the tests of flooding, erosion, dynamic beaches, pollution and conservation of land.
- The conditions of this permit have been agreed to by the proponent and cannot be changed prior to approval.
- The Agreement has not been executed, and any additional requirements of the Committee in providing approval can be integrated therein.

#### **BACKGROUND**

## **Permit Application and Property Description**

Conmar (Fenmarcon Inc.), Lorwood Holdings Inc. and Fleur de Cap Developments/Cuenca Developments Inc. applied for permission under O. Reg. 166/06 of the Conservation Authorities Act to strip topsoil for a local road, and to construct new wetlands for the relocation of existing Provincially Significant Wetland (PSW) vegetation and wildlife communities located within 11110 & 10980 Jane Street and 3180 Teston Road. The properties are located on the west side of Highway 400, on the north side of Teston Road, west of Jane Street in the City of Vaughan

(Attachment 1). The lands subject to the application are known as the Block 34 East Lands.

The Block 34 East Lands contain two valley corridors that form part of the East Purpleville Creek subwatershed, which is a subcatchment of the East Humber River system. These valley corridors converge west of Highway 400. The northern valley corridor at 11110 Jane Street contains a small tributary in the South-West corner of those lands that flows West under Highway 400. In addition, those lands contain a Headwater Drainage Feature (HDF) in the central portion of the site and Provincially Significant Wetlands (East Humber River Wetland Complex) in the North-West, which is the subject of this application. The southern valley corridor on the Block 34E Landowners' Group lands contain a larger tributary of the East Purpleville Creek valley system. The East Purpleville Creek valley system flows from the North-East to the South-West before flowing West under Highway 400. This larger tributary is a defined valley corridor, with a Regulatory Floodplain, and other PSWs, which are part of the same wetland complex.

The following development approvals are in affect or in process: Minister's Zoning Order (MZO) 173/20 (Attachment 2 - allows development of a distribution warehouse in the PSWs in the northern area of the site, and prestige employment uses in the southern PSW); a site plan for a warehouse development; a draft approved plan of subdivision for the warehouse property (Condor (Fenmarcon)); two plan of subdivision and zoning by-law amendment applications (Lorwood and Fleur de Cap/Cuenca); the third Draft of the Block 34 East Block Plan/Master Environmental Servicing Plan (MESP); and municipal fill permits and these site alteration Permit applications. All stages of the development process are taking place simultaneously.

This was the first site for which TRCA was approached respecting the concept of a MZO and staff commented to the Province supporting the principle of the wetland relocation subject to reclassification and relocation of the PSWs (Attachment 3). TRCA staff are supportive of the application subject to the relocation occurring given the overall benefit to the NHS. Staff concur with the recommendations of relocating the PSWs to the larger NHS located centrally on the southern block would result in a more robust system and net ecological gain. Protection of the individual PSWs in situ would ultimately result in their degradation due to their isolated nature and reduced quality contribution to the greater East Purpleville Creek valley system located West of Highway 400.

#### Minister's Zoning Order (MZO)

An MZO was issued on April 24, 2020, as Ontario Regulation 173/20. The MZO applies to three properties located at Jane and Teston Road (11110 & 10980 Jane Street and 3180 Teston Road) in the City of Vaughan. The MZO permits a large format distribution Centre, associated outdoor storage and General Employment Area uses on the property. The mapping associated with this MZO identifies two areas to which the MZO applies (illustrated in Appendix 2), being those on which Provincially Significant Wetlands presently exist; areas in which development would not be otherwise permitted.

Prior to this MZO being enacted, the owners consulted with the City of Vaughan with respect to their development proposal and associated MZO request, and the City of Vaughan Council provided their endorsement of the MZO on October 29, 2019. Technical reports were completed in support of the MZO, including an Environmental Impact Study, which was circulated to TRCA staff for review. TRCA staff reviewed the Environmental Impact Study in addition to the supporting information provided in the Master Environmental Servicing Plan and Addendums for Block 34 East – Phase 1, and staff concurred with the findings. TRCA staff provided a letter on March 6, 2020, which provided support for the proposed wetland relocation subject to MNRF direction with respect to modifications to the PSWs, should the Province not delist the wetlands

which are proposed to be relocated. In response, TRCA received a letter from the Director of the Ministry of Natural Resources and Forestry dated November 20, 2020 (Attachment 4) confirming MNRF support for "a comprehensive wetland restoration project that will retain, expand and enhance the long-term ecological functions of wetlands.." Subsequent to this letter TRCA received correspondence from the Minister of MNRF that the PSW's on the subject lands were being re-classified (Attachment 5).

The landowners, through the approvals attained through the MZO, are proposing to relocate the isolated PSWs located in the North-West corner of northern property and the PSWs located in the South-East corner of the southern property (See Attachment 6). The PSWs are proposed to be relocated immediately adjacent to the larger central Purpleville Creek Natural Heritage System (NHS).

## **Mandatory Permits for MZO Development Projects**

Section 28.0.1 of the amended Conservation Authorities Act is now in-force and applies to a development project that has been authorized by an MZO under the Planning Act, within an area regulated under Section 28(1) of the CA Act, outside of the Greenbelt Area. In TRCA's case, the regulated area is prescribed in Ontario Regulation 166/06.

The provisions of this new section of the Act are summarized as follows:

- CAs shall issue a permit.
- CAs may only impose conditions to the permit, including conditions to mitigate:
  - any effects the development project is likely to have on the control of flooding, erosion, dynamic beaches or pollution or the conservation of land;
  - any conditions or circumstances created by the development project that, in the event of a natural hazard, might jeopardize the health or safety of persons or result in the damage or destruction of property; or
  - o any other matters that may be prescribed by regulation.
- An applicant has the right to a Hearing before the authority (Board) if there is an
  objection to the permit conditions being imposed by the CA.
- If the applicant still objects to conditions following a decision of the Hearing, the applicant has the option to either request a Minister's review (MNRF) or appeal to the Local Planning Appeal Tribunal (LPAT).
- All MZO-related CA permits must have an agreement with the permittee (can include other parties, e.g., municipalities, on consent of applicant).
- The agreement shall set out actions that the holder of the permission must complete or
- satisfy to compensate for ecological impacts, (where applicable), and any other impacts that may result from the development project.
- The agreement must be executed before work commences on the site; some enforcement provisions through court proceedings are in effect for MZO permits.

In summary, TRCA must issue a permit for development projects on lands subject to an MZO, outside of the Greenbelt, but can make that permission subject to conditions and must enter into an agreement with the landowner/applicant.

#### **RATIONALE**

### **Review of Permit Application by TRCA Staff**

The application has been reviewed by TRCA's geotechnical, water resources, hydrogeology and ecology staff. The application materials document and evaluate the state of the existing wetlands which were degraded and included invasive species. The application presents a proposal developed in consultation with TRCA technical staff to relocate the wetlands to complement the East Purpleville Creek Natural Heritage System (NHS) and create additional wetland areas of similar character accommodating the features and functions within the existing NHS resulting in net ecological benefit. The new wetlands are of comparable size and character and will be constructed to support the successful transplantation of plant material and relocation and/or migration of wildlife from the existing wetlands. Attachment 6 shows the location of all PSW's and new wetlands and provides a summary of the land areas. The total NHS area will exceed the existing NHS area by 0.191 ha.

#### **Recommended Conditions to the Permission**

The recommended conditions, as outlined in Attachment 7, will:

- ensure successful relocation of the PSW's;
- mitigate any effects the development project is likely to have on the control of flooding, erosion, dynamic beaches or pollution or the conservation of land;
- mitigate any conditions or circumstances created by the development project that, in the event of a natural hazard, might jeopardize the health or safety of persons or result in the damage or destruction of property.

The proposed new wetlands are located outside of the regional storm flood plain and will have no impact on the flood plain. Sediment and erosion control measures will be installed and maintained throughout construction to prevent sediment from migrating from the site into the adjacent features. There are no erosion-related (e.g. meander belt, geotechnical/slope stability) issues associated with this application.

With respect to mitigating impacts on the conservation of land, three isolated and degraded tableland Provincially Significant wetlands and three isolated and degraded unevaluated tableland wetlands are proposed to be removed and compensated for within and adjacent to the NHS. The wetland relocation/compensation areas have been designed for improved ecological functions through increased diversity of wetland vegetation and wildlife habitats, the improvement of contributing habitat for Redside Dace, and naturalization of the wetlands through micro-grading and edge curvature. Wetlands within the NHS will be further enhanced through the management of invasive species such as Common Reed (Phragmites).

The proposed Block 34 East NHS is 18.049 ha in size and exceeds the NHS area requirements (17.858 ha) by 0.191 ha. The increase in NHS area and natural heritage enhancements are expected to allow for a net ecological gain to be achieved. The proposed monitoring plan and adaptive management strategy will evaluate the performance of the created wetlands and upland enhancement habitat of the NHS, and provide necessary adjustments through adaptive management, should they be required.

The proposed spine road topsoil stripping and wetland relocation plan has been developed in a manner that will allow for the timely relocation of wetlands with the goal of maintaining the provision of ecosystem services, including wildlife and their habitats associated with the existing wetlands. This will be achieved through a wildlife rescue operation, the provision of water inputs during the interim and ultimate phases and scraping and stockpiling wetland soils and native seed bank for use in the wetland relocation areas.

It is expected that the proposed NHS will satisfy the following objectives:

- Protect the ecological integrity and functions of retained natural heritage features with appropriate buffers that will include plantings of native trees and shrubs;
- Establish an increase in vegetation community types, including wetland vegetation communities and upland shrub thicket and deciduous forest habitat;
- Establish an increase in native plant species diversity;
- · Enhance habitat for Monarch Butterflies;
- Create wetland pools that provide appropriate amphibian breeding habitat;
- Provide additional wildlife enhancement features such as turtle basking logs, bat roosting condominiums, and wildlife habitat brush piles;
- Establish native shrubs and trees surrounding the watercourse and wetlands to provide shading for thermal cooling of Redside Dace contributing habitat;
- Improve water quality of Redside Dace contributing habitat through the design of the created wetlands that will polish water;
- Replicate baseflow and coarse sediment supply functions of Redside Dace contributing habitat through the design of clean water collector pipes and the alluvium deposits; and
- · Manage invasive plant species.

#### **SUMMARY CONCLUSION**

Approval of permission for development and interference with a Provincially Significant Wetland does not meet the requirements of TRCA's Living City Policies. However, the *Conservation Authorities Act* requires the Authority to issue such a permit on these lands as they are subject to an MZO, issued under the *Planning Act*. Staff has therefore reviewed the application, and in this instance, due to the degraded nature of the features, the likelihood of further degradation in the future, the correspondence from MNRF indicating that the PSW's will be reclassified, and the ability to achieve a net environmental gain, staff are supportive of the issuance of a permit with conditions.

Given the requirements of Section 28.0.1 of the Act that requires TRCA to grant the permission, staff recommend the conditions included as Attachment 7 be applied to the permission in an effort to mitigate negative impacts on the control of flooding, erosion, dynamic beaches or pollution or the conservation of land, or any circumstances created by the development project that, in the event of a natural hazard, might jeopardize the health or safety of persons, or result in the damage or destruction of property.

### **ONTARIO REGULATION**

made under the

#### **PLANNING ACT**

## ZONING ORDER - CITY OF VAUGHAN, REGIONAL MUNICIPALITY OF YORK

#### **Definitions**

- 1. In this Order,
- "distribution facility" means a building or part of a building used primarily for the storage and distribution of goods and material, including the outside storage and maintenance of commercial motor vehicles, heavy commercial vehicles and intermodal containers;
- "outside storage" means the leaving, placing or parking of equipment or vehicles, including trucks, trailers, and tractor trailers, directly associated with a distribution facility;
- "Zoning By-law" means Zoning By-law No. 1-88 of the City of Vaughan.

## **Application**

**2.** This Order applies to lands in the City of Vaughan, in the Regional Municipality of York, in the Province of Ontario, being the lands on a map numbered 237 and filed at the Toronto office of the Ministry of Municipal Affairs and Housing located at 777 Bay Street.

#### **Permitted uses**

- **3.** (1) Every use of land and every erection, location or use of any building or structure is prohibited on the lands identified as "Area 1" on the map described in section 2, except for the following uses:
  - 1. A distribution facility.
  - 2. Outside storage.

- 3. Uses described in Section 6.3.1, General Employment Area (EM2) Zone of the Zoning By-law.
- (2) Every use of land and every erection, location or use of any building or structure is prohibited on those lands identified as "Area 2" on the map described in section 2, except for the uses described in Section 6.2.1, Prestige Employment Area (EM1) Zone of the Zoning By-law.

**Zoning requirements** 

4. There are no zoning requirements for the lands described in Section 2.

- 5. (1) Every use of land and every erection, location or use of any building or structure shall Terms of use be in accordance with this Order.
- (2) Nothing in this Order prevents the use of any land, building or structure for any use prohibited by this Order if the land, building or structure is lawfully so used on the day this Order comes into force.
- (3) Nothing in this Order prevents the reconstruction of any building or structure that is damaged or destroyed by causes beyond the control of the owner if the dimensions of the original building or structure are not increased or its original use altered.
- (4) Nothing in this Order prevents the strengthening or restoration to a safe condition of any building or structure.

6. This Order is deemed for all purposes, except the purposes of section 24 of the Act, to be Deemed by-law and to always have been a by-law passed by the council of the City of Vaughan.

Commencement

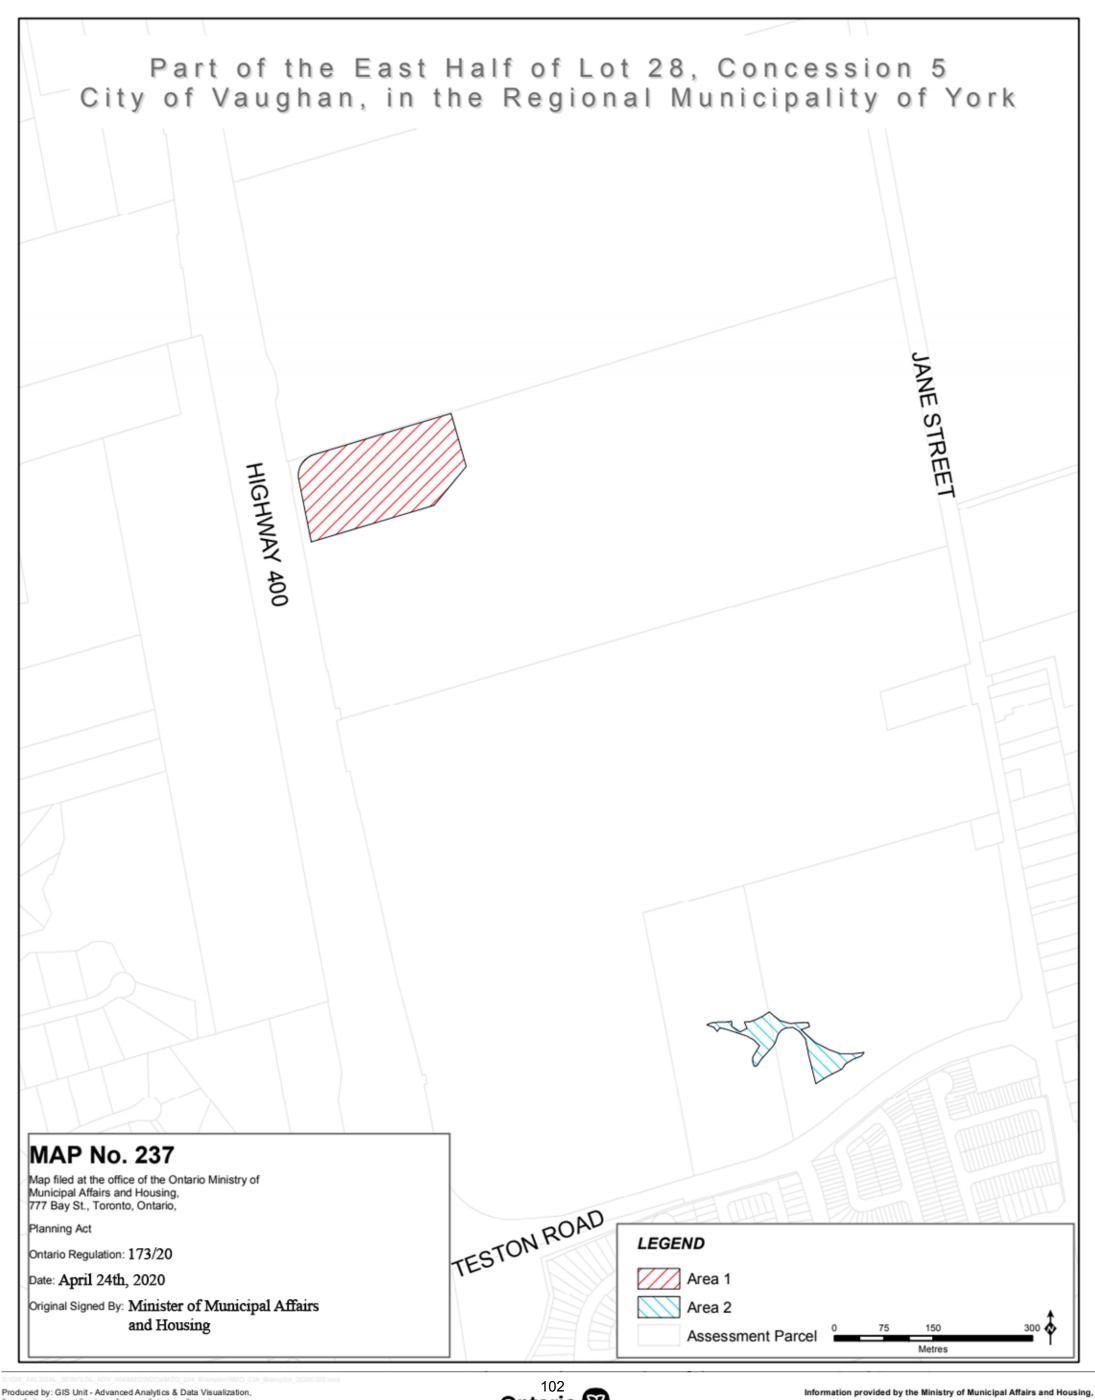

7. This Regulation comes into force on the day it is filed.

## SENT BY E-MAIL (minister.mah@ontario.ca)

Hon. Steve Clark
Minister
Ministry of Municipal Affairs and Housing
17<sup>th</sup> Floor, 777 Bay St.
Toronto, Ontario M7A 2J3

Dear Minister Clark:

Re: Confirmation of TRCA Position and Letter of Support for Minister's Zoning Order subject to application of mitigation and ecosystem compensation conditions being adhered to Block 34E – Phase 1 lands
Part of Lots 26, 27 and 28, Concession 5
City of Vaughan, Regional Municipality of York

The purpose of this letter is to provide the Ministry of Municipal Affairs and Housing (MMAH) an overview of Toronto and Region Conservation Authority (TRCA)'s position regarding the proposed relocation of Provincially Significant Wetlands (PSWs) located on the subject lands and to outline our support for the application of a Minister's Zoning Order subject to appropriate mitigation and compensation conditions being adhered to as part of any Order being considered and in any subsequent municipal and provincial approvals.

#### Background

The subject lands contain two valley corridors that form part of the East Purpleville Creek subwatershed, which is a subcatchment of the East Humber River system. These valley corridors converge west of Highway 400.

The northern valley corridor at 11110 Jane Street contains a small tributary in the South-West corner of those lands that flows West under Highway 400. In addition, those lands contain a Headwater Drainage Feature (HDF) in the central portion of the site and Provincially Significant Wetlands (East Humber River Wetland Complex) in the North-West.

The southern valley corridor on the Block 34E Landowners' Group lands contain a larger tributary of the East Purpleville Creek valley system. The East Purpleville Creek valley system flows from the North-East to the South-West before flowing West under Highway 400. In addition, a Top of Slope, Regulatory Floodplain, HDF, and PSWs are present on the site.

TRCA has been advised by the collective landowners of the desire to relocate the isolated PSWs located in the North-West corner of northern property and the PSWs located in the South-East corner of the southern property (See Appendix 'A' for figure reference). The PSWs are proposed to be relocated immediately adjacent to the larger central Purpleville Creek Natural Heritage System (NHS). It is TRCA's understanding that the Block 34E Landowners' Group is amenable to this proposal.

#### Comments

TRCA staff have reviewed the Environmental Impact Study for the Azuria Condor Lands, Vaughan, ON., prepared by Savanta, dated October 2019, and greater information provided in the Master Environmental Servicing Plan Addendums: Block 34 East - Phase 1, prepared by Schaeffers Consulting Engineers, dated October 2019, and finds the recommendations of relocating the PSWs to the larger NHS located centrally on the southern block would result in a more robust system and net ecological gain. Protection of the individual PSWs in situ would ultimately result in their degradation due to their isolated nature and reduced quality contribution to the greater East Purpleville Creek valley system located West of Highway 400. If MNRF provides direction and support for the relocation of the PSWs, the actual wetland relocations would be addressed through the conditions in the planning process and via TRCA's permitting process administered under Section 28 of the Conservation Authorities Act. Development and interference with wetlands require permit approval from TRCA and is reviewed in accordance with the Act, Ontario Regulation 166/06 and the policies of TRCA. Notwithstanding TRCA's policies, which do not support interference with PSWs or wetlands greater 0.5ha, TRCA staff would follow MNRF's direction as it relates to the relocation concept once received for our review and confirmation. In principle, TRCA staff are supportive of the application subject to the relocation occurring given the overall benefit to the NHS. However, it should be noted TRCA's Executive Committee would make the final decision on the permit application for the wetland relocations. The Executive Committee may approve or refuse the application or approve it subject to conditions.

It is TRCA's understanding that the Block 34E Landowners' Group has provided additional analysis of the PSWs proposed to be relocated to the MNRF and that MNRF will be providing a review and assessment of this information to all parties involved. TRCA staff asks to be copied on this assessment so that we can evaluate the implications under the *Conservation Authorities Act*, Ontario Regulation 166/06 and our policies.

## **Recommendations**

Based on our review of the subject lands and the supporting materials, TRCA staff is supportive in principle to the relocation of the PSWs to the central Block 34E NHS as it would result in a more robust system, ecological functionality and net ecological gain. We understand from City of Vaughan staff and discussions with provincial officials that a Minister's Zoning Order is being considered as part of an overall implementation strategy for this property. TRCA is supportive of the use of this instrument and other Planning Act approvals including zoning and site plan approvals provided that the conditions related to mitigation and ecosystem compensation are included and implemented as part of these approvals and in subsequent permitting processes under other legislation. TRCA's final position will be subject to staff review of MNRF's assessment and the final decision of TRCA's Executive Committee on the permit application that will be needed to facilitate the wetland relocations under the *Conservation Authorities Act*.

We trust this letter is of assistance. We look forward to our continued meetings on this and other projects within this area.

Should you have any questions, please contact the undersigned at extension 5350 or email Sameer. Dhalla. @trca.ca

With Regards,

Sameer Dhalla, P.Eng.

Mr. John MacKenzie Chief Executive Officer Toronto Region Conservation Authority john.mackenzie@trca.ca

Dear Mr. MacKenzie,

Re: Recent Discussions Regarding Condor Development Discussions.

It is our understanding that the City of Vaughan is supportive of the proposed development that would establish a state of the art distribution centre that aligns with City of Vaughan interests, is in close proximity to Highway 400 and existing transit hubs and has the potential to bring thousands of skilled employment opportunities to Ontario.

Through the Ministry's review of the development proposal, three wetlands on the subject property have been noted. We understand that you have reviewed and supported a report from the developer's environmental consultant where they indicate the wetlands are in a degraded state, and their quality and ecological functions are likely to continue to decline as a result of local agricultural practices and their proximity to/expansion of Highway 400.

We understand that in an effort to maximize the benefits of the site, a comprehensive wetland restoration project that will retain, expand and enhance the long-term ecological functions of wetlands has been proposed in partnership with your organization and the City of Vaughan. The TRCA is well-positioned to design and implement a plan to provide a net positive outcome with respect to wetland functions in the City of Vaughan.

Based on discussions between yourselves, the City of Vaughan and the proponent it may be possible to realize the economic development opportunity of locating the proposed distribution centre in the City of Vaughan, while also achieving an overall net positive environmental outcome by contributing to wetland features, functions, and long-term sustainability. This win-win approach would balance the development for the region and the important natural landscape.

The government continues to investigate ways to ensure this delicate relationship between important economic prosperity for the province and our desire to maintain and grow a healthy and sustainable environment is a top priority.

We look forward to continuing to work with you on important projects like this.

Sincerely,

Sharon Rew

Regional Director, Southern Region

Mr. John MacKenzie Chief Executive Officer Toronto and Region Conservation Authority john.mackenzie@trca.ca

Dear Mr. MacKenzie:

It is our understanding that the City of Vaughan is supportive of the proposed development that would establish a state of the art distribution centre that aligns with City of Vaughan interests, is in close proximity to Highway 400 and existing transit hubs, and has the potential to bring thousands of skilled employment opportunities to Ontario.

Through my Ministry's review of the development proposal, three wetlands on the subject property have been noted. We understand that you have reviewed and supported a report from the developer's environmental consultant where they indicate the wetlands are in a degraded state, and their quality and ecological functions are likely to continue to decline as a result of local agricultural practices and their proximity to/expansion of Highway 400. Based on this assessment, the ministry is reclassifying the subject wetlands.

We understand that in an effort to maximize the benefits of the site, a comprehensive wetland restoration project that will retain, expand and enhance the long-term ecological functions of wetlands has been proposed in partnership with your organization and the City of Vaughan. The Toronto and Region Conservation Authority is well-positioned to design and implement a plan to provide a net positive outcome with respect to wetland functions in the City of Vaughan.

Based on discussions between yourselves, the City of Vaughan and the proponent, it is possible to realize the economic development opportunity of locating the proposed distribution centre in the City of Vaughan, while also achieving an overall net positive

environmental outcome by contributing to wetland features, functions, and long-term sustainability. This win-win approach would balance the development for the region and the important natural landscape.

Our government continues to investigate ways to ensure this delicate relationship between important economic prosperity for the province and our desire to maintain and grow a healthy and sustainable environment is a top priority.

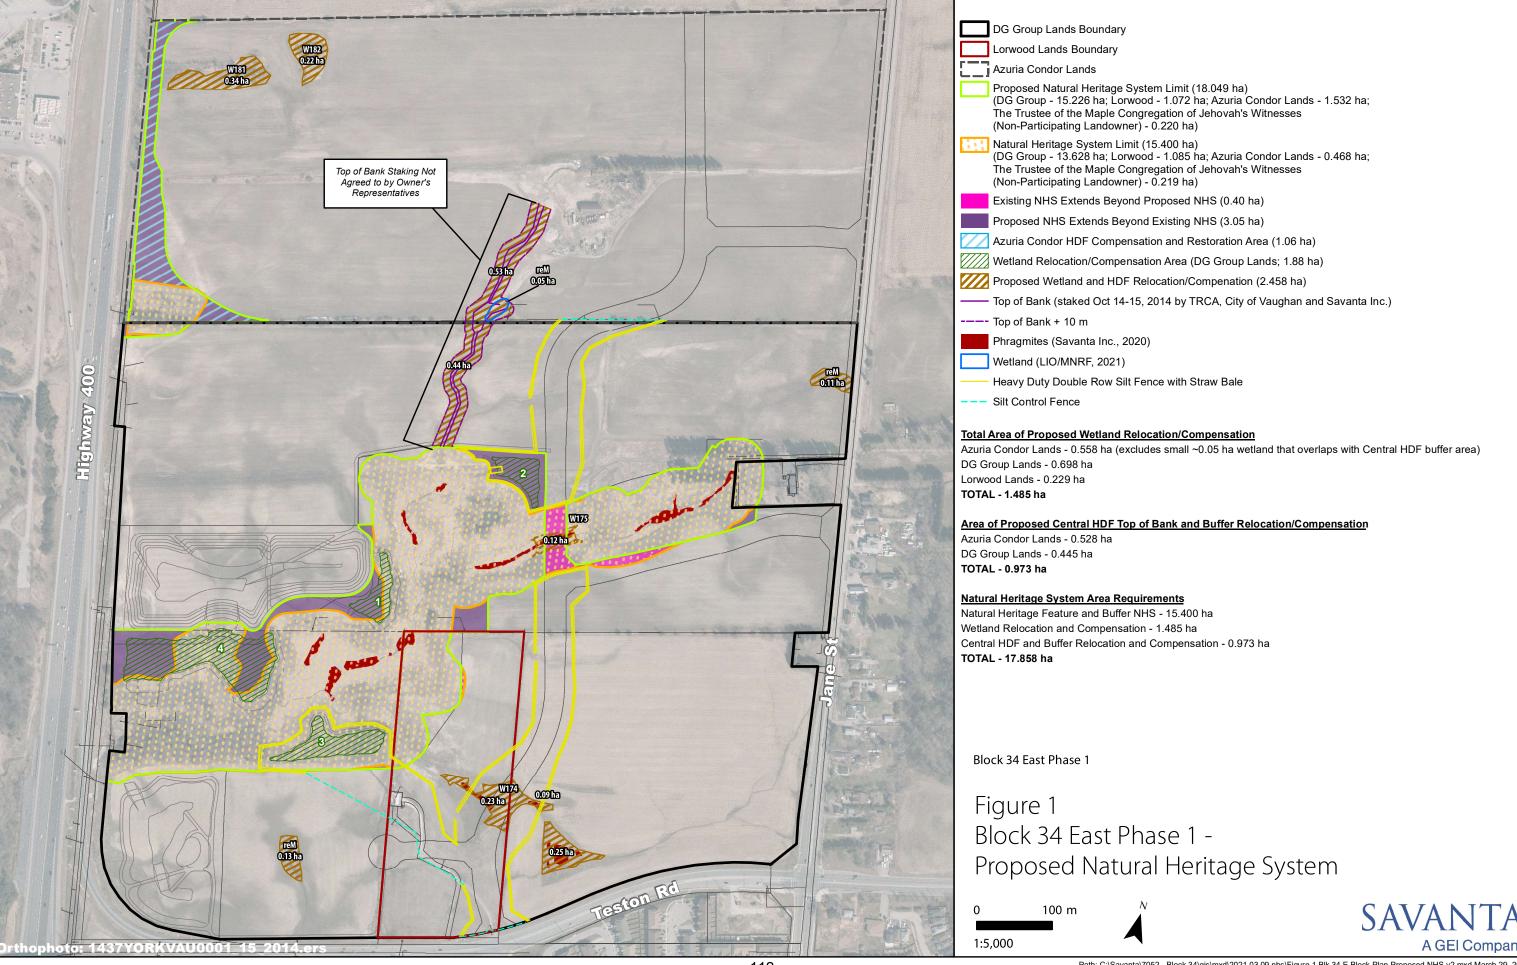

We look forward to continuing to work with you on important projects like this.

Sincerely,

John Yakabuski Minister of Natural Resources and Forestry

### **Attachment 7: TRCA Proposed Permit Conditions**

#### **TRCA Standard Conditions**

- The Owner shall strictly adhere to the approved TRCA permit, plans, documents and conditions, including TRCA redline revisions, herein referred to as the "works", to the satisfaction of TRCA. The Owner further acknowledges that all proposed revisions to the design of this project that impact TRCA interests must be submitted for review and approval by TRCA prior to implementation of the redesigned works.
- 2. The Owner shall notify TRCA Enforcement staff 48 hours prior to the commencement of any of the works referred to in this permit and within 48 hours upon completion of the works referred to herein.
- 3. The Owner shall grant permission for TRCA staff, agents, representatives, or other persons as may be reasonably required by TRCA, in its opinion, to enter the premises without notice at reasonable times, for the purpose of inspecting compliance with the approved works, and the Terms and Conditions of this permit, and to conduct all required discussions with the Owner, their agents, consultants or representatives with respect to the works.
- 4. The Owner acknowledges that this permit is non-transferrable and is issued only to the current owner of the property. The Owner further acknowledges that upon transfer of the property into different ownership, this permit shall be terminated and a new permit must be obtained from TRCA by the new owner. In the case of municipal or utility projects, where works may extend beyond lands owned or easements held by the municipality or utility provider, landowner authorization is required to the satisfaction of TRCA.
- 5. This permit is valid for a period of two years from the date of issue unless otherwise specified on the permit. The Owner acknowledges that it is the responsibility of the owner to ensure a valid permit is in effect at the time works are occurring; and, if it is anticipated that works will not be completed within the allotted time, the Owner shall notify TRCA at least 60 days prior to the expiration date on the permit if an extension will be requested.
- 6. The Owner shall ensure all excess fill (soil or otherwise) generated from the works will not be stockpiled and/or disposed of within any area regulated by TRCA (on or off-site) pursuant to Ontario Regulation 166/06, as amended, without a permit from TRCA.
- 7. The Owner shall install effective erosion and sediment control measures prior to the commencement of the approved works and maintain such measures in good working order throughout all phases of the works to the satisfaction of TRCA.
- 8. The Owner acknowledges that the erosion and sediment control strategies outlined on the approved plans are not static and that the Owner shall upgrade and amend the erosion and sediment control strategies as site conditions change to prevent sediment releases to the natural environment to the satisfaction of TRCA.
- 9. The Owner shall repair any breaches of the erosion and sediment control measures within 48 hours of the breach to the satisfaction of TRCA.

- 10. The Owner shall make every reasonable effort to minimize the amount of land disturbed during the works and shall temporarily stabilize disturbed areas within 30 days of the date the areas become inactive to the satisfaction of TRCA.
- 11. The Owner shall permanently stabilize all disturbed areas immediately following the completion of the works and remove/dispose of sediment controls from the site to the satisfaction of TRCA.
- 12. The Owner shall arrange a final site inspection of the works with TRCA Enforcement staff prior to the expiration date on the permit to ensure compliance with the terms and conditions of the permit to the satisfaction of TRCA.
- 13. The Owner shall pay any additional fees required by TRCA in accordance with the TRCA Administrative Fee Schedule for Permitting Services, as may be amended, within 15 days of being advised of such in writing by TRCA for staff time allocated to the project regarding issues of non-compliance and/or additional technical review, consultation and site visits beyond TRCA's standard compliance inspections.

### **Special Conditions**

- 1. Prior to execution of the Agreement, the Permit Holder shall provide revised plans and drawings to the satisfaction of TRCA staff to address TRCA technical comments.
- 2. The Owner shall ensure that the construction and relocation take place as outlined in the Block 34 East Phase 1 Vaughan – Spine Road Topsoil Stripping and Wetland Relocation Plan, NHS Summary, and Buffer Encroachment Analysis and Policy Review by GEI/Savanta dated March 30 2021, or any updated version of the report approved by TRCA, to the satisfaction of TRCA staff.
- 3. The Owner shall have all retaining walls and stormwater management facility designs reviewed and stamped by a qualified civil/structural engineer to ensure stability and integrity and during construction the design firm is to be retained during construction to conduct all necessary inspections and quality control for the construction of the SWM Ponds and Wetlands including their berms, to the satisfaction of TRCA staff.
- 4. Prior to execution of the Agreement, the Permit Holder shall provide an irrevocable letter of credit to TRCA, to TRCA's satisfaction, for the cost of fill removal, drainage improvements, site grading and wetland restoration on 11110 & 10980 Jane Street & 3180 Teston Road, Vaughan, which TRCA shall be entitled to draw on to restore the site in the event the wetland relocation or operation of the wetlands during the monitoring period is not completed to the satisfaction of TRCA staff. This letter of credit shall remain in place for a period of five years following the final construction of the wetland or the construction and all infrastructure providing contributory flows to the wetlands, whichever is greater.
- 5. Prior to execution of the Agreement, the Permit Holder shall provide an integrated feature-based water balance design report of the proposed relocated wetlands, including

water level and clean water supply targets to maintain the types of habitat proposed, stormwater management report, floodplain modelling and mapping, grading plans and erosion and sediment control plans including interim conditions, detailed wetland design, and ESC and wetland monitoring and adaptive management plans to TRCA's satisfaction to address TRCA technical comments.

- 6. The Permit Holder shall ensure that the wetland relocation is supervised on site by a qualified ecologist for the purpose of ensuring all relevant environmental legislation, approved plans and TRCA conditions are adhered to and that weekly monitoring reports, including ESC and monthly wetland monitoring reports, are submitted to TRCA staff.
- 7. Prior to the execution of the agreement, the Permit Holder shall provide a copy of any permit required under the Endangered Species Act from the Ministry of Environment, Conservation and Parks (MECP) for the works, or shall provide confirmation from the MECP that no such permit is necessary.

### Section II - Items for Executive Action

**TO:** Chair and Members of the Executive Committee

Friday, April 09, 2021 Meeting

FROM: Sameer Dhalla, Director, Development and Engineering Services

RE: APPOINTMENT OF ADMINISTRATIVE ENFORCEMENT OFFICERS

Zack Carlan, Caroline Mugo, Harsimrat Pruthi

#### **KEY ISSUE**

Recommended appointment of Administrative Enforcement Officers for the purposes of signing authority in the administration of the Development, Interference with Wetlands and Alterations to Shorelines and Watercourses Regulation (Ontario Regulation 166/06, as amended).

#### RECOMMENDATION

THAT Zack Carlan, Caroline Mugo, and Harsimrat Pruthi be appointed as Administrative Enforcement Officers for the purposes of Section 3(3) of the Development, Interference with Wetlands and Alterations to Shorelines and Watercourses Regulation (Ontario Regulation 166/06, as amended) by the Board of Directors of the Toronto and Region Conservation Authority (TRCA), pursuant to Section 28 of the *Conservation Authorities Act*.

#### BACKGROUND

Section 3(3) of Ontario Regulation 166/06 enables the Executive Committee of the Board of Directors, or one or more employees of the Authority, to be designated for the purposes of granting of permissions pursuant to Section 28 of the *Conservation Authorities Act.* Staff delegated with this responsibility historically include the Chief Executive Officer, Director, Policy Planning and senior staff members within our Development and Engineering Services Division (Director, Associate Directors, Senior Managers, Managers, Senior Planners). TRCA has a tradition of having permissions/permits signed by Enforcement Officers. The appointments requested in this report are for administrative purposes only and not intended as designations to enforce provisions of the Act or Regulation as provided by enforcement officers within TRCA's Enforcement and Compliance business unit.

#### **RATIONALE**

Zack Carlan, Caroline Mugo, and Harsimrat Pruthi have recently been appointed to the position of Senior Planner within the Development and Engineering Services Division responsible for oversight and supervision of staff associated with the review and approval of permit applications. Their recommended appointment as Administrative Enforcement Officers will allow them to authorize the issuance of approvals for the work that they supervise.

### Relationship to Building the Living City, the TRCA 2013-2022 Strategic Plan

This report supports the following strategies set forth in the TRCA 2013-2022 Strategic Plan:

Strategy 2 – Manage our regional water resources for current and future generations

Strategy 4 – Create complete communities that integrate nature and the built environment

Strategy 7 – Build partnerships and new business models

**Strategy 9 – Measure performance**

#### Section III - Items for the Information of the Board

**TO:** Chair and Members of the Executive Committee

Friday, April 9, 2021 Meeting

FROM: Michael Tolensky, Chief Financial and Operating Officer

RE: PROCUREMENT SUMMARY

2020 Annual Summary

### **KEY ISSUE**

Receipt of the 2020 summary of procurements approved by the Chief Executive Officer or Designate, Executive Committee, or the Board of Directors.

### **RECOMMENDATION**

THAT the 2020 Procurement Summary Report of Toronto and Region Conservation Authority (TRCA) for procurements approved in excess of \$10K in 2020 be received.

#### **BACKGROUND**

At Authority Meeting #5/05, held on June 24, 2005, staff were requested to report to the Authority on contracts executed by TRCA in excess of \$10K. Pursuant to this resolution, a summary of awarded contracts in 2020 are included in Attachment 1. All contract revisions that were approved in 2020, including previously approved revisions associated with the contract, are recorded in Attachment 2.

At Board of Directors Meeting #8/18, held on October 26, 2018, the Procurement Policy (the Policy) was approved. Approval thresholds and purchasing methods (expense authorization) are included in Attachment 3. As permitted under the Policy, the Chief Executive Officer has designated senior staff to approve purchases up to \$10K which are not included in this summary report. Excluded from the summary report are goods and services exempt from procurement and purchase order approvals (these items are listed in Attachment 4). Attachment 5 lists the non-application criteria for goods and services exempt from public sector procurement guidelines. Attachment 6 includes the criteria for limited tendering (i.e. sole source) procurement.

### **FINANCIAL DETAILS**

The total value of procurements for TRCA in 2020, in excess of \$10,000 approved by the Chief Executive Officer or Designate, Executive Committee, or Board of Directors, was approximately \$70.1M (\$46.4M in 2019), including contingencies and excluding applicable taxes.

The increase in the total value of approved procurements in 2020 can be attributed to two (2) primary factors. Firstly, the procurement of goods and services for several multi-year and large-scale projects, such as Ashbridges Bay Landform (\$39M), Lakeview Waterfront Connection (\$5.4M), Rockcliffe Flood Remediation Environmental Assessment (\$2M) and Scarborough Waterfront (\$1.5M). Secondly, several large Vendor of Record (VOR) arrangements were established (\$8.5M). The value of these arrangements was estimated based on known expenditures in previous years and a forecast of future expenditures over a single or multiple year contract term.

As shown in Attachment 2, the total value of contract increases was \$26.0M (\$6.9M in 2019) and contract decreases due to scope changes was \$8.3M (\$4.4M in 2019) for a total net value of revisions equal to approximately \$17.7M (\$2.5M in 2019). These contract increases and

# **Item 9.1**

decreases are largely the result of three (3) primary factors. Firstly, there were continual scope changes to the East Don Trail construction project, which has a total contract cost of \$23M. The scope changes are due to the changing and unknown physical site conditions (e.g. seepage areas) reflecting the nature of the project within an environmentally sensitive and deeply incised valley. In addition, the use of contingency on a number of approved revisions was reversed, as it was identified that the changes were related to existing tender items and not new scope of work. Secondly, a few VOR arrangements, such as the supply and delivery of aggregate materials and rental of operated heavy construction equipment, were extended in accordance with the agreement terms and conditions. Lastly, due to staff changes and unknown operational needs at the beginning of the COVID-19 pandemic, several contracts were extended, on a short-term basis, until a new procurement process could be conducted.

In 2020, approximately 71% of approved contracts included a contingency in the range of 10-15% (Attachment 7). The total amount of contingency that was approved in 2020 was \$6.11M, of which approximately \$836K was used by the end of the year. Contracts that were approved in 2020 that are multi-year contracts may have an additional portion of the contingency used over the course of the contract term. Contingencies for new and multi-year contracts will continue to be formally tracked and reported on.

# **Attachment 4**

# **Goods/Services Exempt from Procurement and Purchase Order Approvals**

- Customer Refunds;
- Insurance Deductibles;
- Legal Settlements;
- Payroll Requisitions;
- Payments to Current and Past Employees;
- Petty Cash Replenishment/Floats; and
- Payments to Toronto and Region Conservation Foundation.

## Attachment 5 - Non-Application

The following does not apply to the requirements set out in the guidelines:

- (a) public employment contracts;
- (b) non-legally binding agreements;
- (c) any form of assistance, such as grants, loans, guarantees, and financial incentives:
- (d) a contract awarded under a cooperation agreement with an international cooperation organization if the procurement is financed, in whole or in part, by that organization, only to the extent that the agreement includes rules for awarding contracts that differ from the obligations of the CFTA;
- (e) acquisition or rental of land, existing buildings, or other immovable property, or the rights thereon;
- (f) measures necessary to protect intellectual property, provided that the measures are not applied in a manner that would constitute a means of arbitrary or unjustifiable discrimination for non-Ontario vendors or are a disguised restriction on trade;
- (g) procurement or acquisition of:
  - (i) fiscal agency or depository services;
  - (ii) liquidation and management services for regulated financial institutions; or
  - (iii) services related to the sale, redemption, and distribution of public debt, including loans and government bonds, notes, and other securities:
- (h) procurement of:
  - (i) financial services respecting the management of TRCA financial assets and liabilities (i.e. treasury operations), including ancillary advisory and information services, whether or not delivered by a financial institution;
  - (ii) health services or social services;
  - (iii) services that may, under applicable law, only be provided by licensed lawyers or notaries; or
  - (iv) services of expert witnesses or factual witnesses used in court or legal proceedings; or
- (i) procurement of goods or services:

- (i) financed primarily from donations that require the procurement to be conducted in a manner inconsistent with the CFTA;
- (ii) by TRCA on behalf of an entity not covered by the CFTA;
- (iii) between one government body or enterprise and another government body or enterprise;
- (iv) from philanthropic institutions, non-profit organizations, prison labour, or natural persons with disabilities; or
- (v) under a commercial agreement between a procuring entity which operates sporting or convention facilities and an entity not covered by the guidelines that contains provisions inconsistent with the guidelines.

# **Attachment 6 – Limited Tendering**

Limited tendering may occur for the following circumstances, however, TRCA may elect to conduct a competitive process for transparency, best value, or other reasons. Consult with Procurement and Legal Services if you are unsure if one of these scenarios exists.

Mandatory consultation with Procurement and Legal Services is required prior to initiating a limited tendering process.

|   | Scenario  | Example   | Notes   |  |
|---|---|---|---|--|
| (a) If conducted a procurement process in accordance with the Procurement Policy and provided that the requirements of the original competitive procurement documentation are not substantially modified: | (i) No bids were submitted, or no vendors requested participation;  |   |   |  |
|   | (ii) no bids that conform to the essential requirements of the solicitation documentation were submitted; | TRCA has asked for A and the proponent is proposing B.  | Can be used for when none of the bids have met the minimum scoring requirements in an RFP process or all of the bids have been disqualified. Not to be used because TRCA is unhappy with the bids, or unhappy with the prices and want to re-scope. |  |
|   | (iii) no bids satisfied the conditions for participation; or  | No bidders attend a mandatory bidders meeting or no bidders had specific certification that is required.  |   |  |
|   | (iv) the submitted bids were collusive.   | In bidding for public sector construction work, construction firms would collude in setting artificially high prices. Firms would decide which contracts they | When rival firms agree to work together by setting higher prices in order to make higher profits.   |  |

|   |   | wanted, and rivals would bid purposefully high price.  |  |
|---|---|--|--|
| (b) if the goods or services can be supplied only by a particular vendor and no reasonable alternative or   | (i) the requirement is for a work of art;   | A painting by famous painter.  | Does not apply to massively produced works of art (e.g. Ikea art).   |
| substitute goods or services exist for any of the following reasons:  | (ii) the protection of patents, copyrights, or other exclusive rights;  | IT software.   |  |
|   | (iii) due to an absence of competition for technical reasons;   | Purchase of rain or stream gauge equipment or certain hydraulic modelling services.  |  |
|   | (iv) the supply of goods or services is controlled by a vendor that is a statutory monopoly;  | Utilities (Bell, Toronto Hydro, Rogers), or the LCBO.  | Cannot be legally purchased elsewhere.   |
|   | (v) to ensure compatibility with existing goods, or to maintain specialized goods that must be maintained by the manufacturer of those goods or its representative; | A piece of equipment won't function unless the part is replaced or maintenance occurs by the manufacturer or its representative. | Does not apply to services.  |
|   | (vi) work is to be performed on property by a contractor according to provisions of a warranty or guarantee held in respect of the property or the original work;   |  |  |
|   | (vii) work is to be performed on a leased building or related property, or portions thereof, that may be performed only by the lessor; or                           | Quadreal is retained to provide roof repairs at 101 Exchange Ave.  |  |
|   | (viii) the procurement is for subscriptions to newspapers, magazines, or other periodicals.   |  |  |
| (c) For additional deliveries by the original vendor of goods or services that were not included in the initial solicitation, if a change of vendor | (i) cannot be made for economic or technical reasons such as requirements of interchangeability or interoperability with existing equipment, software,              | Further improvements to LID tool.  | Allowed to go back to the original scope provider but internal justification is needed as to why it wasn't included in the |

| for such additional goods or services:  | services, or installations procured under the initial procurement; and                   |  | original scope. Primarily used for IT procurement.  |
|---|--|--|---|
|   | (ii) would cause significant inconvenience or substantial duplication of costs for TRCA. | Contractor is already on site and doing work and there is another slope failure and additional work is required - this would reduce duplication of mobilization costs. | During consultation, the scope, risk, value, relativity to the project, and the circumstances arising will be examined. |
| (d) if strictly necessary, and for reasons of urgency brought about by events unforeseeable by TRCA, the goods or services could not be obtained in time using an open competitive procurement;   |  | Natural disasters, EOC is activated, roof is blown off one of our residential rental properties (includes work associated with insurance claims).                      | Emergency, not to be used for poor planning.  |
| (e) for goods purchased on a commodity market;  |  | Wheat, coffee, sugar, fruit, coco, precious metals.  | Not for manufactured products.  |
| (f) if TRCA procures a prototype or<br>a first good or service that is<br>developed in the course of, and for,<br>a particular contract for research,<br>experiment, study, or original<br>development <sup>1</sup> ;   |  | TRCA is approached to trial a new product or 3D printing services to create a unique product or part for a piece of equipment.   | Not used for a pilot project.   |
| (g) for purchases made under exceptionally advantageous conditions that only arise in the very short term in the case of unusual disposals such as those arising from liquidation, receivership, or bankruptcy, but not for routine purchases from regular vendors; |  | A supplier is going out of business due to bankruptcy or other circumstances and there is a deep discounted sale.  |   |

<sup>&</sup>lt;sup>1</sup> Original development of a first good or service may include limited production or supply in order to incorporate the results of field testing and to demonstrate that the good or service is suitable for production or supply in quantity to acceptable quality standards, but does not include quantity production or supply to establish commercial viability or to recover research and development costs.

| (h) if a contract is awarded to a winner of a design contest provided that:  | (i) the contest has been organized in a manner that is consistent with the principles of the CFTA, in particular relating to the publication of a tender notice; and |  | Cannot limit the contest to Province of Ontario. Does not apply to design charrette, or design build. |
|--|--|--|---|
|  | (ii) the participants are judged by an independent jury with a view to a design contract being awarded to a winner.  |  |   |
| (i) if goods or consulting services regarding matters of a confidential or privileged nature are to be purchased and the disclosure of those matters through an open competitive procurement process could reasonably be expected to compromise government confidentiality, result in the waiver of privilege, cause economic disruption, or otherwise be contrary to the public interest <sup>2</sup> . |  | TRCA requires a consultant to deal with an HR issue. |   |

<sup>&</sup>lt;sup>2</sup> In using limited tendering under this paragraph (i), compliance with Article 516 of the CFTA (Transparency of Procurement Information) is also not required (e.g., the procuring entity is not required to post award information).

# Section IV - Ontario Regulation 166/06, As Amended

**TO:** Chair and Members of the Executive Committee

Friday, April 9, 2021 Meeting

FROM: Sameer Dhalla, Director, Development and Engineering Services

RE: APPLICATIONS FOR PERMITS PURSUANT TO ONTARIO REGULATION

166/06, AS AMENDED

Development, Interference with Wetlands and Alterations to Shorelines and

Watercourses

#### **KEY ISSUE**

Pursuant to Ontario Regulation 166/06, as amended, written permission from the Authority is required for:

- a) straightening, changing, diverting or interfering in any way with the existing channel of a river, creek, stream or watercourse, or for changing or interfering in any way with a wetland:
- b) development, if in the opinion of the Authority, the control of flooding, erosion, dynamic beaches or pollution or the conservation of land may be affected by the development.

A permit may be refused through a Hearing Process, if in the opinion of the Authority, the control of flooding, erosion, dynamic beaches, pollution or the conservation of land is affected.

#### **RECOMMENDATION**

THAT standard delegated permits, permission for routine infrastructure works, minor works letters of approval, and permits after the fact / resolution of violations granted by Toronto and Region Conservation Authority staff, in accordance with Ontario Regulation 166/06, as amended, which are listed below, be received.

# STANDARD DELEGATED PERMITS FOR RECEIPT - STAFF APPROVED AND ISSUED

Delegated Permits are processed by Development and Engineering Services Division staff, authorized by designated staff appointed as Enforcement Officers by the Board of Directors and received monthly by the Executive Committee. Delegated permits are categorized as standard, routine infrastructure works, emergency infrastructure works, minor works and permits after the fact/resolution of violations. Standard permits are non-complex permissions consistent with TRCA approved policies and procedures and issued for a time period of two years or less.

## **CITY OF BRAMPTON**

#### BROOKVALLEY DEVELOPMENTS BRAMPTON INC. - Humber River Watershed

The purpose is to undertake works within a TRCA Regulated Area of the Humber River Watershed to facilitate final grading and servicing associated with a draft plan of subdivision application and zoning by-law amendment application to permit a residential development consisting of four (4) single detached lots, six (6) residential reserve blocks and the extension of Rainbrook Close.

CFN: 63921 - Application #: 1081/20/BRAM

Report Prepared by: Adam Miller, extension 5244, email adam.miller@trca.ca For information contact: Adam Miller, extension 5244, email adam.miller@trca.ca

Date: March 23, 2020

## **CITY OF BRAMPTON - Etobicoke Creek Watershed**

The purpose is to undertake works within TRCA's Regulated Area of the Etobicoke Creek Watershed in order to facilitate the development of a 92 sq.m. (990.27 sq.ft.) club house, viewing deck and ramp located to the east of the original club house. The purpose of this permit is also to allow the replacement of the existing tennis court. The subject property is located at 38 Union Street, in the City of Brampton.

CFN: 64487 - Application #: 0176/21/BRAM

Report Prepared by: Lina Alhabash, extension 5657, email lina.alhabash@trca.ca For information contact: Lina Alhabash, extension 5657, email lina.alhabash@trca.ca

Date: March 29, 2021

## 12 QUINTETTE CLOSE - Humber River Watershed

The purpose is to undertake works within TRCA's Regulated Area of the Humber River Watershed in order to facilitate the development of a second dwelling unit and two below-grade entrances, located in the basement of the existing house. The subject property is located at 12 Quintette Close, in the City of Brampton.

CFN: 64591 - Application #: 0360/21/BRAM

Report Prepared by: Lina Alhabash, extension 5657, email lina.alhabash@trca.ca For information contact: Lina Alhabash, extension 5657, email lina.alhabash@trca.ca

Date: March 25, 2021

#### 21 SORBONNE DRIVE - Humber River Watershed

The purpose is to undertake works within TRCA's Regulated Area of the Humber River Watershed in order to facilitate the construction of two new windows and two replacement windows associated with finishing a basement apartment in an existing single detached dwelling. The subject property is located on lands known municipally as 21 Sorbonne Drive, in the City of Brampton.

CFN: 64043 - Application #: 0009/21/BRAM

Report Prepared by: Diane Pi, extension 5723, email diane.pi@trca.ca For information contact: Diane Pi, extension 5723, email diane.pi@trca.ca

Date: February 28, 2021

#### 70 SAINT HUBERT DRIVE - Humber River Watershed

The purpose is to undertake works within TRCA's Regulated Area of the Humber River Watershed in order to facilitate the development of a second dwelling unit and two new basement windows, in addition to a new side entrance located at the ground floor of the existing house. The purpose of this permit is also to recognize a 23.9 sq.m. (257.25 sq.ft.) deck and a 9.66 sq.m. (104 sq.ft.) shed located to the back of the house. The subject property is located at 70 Saint Hubert Drive, in the City of Brampton.

CFN: 64584 - Application #: 0309/21/BRAM

Report Prepared by: Lina Alhabash, extension 5657, email lina.alhabash@trca.ca For information contact: Lina Alhabash, extension 5657, email lina.alhabash@trca.ca

Date: March 25, 2021

#### 10 ALOMA CRESCENT - Etobicoke Creek Watershed

The purpose is to undertake works within TRCA's Regulated Area of the Etobicoke Creek Watershed in order to facilitate the development of a second dwelling unit and the enlargement of two existing windows, located in the basement of the existing house. The subject property is located at 10 Aloma Crescent, in the City of Brampton.

CFN: 64550 - Application #: 0236/21/BRAM
