Section I – Items for Board of Directors Action

TO: Chair and Members of the Executive Committee
Friday, September 10, 2021 Meeting

FROM: Michael Tolensky, Chief Financial and Operating Officer

RE: **CITY OF TORONTO**
Request from the City of Toronto for Conveyance of a Permanent Easement
Required for the Martin Grove Road Watermain Replacement Project,
Ravenscrest Park, 305 Martin Grove Road, City of Toronto, Mimico Creek
Watershed (CFN 64472)

KEY ISSUE

Receipt of a request from the City of Toronto, for a permanent easement for lands located east of Martin Grove Road and north of Rathburn Road, municipally known as 305 Martin Grove Road, in the City of Toronto, required for the Martin Grove Road Watermain Replacement Project, Ravenscrest Park, Mimico Creek watershed.

RECOMMENDATION

THE EXECUTIVE COMMITTEE RECOMMENDS THAT WHEREAS Toronto and Region Conservation Authority (TRCA) is in receipt of a request from the City of Toronto for the conveyance of a Permanent Easement on TRCA-owned lands located east of Martin Grove Road and north of Rathburn Road, municipally known as 305 Martin Grove Road in the City of Toronto, required for the Martin Grove Road Watermain Replacement Project, Ravenscrest Park, Mimico Creek watershed;

AND WHEREAS it is in the best interest of TRCA in furthering its objectives as set out in Section 20 of the *Conservation Authorities Act* to cooperate with City of Toronto in this instance.

THEREFORE LET IT BE RESOLVED THAT an easement over TRCA-owned land containing 0.352 hectares (.87 acres), more or less, of vacant land, required for the Martin Grove Road Watermain Replacement Project, Ravenscrest Park, said lands being Part of Lot 12, Concession 1 Fronting the Humber, Borough of Etobicoke in the Municipality of Metropolitan Toronto (now City of Toronto) being part of PIN 07453-0056 LT, designated as Part 2 on Sketch No. PS-2020-069, dated October 26, 2020, in the City of Toronto, be conveyed to the City of Toronto.

THAT consideration be the nominal sum of \$2.00 and all legal, survey and other costs to be paid by the City of Toronto;

THAT the City of Toronto is to fully indemnify TRCA from any and all claims from injuries, damages or costs of any nature resulting in any way, either directly or indirectly, related to this easement;

THAT an archaeological investigation be completed, with any mitigation measures being carried out to the satisfaction of TRCA staff, at the expense of City of Toronto;

Item 7.1

THAT a landscape plan be prepared for TRCA staff review and approval, in accordance with existing TRCA landscaping guidelines at the expense of City of Toronto;

THAT a permit pursuant to Ontario Regulation 166/06, as amended, be obtained by City of Toronto prior to the commencement of construction, if required;

AND FURTHER THAT authorized TRCA officials be directed to take the necessary action to finalize the transaction, including obtaining any necessary approvals and the signing and execution of documents.

BACKGROUND

The City of Toronto has requested the conveyance of TRCA-owned lands, located east of Martin Grove Road and north of Rathburn Road, municipally known as 305 Martin Grove Road, in the City of Toronto, required for the Martin Grove Road Watermain Replacement Project, Ravenscrest Park, Mimico Creek watershed.

The subject TRCA-owned lands were acquired from City of Toronto, on October 23, 1974 under the Mimico Creek Flood Plain Lands Project (P7A-13).

Attachment 1 is a sketch illustrating the location of the subject lands. **Attachment 2** is an orthophoto illustrating the location of the subject lands.

RATIONALE

The City of Toronto has conveyed lands to TRCA over the years for nominal consideration of \$2.00 and has requested that TRCA lands required for the Martin Grove Road Watermain Replacement Project, Ravenscrest Park, be conveyed for a nominal consideration of \$2.00.

All lands disturbed by construction will be restored by City of Toronto in accordance with Ontario Regulation 166/06 permit.

Relationship to Building the Living City, the TRCA 2013-2022 Strategic Plan

This report supports the following strategy set forth in the TRCA 2013-2022 Strategic Plan:
Strategy 4 – Create complete communities that integrate nature and the built environment

FINANCIAL DETAILS

The City of Toronto has agreed to assume all legal, survey and other costs involved in completing this transaction.

Section I – Items for Board of Directors Action

TO: Chair and Members of the Executive Committee
Friday, September 10, 2021 Meeting

FROM: Michael Tolensky, Chief Financial and Operating Officer

RE: **KINGCAL PROPERTIES AND MAINTENANCE INC.**
Proposal to Renew the Lease for 4948 Rutherford Road, City of Vaughan,
Regional Municipality of York, Humber River Watershed (CFN 39525)

KEY ISSUE

Proposal from Kingcal Properties and Maintenance Inc. to enter a lease renewal of Toronto and Region Conservation Authority (TRCA) owned land to operate and maintain a property maintenance and management company located north of Rutherford Road and west of Pine Valley Drive, municipally known as 4948 Rutherford Road, in the City of Vaughan, Regional Municipality of York, Humber River watershed.

RECOMMENDATION

THE EXECUTIVE COMMITTEE RECOMMENDS THAT WHEREAS TRCA is in receipt of a request from Kingcal Properties and Maintenance Inc. to enter into a lease agreement to operate and maintain a property maintenance and management company located north of Rutherford Road and west of Pine Valley Drive, municipally known as 4948 Rutherford Road, City of Vaughan, Regional Municipality of York, Humber River watershed;

AND WHEREAS it is in the opinion of TRCA that it is in the best interest of TRCA in furthering its objectives, as set out in Section 20 of the *Conservation Authorities Act*, to cooperate with Kingcal Properties and Maintenance Inc. in this instance;

THEREFORE, LET IT BE RESOLVED THAT TRCA enter a lease with Kingcal Properties and Maintenance Inc. for the use of 0.60 hectares (1.50 acres), more or less, said land being Part of Lot 16, Concession 7, municipally known as 4948 Rutherford Road, City of Vaughan, Regional Municipality of York;

THAT the lease with Kingcal Properties and Maintenance Inc. be subject to the following terms and conditions:

- (i) that the term of the lease be for 1 year together with an annual renewal option for the next four years at the sole option of TRCA;**
- (ii) that consideration be \$18,900 per annum, plus HST, with an annual increase of 5 percent throughout the term of the lease, plus HST;**
- (iii) that Kingcal Properties and Maintenance Inc. be responsible for all approvals, maintenance and costs required for the construction and operation of a property maintenance and management company;**
- (iv) that Kingcal Properties and Maintenance Inc. be responsible for all costs associated with the removal of any equipment and materials associated with the construction and operation of their property maintenance and management company, at the end of the lease term, and restore the site to the satisfaction of TRCA.**

Item 7.2

- (v) any other terms and conditions deemed appropriate by the TRCA staff and solicitor;

THAT said lease be subject to the approval of the Ministry of Natural Resources and Forestry in accordance with Section 21(2) of the *Conversation Authorities Act*, R.S.O. 1990, Chapter C.27, as amended, if required;

AND FURTHER THAT authorized TRCA officials be directed to take the necessary action to finalize the transaction, including obtaining any necessary approvals and the signing and execution of documents.

BACKGROUND

At Executive Committee Meeting #8/07, held on October 26, 2007, Resolution #A230/07 was adopted in part as follows:

“THAT...Toronto and Region Conservation Authority (TRCA) has been requested by Kingcal Properties & Maintenance Inc. to enter into a lease arrangement for lands situated at 4948 Rutherford Road, Vaughan, known as the Former Nursery Workshop site;

...THAT TRCA enter into a lease of approximately 0.60 hectares, more or less, (1.5 acres) of land with Kingcal Properties & Maintenance Inc., for the operation of a property maintenance and management business and wholesale nursery business said land being Part of Lot 16, Concession VII, City of Vaughan, Regional Municipality of York;

THAT the lease with Kingcal Properties & Maintenance Inc. be premised on the following:

- (i) the initial term of the lease will be for three years, with two renewal options for successive one-year periods, subject to the concurrence of TRCA to the renewals;*
- (ii) the lease rate is to be \$1,271.67 per month;*
- (iii) Kingcal Properties & Maintenance Inc., has agreed to lease the lands in 'as is' condition;*
- (iv) TRCA shall continue to have exclusive use of 760 square feet at no cost;*
- (v) any other terms and conditions deemed appropriate by TRCA's solicitor...”*

TRCA is currently in receipt of a request from Kingcal Properties and Maintenance Inc. to renew their lease agreement for their business operation located north of Rutherford Road, and west of Pine Valley Drive, municipally known as 4948 Rutherford Road, City of Vaughan, Regional Municipality of York, Humber River watershed. Known as TRCA's Former Nursery Workshop site, given the successful construction of TRCA's Restoration and Infrastructure Campus, TRCA no longer utilizes 760 square feet of the building under lease to Kingcal Properties and Maintenance Inc. as part of this commercial lease agreement.

Item 7.2

Since entering into the original rental agreement with Kingcal Properties and Maintenance Inc. in 2008, TRCA has continued to renew the agreement with the tenant on an annual basis, for the operation of their business for the wholesale distribution of trees, shrubs, and garden nursery items, as well as the storage of equipment in connection with the distribution and operation of the aforesaid, excluding retail sales.

During Kingcal Properties and Maintenance Inc.'s tenure, their annual rental rate has been increased by approximately eighteen percent, from the 2008 annual rate of \$15,260 plus HST, to an annual rate of \$18,000 plus HST for the 2020 lease period. With this lease renewal, the annual rental rate would be increased by five percent, to an annual rental rate of \$18,900, plus HST, for the 2021 lease period.

Although the tenant requests a term of ten years for this lease renewal, TRCA cannot enter into lease agreements for terms longer than five years without provincial approval. TRCA therefore recommends a one-year lease renewal with the option of four one-year extensions, at the sole option of TRCA, with a five percent annual increase in rent, plus HST.

With this lease renewal, Kingcal Properties and Maintenance Inc. would continue to assume all responsibility for the lands under lease, which would include but not be limited to all costs pertaining to any renovations, repairs, utilities, and at the time of lease termination, any site restoration expenses that may be required and to the satisfaction of TRCA.

Attachment 1 is a sketch illustrating the location of the subject lands. **Attachment 2** is an orthophoto illustrating the location of the subject lands.

Lease Agreement

The area subject to this lease consists of approximately 0.60 hectares (1.50 acres) of land. The following are the key terms and conditions of the proposed lease arrangement:

1. Lease Payment: \$18,900 per annum together with an annual increase of five percent, plus HST;
2. Initial Term: 1 year, together with four one-year extension options, at TRCA's sole option;
3. Insurance: Kingcal Properties and Maintenance Inc. will provide five million in commercial general liability insurance;
4. Utilities: Kingcal Properties and Maintenance Inc. will be responsible for all applicable utilities;
5. Further Approvals: Kingcal Properties and Maintenance Inc. will comply with any applicable laws, directions, rules, and regulations.

RATIONALE

Renewing the lease agreement with Kingcal Properties and Maintenance Inc. would be in the best interest of TRCA in furthering its objectives as set out in Section 20 of the *Conservation Authorities Act*, allowing for continued revenue generation, supporting financial sustainability of TRCA's commercial leasing portfolio.

Relationship to Building the Living City, the TRCA 2013-2022 Strategic Plan

This report supports the following strategy set forth in the TRCA 2013-2022 Strategic Plan:
Strategy 7 – Build partnerships and new business models

Item 7.2

FINANCIAL DETAILS

Rental revenue generated from this lease will be used for TRCA purposes and applied to account code 002-43-030.

Section II – Items for Executive Action

TO: Chair and Members of the Executive Committee
Friday, September 10, 2021 Meeting

FROM: Anil Wijesooriya, Director, Restoration and Infrastructure

RE: **REQUEST FOR TENDER FOR EROSION CONTROL WORKS AT 70 MAIN STREET SOUTH, CITY OF MARKHAM**
RFT No. 10036272

KEY ISSUE

Award of Request for Tender (RFT) No. 10036272 to retain a contractor to implement remedial erosion control works, including the supply of all labour, equipment and materials required for implementation. The project is located at 70 Main Street South, in the City of Markham.

RECOMMENDATION

WHEREAS Toronto and Region Conservation Authority (TRCA) is engaged in a project that requires the implementation of erosion control works, including the relocation of an emergency access route outside of the erosion hazard limit;

AND WHEREAS TRCA solicited tenders through a publicly advertised process;

THEREFORE, LET IT BE RESOLVED THAT Request for Tender (RFT) No. 10036272 for Erosion Control Works at 70 Main Street South be awarded to R&M Construction at a total cost not to exceed \$270,879, plus applicable taxes, to be expended as authorized by Toronto and Region Conservation Authority (TRCA) staff;

THAT TRCA staff be authorized to approve additional expenditures to a maximum of \$27,088 (approximately 10% of the project cost), plus applicable taxes, in excess of the contract cost as a contingency allowance if deemed necessary;

THAT should TRCA staff be unable to negotiate a contract with the above-mentioned proponent, staff be authorized to enter into and conclude contract negotiations with other Proponents that submitted quotations, beginning with the next lowest bid meeting TRCA specifications;

AND FURTHER THAT authorized TRCA officials be directed to take whatever action may be required to implement the contract, including the obtaining of necessary approvals and the signing and execution of any documents.

BACKGROUND

In early 2014, the homeowners of 70 Main Street South flagged erosion related concerns to TRCA's Erosion Risk Management staff. It is believed that the erosion and slope stability concerns were a result of the July 8, 2013, severe storm event which caused widespread flooding, erosion, and slope failures throughout the Greater Toronto Area (GTA). Representative photos of the erosion can be found in **Attachment 2 – Site Photos**.

Item 8.1

As such, in 2015, TRCA retained Terraprobe Inc. to conduct a geotechnical investigation at the 70 Main Street South property. The geotechnical investigation results indicated that the main dwelling is located a safe distance to be impacted from the slope instability. Despite risk to the home being low, the driveway is located within the erosion hazard which is the emergency access route to the dwelling. Given the risk to the driveway, Terraprobe Inc. proceeded to develop conceptual designs to address the erosion issue and associated risk.

A Class Environmental Assessment for Remedial Flood and Erosion Control Project (Class EA) was initiated in 2018. Throughout this process, the concepts were evaluated, and it was determined that the preferred remedial solution was “Concept 2: Tableland Improvements and Continual Monitoring.” The preferred alternative involves the realignment of the driveway at 70 Main Street South, restoration of the erosion scour near the slope crest, and continual monitoring. In late 2019, TRCA retained GEI Consultants Inc. (formerly Mooney Metaxas Engineering Inc.) to develop detailed designs for the 70 Main Street South property based on the preferred concept. The proposed detailed design includes the relocation of the driveway outside of the erosion hazard, construction of an armourstone retaining wall, construction of a concrete toe wall, implementation of drainage improvements, and tableland restoration.

TRCA has negotiated contribution requirements with the landowners as per *TRCA's Private Landowner Contribution Policy for Erosion Control Works (2017)*. TRCA will execute an Erosion Control Agreement (ECA) with the landowners prior to implementation of the project.

RATIONALE

A Request for Tender was publicly advertised on the public procurement website www.biddingo.com on July 16, 2021 and closed on August 6, 2021 at 12:00 pm. A mandatory bidder's meeting and site tour was held on July 27, 2021. A total of seven (7) individuals registered at the bidder's meeting. The bidder's meeting was facilitated in accordance with the procedures of Incident Management System during the COVID-19 pandemic.

One (1) addendum was issued on July 29, 2021 to respond to questions received.

A total of twelve (12) contractors were noted as 'full document takers' on Biddingo for the RFT documents and three (3) digital tender submissions were received via www.biddingo.com from the following Proponent(s):

- Loc-Pave Construction
- Metric Contracting Services Corporation
- R&M Construction

The Procurement Opening Committee opened the tenders on August 6, 2021 at 12:01 pm with the following results:

Proponent	Fee (Excl. HST)
R&M Construction	\$270,879
Loc-Pave Construction	\$282,798
Metric Contracting Services Corporation	\$302,429

Item 8.1

The tender from Metric Contracting Services Corporation was disqualified because they did not include mandatory documentation components within their tender submission.

Staff reviewed the bid received from R&M Construction against its own cost estimate and has determined that the bid is of reasonable value and meets the requirements as outlined in the RFT documents. Therefore, it is recommended that contract No. 10036272 be awarded to R&M Construction at a total cost not to exceed \$270,879, plus 10% contingency, plus applicable taxes, with it being the lowest bid meeting TRCA's specifications.

Relationship to Building the Living City, the TRCA 2013-2022 Strategic Plan

This report supports the following strategic priority set forth in the TRCA 2013-2022 Strategic Plan:

Strategy 2 – Manage our regional water resources for current and future generations

FINANCIAL DETAILS

Funds for the contract are allocated from TRCA's York Region erosion funding under the main account of 189-84. The cost of executing this contract, including all staff time and associated costs to manage the project, is being tracked under account 189-27.

Section II – Items for Executive Committee Action

TO: Chair and Members of the Executive Committee
Friday, September 10, 2021 Meeting

FROM: Michael Tolensky, Chief Financial and Operating Officer

RE: **STANDING OFFER SUPPLY FOR INFORMATION TECHNOLOGY SOLUTIONS**
Contract No. 10035438

KEY ISSUE

Adoption of Kinetic Group Purchasing Organization (Kinetic GPO) contract for Information Technology infrastructure equipment, hardware products, and related services.

RECOMMENDATION

WHEREAS Toronto and Region Conservation Authority (TRCA) is engaged in ongoing business operations that require IT infrastructure equipment, hardware products, and related services;

AND WHEREAS Kinetic GPO has solicited and evaluated proposals through a publicly advertised process for a standing offer method of supply for information technology solutions;

THEREFORE, LET IT BE RESOLVED THAT TRCA staff be directed to utilize the Kinetic GPO contract (#17-02) for the supply of network technology products and services for the balance of the contract term ending in October 19, 2022;

AND FURTHER THAT authorized TRCA officials be directed to take whatever action may be required to implement the contract, including the obtaining of necessary approvals and the signing and execution of any documents.

BACKGROUND

TRCA business operations require Information Technology infrastructure hardware, software, solutions and services including, but not limited to:

- Data Centre Solutions;
- Wired and Wireless Networking;
- Power and Cooling;
- Software; and
- Professional and Managed Services.

CDW Canada, a leading provider of technology solutions for Canadian private and public sector organizations has been awarded the standing offer contract with Kinetic GPO, which allows CDW Canada to offer guaranteed minimum discounts, as well as unmatched levels of service, advice, and support from expert teams.

RATIONALE

Kinetic GPO is a cooperative purchasing organization established for Broader Public Sector entities across Canada with the specific purpose of leveraging group buying to reduce

Item 8.2

procurement costs. Kinetic GPO has conducted a competitive procurement process to establish an Information Technology Solutions (#17-02) contract with CDW Canada.

The Kinetic GPO contract is available to Broader Public Sector agencies which allows TRCA to leverage the goods and services provided by CDW Canada.

Relationship to Building the Living City, the TRCA 2013-2022 Strategic Plan

This report supports the following strategic priority set forth in the TRCA 2013-2022 Strategic Plan:

Strategy 7 – Build partnerships and new business models

Strategy 10 – Accelerate innovation

Strategy 11 – Invest in our staff

FINANCIAL DETAILS

Based upon a review of business operations initiatives scheduled for implementation during the contract period, the anticipated costs for the requested goods and/or services are approximately \$400,000, plus applicable taxes. CDW Canada understands both the potential cost and resource implications associated with changes in workload. The goods and/or services will be provided on an “as required” basis with no minimum hours guaranteed.

Funds for the contract are identified in the 5 Shoreham Office project budget and ITRM Capital and Operating budgets.

Section III – Items for the Information of the Board

TO: Chair and Members of the Executive Committee
Friday, September 10, 2021 Meeting

FROM: Michael Tolensky, Chief Financial and Operating Officer

RE: **2021 SIX MONTH FINANCIAL REPORT**

KEY ISSUE

Receipt of Toronto and Region Conservation Authority's (TRCA) unaudited expenditures as of the end of the second quarter, June 30, 2021, for informational purposes.

RECOMMENDATION

IT IS RECOMMENDED THAT the 2021 Financial Report for the six-month period ending June 30, 2021 be received.

BACKGROUND

As part of TRCA's financial governance procedures, staff are presenting the 2021 Six Month Financial Report, which covers the period from January 1, 2021 through to June 30, 2021. This report provides information on the spend rate of expenditures for the first six months of 2021.

RATIONALE

TRCA believes in transparency and accountability for its spending, revenue recognition and performance of service delivery objectives against approved budgets, for both the organization and for each project and program as an individual endeavour. This is further supported by TRCA's core values of integrity, collaboration, accountability, respect and excellence. TRCA recognizes that all projects and programs offered have cost implications and that all costs incurred are reasonable and practical in support of services. Transparency throughout the budget management process is achieved in part through the analysis and reporting on year to date revenues/expenses as compared to the current fiscal year budget. In order to improve the accuracy in reporting anticipated issues in expenditures, TRCA established a seasonal forecasting baseline using historical data from the past three years to estimate the seasonal variances within each program area.

Relationship to Building the Living City, the TRCA 2013-2022 Strategic Plan

This report supports the following strategy set forth in the TRCA 2013-2022 Strategic Plan:
Strategy 9 – Measure performance

FINANCIAL DETAILS

The capital and operating report by Service Area and underlying Program Areas are provided in **Attachments 1 and 2** respectively. The attachments provide a summary analysis of expenditures to date and the variance explanations by Program Area which have a variance threshold of +/- 10% and \$500,000 from anticipated quarterly spend rates. Variances within these thresholds are deemed to be within the expected range. The capital report contains eight reportable variances for the six-month period, whereas the operating report contains one reportable variance. **Attachment 3** provides explanations for each reportable variance.

DETAILS OF WORK TO BE DONE

Staff are constantly analyzing TRCA's 2021 operations in the context of COVID-19's impact on

Item 9.1

the organization's revenues and expenditures and potential for government funding to reduce the negative repercussions of restrictions to our staff complement, while ensuring that the safety of staff and the public is maintained. Staff will continue to provide quarterly financial updates to the Board of Directors. More detailed information on COVID-19's year to date impacts can be found in the report titled *2021 COVID-19 Six Month Update*.

ATTACHMENT 3: VARIANCE EXPLANATIONS

CAPTIAL REPORTABLE VARIANCE NOTES - EXPENDITURES (Figures in 000's)

A	The higher than anticipated expenditures are related to the disposal of the non-ecologically significant portion of the Tompion lands. Once this is taken into consideration, the variance is \$0 and 0% which is within the acceptable threshold.
B	The lower than anticipated expenditures are related to the Albion Hills Conservation Area office and workshop replacement, which has been deferred to Q4 2021 as a result of delays in planning and design. Once this is taken into consideration, the variance is \$519 and 9% which is within the acceptable threshold.
C	The lower than anticipated expenditures are due to delays in the detailed design for the Scarborough Waterfront Project, resulting from various technical challenges presented as the process has advanced. TRCA continues to work with the City of Toronto through project planning to move the design exercise forward and is in on-going discussions with City Finance and Transportation regarding the confirmation of implementation funding. Once this is taken into consideration the variance is (-22) and 0% which is within the acceptable threshold.
D	The lower than anticipated expenditures are due to delays for a number of contracted service trail infrastructure projects including: The Meadoway, Lambton Woods Pedestrian Bridge Replacement and Moore-Heath Beltline Trail Switchback, which are all anticipated to begin in Q3. Additionally, the scope of work for Cudmore Creek trail improvements has been reduced due to funding constraints. Once this is taken into consideration the variance is \$726 and 5% which is within the acceptable threshold.
E	The lower than anticipated expenditures are due to the deferral of remaining site improvements at Bolton Camp until sufficient funding is secured. Once this is taken into consideration the variance is \$283 and 8% which is within the acceptable threshold.
F	The lower than anticipated expenditures are due to the cancellation of in-person training programs and events as a result of COVID-19. Once this is taken into consideration the variance is \$428 and 8% which is within the acceptable threshold.
G	The lower than anticipated expenditures are due to staff gapping. Additionally, the Morningside Legacy project is anticipated to be implemented in Q3 & Q4 of this year. Once this is taken into consideration the variance is \$277 and 7% which is within the acceptable threshold.
H	The lower than anticipated expenditures are related to the delivery and installation of mass timber at TRCA's new administrative office building, which has been delayed to Q4. Once this is taken into consideration the variance is \$1,801 and 4% which is within the acceptable threshold.

OPERATING REPORTABLE VARIANCE NOTES - EXPENDITURES (Figures in 000's)

I	The lower than anticipated expenditures are due to a reduced number of corporate offerings as a result of COVID-19. Once this is taken into consideration the variance is \$323 and 5% which is within the acceptable threshold.
----------	--

Section III – Items for the Information of the Board

TO: Chair and Members of the Executive Committee
Friday, September 10, 2021 Meeting

FROM: Michael Tolensky, Chief Financial and Operating Officer

RE: **2021 COVID-19 SIX MONTH UPDATE**

KEY ISSUE

To provide an update to Toronto and Region Conservation Authority's (TRCA) Board of Directors regarding the financial impacts of COVID-19 in the first six months of 2021.

RECOMMENDATION

IT IS RECOMMENDED THAT this 2021 COVID-19 Six Month Update report be received.

BACKGROUND

Since the commencement of COVID-19's impact on TRCA operations in March 2020, staff have provided updates to the Board of Directors regarding the ongoing response to the pandemic in the form of reports, memos, and presentations. These updates provide an overview of the changing circumstances around the work environment, financial implications, and operational restrictions that TRCA continues to face. The impact of COVID-19 on TRCA's operating budget was successfully managed by staff throughout 2020 and into 2021, this can be directly attributed to the hard work of staff across the organization to adapt ongoing programming to meet the provincial directives.

Staff are now prepared to shift between adapted and in-person programming in response to public health conditions.

RATIONALE

COVID-19 restrictions have continued to impact TRCA's business models and has resulted in the cancellation of in-person events and programming in the first six months of 2021. A summary of the province-wide restrictions impacting TRCA's operations can be found below:

Stage	Date
Province-wide Stay-at-Home order	December 2020 – June 11, 2021, with brief periods of reopening in Durham & York regions
Step 1 of the Roadmap to Reopen	June 11, 2021 – June 29, 2021
Step 2 of the Roadmap to Reopen	June 30, 2021 – July 15, 2021
Step 3 of the Roadmap to Reopen	July 16, 2021 - Present
Roadmap Exit Step	To be determined

Relationship to Building the Living City, the TRCA 2013-2022 Strategic Plan

This report supports the following strategy set forth in the TRCA 2013-2022 Strategic Plan:

Strategy 9 – Measure performance

FINANCIAL DETAILS

As noted in COVID-19 financial updates provided throughout 2020, TRCA's operating budget and more specifically, authority generated revenue, is most heavily impacted by restrictions. To

Item 9.2

examine the financial impacts of COVID-19 in the first six months of 2021, TRCA's operating budget performance is compared to the same period of 2020 in *Table 1* below:

Table 1 - TRCA Operating Budget (Actual Six-Month Performance)

	2021	2020	Variance (\$)
Expenditures	17,658,276	18,114,321	(456,045)
TRCA Generated Revenue	11,810,635	7,338,537	4,472,098
Deficiency of Revenue over Expenditures	-5,847,641	-10,775,784	4,928,143

The deficiency of revenue over expenditures each year above is not a financial loss but illustrates the portion of government funding in TRCA's operating budget. Government funding, which is over 90% operating levy, increased from \$16.8 million in 2020 to \$17.8 million in 2021.

Operating Variance Explanation

In analyzing TRCA's Service Area performance over the six-month period, thresholds consistent with those utilized to analyze TRCA's expenses to date in the *2021 Six Month Financial Report*, +/- 10% and \$500,000, were applied to the organization's Service Areas. As shown in *Table 2* below, the first six months of 2021 have generated a 61% increase in authority generated revenue compared to the first six months of 2020.

Table 2 – Authority Generated Revenue (Actual Six-Month Performance)

Authority Generated Revenue	2021	2020	Variance (\$)	Explanation
Watershed Planning & Reporting	-	-	-	
Water Risk Management	-	-	-	
Regional Biodiversity	1,479,554	892,598	586,956	A
Greenspace Securement and Management	680,467	719,597	(39,130)	
Tourism and Recreation	4,225,685	1,656,950	2,568,735	B
Planning and Development Review	4,067,028	3,384,604	682,424	C
Education and Outreach	1,069,756	483,607	586,148	D
Sustainable Communities	215,206	136,800	78,406	
Corporate Services	72,939	64,380	8,560	
Grand Total	11,810,635	7,338,537	4,472,098	

The following explanations for the increased revenue are outlined below in Tables 3 - 6:

Table 3 – Regional Biodiversity (Actual Six-Month Performance)

	2021	2020	Variance (\$)	Variance (%)
Expenditures	157,184	416,896	(259,712)	(62.3%)
TRCA Generated Revenue	1,479,554	892,598	586,956	65.8%
Excess of Revenue over Expenditures	1,322,370	475,702	846,668	178.0%

The 2021 increase in TRCA generated revenue noted in Table 3 above is comprised of tipping fee revenue generated at the Brock North and Brock South sites. Once this is taken into consideration the variance is within the acceptable threshold. Tipping fee revenue from Brock North and Brock South has not been impacted by the COVID-19 pandemic, as essential construction projects and services have remained operational during the Stay-at-Home order.

Item 9.2

The revenue generated at these sites will offset all development and operating expenditures and surplus revenue will be used for the future restoration of the Brock North lands and Greenwood Conservation Area lands.

Table 4 – Tourism & Recreation (Actual Six-Month Performance)

	2021	2020	Variance (\$)	Variance (%)
Expenditures	3,215,684	3,155,525	60,160	1.9%
TRCA Generated Revenue	4,225,685	1,656,950	2,568,735	155.0%
Excess (Deficiency) of Revenue over Expenditures	1,010,001	(1,498,575)	2,508,575	(167.4%)

The 2021 increase in TRCA generated revenue noted in Table 4 above is due to additional commercial filming revenue generated at TRCA Conservation Areas (\$1.4 million). Once this is taken into consideration the variance is within the acceptable threshold. This revenue will be used to offset additional operating costs or COVID-19 related revenue losses. Any remaining revenue may also support unique one-time expenses such as Gypsy moth spray at Boyd Conservation Park, the installation of automated gates, or contribute to corporate reserves.

Table 5 – Planning & Development (Actual Six-Month Performance)

	2021	2020	Variance (\$)	Variance (%)
Expenditures	5,280,413	5,016,516	263,897	5.3%
TRCA Generated Revenue	4,067,028	3,384,604	682,424	20.2%
Deficiency of Revenue over Expenditures	(1,213,386)	(1,631,912)	418,526	(25.6%)

The 2021 increase in TRCA generated revenue noted in Table 5 above is due to an increase in the number of development planning applications in 2021. Once this is taken into consideration the variance is within the acceptable threshold.

Table 6 – Education & Outreach (Actual Six-Month Performance)

	2021	2020	Variance (\$)	Variance (%)
Expenditures	1,830,467	2,184,391	(353,925)	-16.2%
TRCA Generated Revenue	1,069,756	483,607	586,148	121.2%
Deficiency of Revenue over Expenditures	(760,711)	(1,700,784)	940,073	-55.3%

The 2021 increase in TRCA generated revenue noted in Table 5 above is due to fees collected at Black Creek Pioneer Village, Kortright, Swan Lake, Claremont, Tommy Thompson Park and Claireville for summer camp bookings which were cancelled throughout 2020 due to COVID-19. Once this is taken into consideration the variance is within the acceptable threshold.

DETAILS OF WORK TO BE DONE

TRCA's Human Resources team will continue to lead the monitoring of public health, legislative changes and partner municipality practices to ensure TRCA is legislatively compliant and has adopted the most current public health requirements and recommendations.

Staff will continue to offer virtual programming and are preparing to offer in-person programming while conditions allow in the second half of the year. Additionally, staff are in discussions with area school boards to begin to plan for a safe reintroduction of class field trips when appropriate

Item 9.2

and public health conditions permit, with day field trips anticipated in late 2021 and overnight excursions in 2022.

Staff will continue to monitor the financial health of the organization and investigate all opportunities provided to mitigate financial losses.

TO: Chair and Members of the Executive Committee
Friday September 10, 2021 Meeting

FROM: Michael Tolensky, Chief Financial and Operating Officer

RE: **FUNDING AND GRANTS PROGRAM**
In-Year Program Update

KEY ISSUE

To provide an in-year update to Toronto and Region Conservation Authority's (TRCA) Board of Directors on the Funding and Grants program and to highlight the success rate as of August 13, 2021.

RECOMMENDATION

IT IS RECOMMENDED THAT the staff report highlighting the in-year Funding and Grants program update for 2021, be received.

BACKGROUND

The Funding and Grants program within the Strategic Business Planning and Performance business unit provides timely and seamless support for all TRCA and Toronto and Region Conservation Foundation (TRCF) funding and grant applications. This program provides opportunities for TRCA programs and services to diversify their revenue streams through additional support provided through the centralized funding and grants team. The funding and grants team also assists in strengthening the leadership and collaboration among all divisions to ensure consensus in the prioritization and strategic positioning of all new funding opportunities.

RATIONALE

Attachment 1 provides a summary of the status of funding applications submitted as of August 13, 2021, which are organized based on their current status of approved, under review, and declined grants. The attachment is current as of August 13, 2021.

Relationship to Building the Living City, the TRCA 2013-2022 Strategic Plan

This report supports the following strategies set forth in the TRCA 2013-2022 Strategic Plan:

Strategy 7 – Build partnerships and new business models

Strategy 9 – Measure performance

FINANCIAL DETAILS

Between January 2021 and August 13, 2021, the Funding and Grants program has facilitated a total of 48 grant submissions with a total in-year request of \$12.1M. The additional revenues and support generated through the funding and grants program help to provide projects and programs with an increasingly sustainable business model by reducing reliance on partner municipality funding.

TRCA currently has approximately \$7.4M in grant applications under review with various funding programs following grant applications that were submitted in the current fiscal year. Throughout 2021 to date, TRCA received notice that \$3.7M has been awarded through the Funding and Grants program, and that \$8.3M has been declined.

Table 1: In-Year Grant Program Update

Grant Status	# of Grants	Approved/Requested Funding \$ (000's)
Under Review Grants	19	\$7,376
Awarded Grants	30	\$3,741
Declined Grants	13	\$8,306

In addition to the funding applications submitted and/or awarded in the current fiscal year, TRCA continues to manage grants and funding that have been successful in previous fiscal years and were still active in 2021. TRCA has budgeted a total of \$21.0M in revenues for 2021, which is representative of all sources of grant funding.

As of August 13, 2021, TRCA had earned 21% of the budgeted grant revenue for 2021. The percentage of revenue earned appears low as a result of the timing of invoicing for the Disaster Mitigation and Adaptation Fund (DMAF). TRCA staff are working closely with program officers throughout this process and will continue to report on the status of these projects. Additionally, COVID-19 restrictions have delayed implementation of the Administrative Head Office Building project and thus payments from Natural Resources Canada for TRCA's GCWood grant have been deferred.

The following section highlights some of the major projects and programs that make up the budgeted total for each revenue category:

Federal

Toronto Region Ravine Erosion Management and Hazard Mitigation Project and Waterfront Erosion Hazard Mitigation Project– With funding from the Government of Canada's DMAF program, these projects continue to be implemented to address erosion issues within TRCA's jurisdiction. The projects address erosion along ravine systems in the Region of Peel, York Region and the City of Toronto, as well as maintaining and restoring TRCA's extensive network of shoreline erosion control structures over the next 7 years.

The Newcomer Youth Green Economy Project (NYGEP) – With funding from Immigration, Refugees and Citizenship Canada, NYGEP supports newcomer youth interested in careers in the environmental sector by providing access to experiential learning opportunities and job skills training. Despite challenges posed by restrictions to in-person learning, staff have mobilized virtual alternatives to ensure NYGEP's continuous and successful implementation.

TRCA's New Administrative Office Building – With funding from Natural Resources Canada's Green Construction through Wood (GCWood) Program, TRCA is constructing a new mass timber head office building which promises to be one of the most energy-efficient office buildings in North America once completed.

Provincial

Professional Access Into Employment (PAIE) Program – With a funding extension from the Ontario Ministry of Labour, Training and Skills Development, the PAIE Program will continue to help internationally trained environmental engineers, geoscientists, planners, ecologists and green building specialists to obtain commensurate employment in Ontario into Fall 2021. A proposal has been submitted to the Ministry to further extend PAIE implementation until 2024.

Municipal

Toronto Tree Cover Project – The Toronto Tree Cover Project has engaged communities throughout Toronto in support of the development and expansion of native tree cover on commercial, industrial and institutional lands throughout the city for over three years.

Non-Government

The Meadoway – With funding from the Weston Family Foundation, Environment and Climate Change Canada, and City of Toronto, detailed design work is currently being completed for The Meadoway trail network, as well as extensive meadow restoration and outreach and education programs to engage and inform members of the surrounding community.

The funding and grants program continues to support the establishment and success of sustainable business models through collaboration with partners and the pursuit of diversified revenue streams which directs additional resources towards key initiatives.

DETAILS OF WORK TO BE DONE

Various aspects of the Funding and Grants Program continue to be affected by the COVID-19 pandemic. The Funding and Grants team will continue to work closely with TRCA's funding partners to ensure that grant application submissions and reporting are submitted in a timely manner, despite delays and implementation changes caused by public health restrictions. The Funding and Grants team will also continue to work with TRCA's partners to adjust to our shared circumstances.

The *Disaster Mitigation and Adaptation Fund* (DMAF) has re-opened and will be accepting applications to its small-scale stream (projects with budgets between \$1M and \$20M) and large-scale stream (projects with budgets greater than \$20M). The Funding and Grants team is exploring this new intake by collaborating with TRCA staff and municipal partners to identify eligible projects, secure matching dollars and develop strong funding proposals. DMAF already provides significant support for TRCA's core natural hazard programs, and the Funding and Grants team anticipates a concerted effort to extend this support through collaborative applications – including both partner-led and TRCA-led initiatives.

Section III – Items for the Information of the Board

TO: Chair and Members of the Executive Committee
Friday, September 10, 2021 Meeting

FROM: Michael Tolensky, Chief Financial and Operating Officer

RE: **2021 RISK PROGRAM UPDATE**

KEY ISSUE

Update on Toronto and Region Conservation Authority's (TRCA) Risk Management Program.

RECOMMENDATION

IT IS RECOMMENDED THAT this report on TRCA's Risk Management Program be received.

BACKGROUND

At Board of Directors Meeting #6/19, held on June 21, 2019, Resolution #A124/19 was approved as follows:

THAT TRCA's Risk Management Policy (the Policy) be approved and take effect upon approval by the Board of Directors;

The Policy provides the following guidance on the issue of risk:

- The mandate to manage the issue of risk;
- A common language around the issue of risk;
- Roles and responsibilities on the management of risk;
- A process for the management of risk;
- Principles on how the organization should address risk;
- Guidance on what level of risk is acceptable to the organization and how it should be managed; and
- A requirement to report annually on the status of TRCA's Risk Program

RATIONALE

TRCA's Risk Program ("Program") includes traditional aspects of loss, incident and insurance management activities, health and safety assessments, contract management activities, business planning components and flood and erosion risk service programs. TRCA's adoption of the Policy introduced additional enterprise risk management concepts into TRCA's risk management practice and is being guided broadly by ISO 31000:2009 Risk Management Principles and Guidelines.

More specific risk management guidance is offered by TRCA's Risk Committee ("Committee") which consists of:

- Chief Financial and Operating Officer (Chair);
- Associate Director, Property and Risk Management;
- Legal Counsel;
- Advisor, Risk Management;
- Controller; and
- Other subject matter experts as necessary to support the work of the Committee.

Item 9.4

The Committee's work is focused primarily on providing direction to the Risk Management Program, prioritizing action to manage risk and acts as a formal risk assessment group for the organization. The day-to-day management of various risk issues is, however an enterprise-wide effort supported by the diligent contribution of staff across the entire organization. This work is facilitated by a variety of systems including TRCA's incident reporting, procurement and claims management databases. The Centralized Planning and Reporting Database, safety checks, hazard assessments, incident plans, claims processes, incident response teams and many other operations are also important parts of the enterprise-wide risk management system.

Some highlights of corporate efforts to strengthen TRCA's risk resilience in 2020 included:

COVID-19 Response

COVID-19 has presented one of the most ongoing and challenging operational working environments in decades. Despite these challenges, under the continued guidance of the Senior Leadership Team Pandemic Response Committee TRCA maintained healthy business continuity in permitted areas of business, through a suite of previously reported expenditure reductions and ongoing efforts of staff to adapt ongoing programming to meet provincial and public health directives.

Incident and Contingency Planning

In an ongoing effort to improve TRCA's incident management practice, staff streamlined incident reporting and emergency management information by centralizing all incident reporting through a centralized incident reporting portal accessible to all staff. To further guide the use of all incident planning, reporting activities, TRCA developed the Incident and Contingency Planning Guideline. The Guideline was developed in support of all existing corporate incident response tools and to provide additional information to support a recently launched corporate wide incident and emergency response training for all staff. Working within the existing framework, corporate facility managers and select program managers also undertook the significant effort of updating contingency plans for over 16 core services across the organization as well as Emergency Action Plans for each of TRCA's 22 facilities. Future efforts are aimed at further centralizing emergency and incident planning efforts as well as life-safety planning efforts under the direction of the corporate Asset Management Program.

Claims Management

2020 saw a drastic reduction in the number of incidents reported by staff. Year over year TRCA's incident experience saw a 58% reduction in the number of incidents reported to 66 from Jan 2020 to Jan 2021. To date, TRCA is tracking 28 total claims attributable to the same time period. Proportionally, this represents 42% of all reported incidents and an increase of 17% year to year. The decrease in reported incidents is largely explained by the reduction in many of TRCA's operations, including programs in the Tourism and Recreation and Education Outreach service areas as a result of COVID-19. Together these service areas contribute to the majority of TRCA's incident reports. The proportional increase in claims is largely attributable to an increase in Auto and Equipment incidents in 2020, and in particular at-fault incidents. Other areas of risk remained largely proportional year over year. Areas for improvement in incident and claims response are currently being evaluated in support of TRCA's Certificate of Recognition certification efforts.

RISK OUTLOOK AND PRIORITIES

TRCA continually reviews risk exposures including vulnerabilities that face the organization. Reviews are undertaken through the Committee and are based on best available information including incident reports, loss data, staff interviews, industry data and global risk reports. These

Item 9.4

activities regularly identify areas for action as well as other opportunities to improve preparedness to certain exposures. Some of the ongoing priorities include:

Incident and Claims Management

While the centralization of TRCA's incident reporting systems into a single incident reporting portal represents a significant improvement in managing incidents and claims throughout the organization, the system continues to rely on dated technology. The development of a single comprehensive incident reporting and claims management system remains an ongoing unmet need and risk management program priority.

Fleet and Equipment Risk

Preliminary areas for improvement in the area of fleet risk include streamlining of policy, annual training of staff authorized to operate fleet, remedial training for staff involved in at-fault accidents, the implementation of annual abstract reviews and development of corporate claims and incident performance targets. These efforts are ongoing areas for improvement and are being led by Fleet Services.

Land Classifications and Service Standards

TRCA's recent corporate realignment has led to many opportunities for operational efficiencies. While staff continue to diligently manage corporate assets, the realignment offers an opportunity to streamline and standardize these ongoing land management activities with an aim to reduce service time, and improve communications both internally and externally on TRCA's corporate land management status.

Risk Education Program

An ongoing goal of the Risk Program is to increase the corporate knowledge base on issues of risk and risk management. While numerous guides on traditional risk issues have been developed and posted on corporate intranet services. The recent successes of the Learning and Development Team's in implementing a corporate Learning Management System offers an opportunity to leverage corporate knowledge tools to boost staff familiarity on risk management concepts, contract administration, construction, insurance, surety management and other related topics.

Cost of Risk

TRCA's primary means of financing risk is via insurance. Global premium rates continue to escalate at a concerning rate. An ongoing goal of the risk program is to monitor and maintain renewal rates within market rates. TRCA continues to work with the Conservation Ontario Insurance Benefits Committee as well as its brokers to monitor market conditions and to review how it structures coverage to ensure TRCA maximizes the value it receives on premium dollars spent.

In addition to these priority areas, TRCA is actively addressing exposures to other risks by regularly reviewing its business practices and making improvements to the way TRCA does its business.

Relationship to Building the Living City, the TRCA 2013-2022 Strategic Plan

This report supports the following strategy set forth in the TRCA 2013-2022 Strategic Plan:
Strategy 3 – Rethink greenspace to maximize its value

DETAILS OF WORK TO BE DONE

In addition to the items previously described in the report, the Committee will continue to review

Item 9.4

opportunities to improve TRCA's risk management framework, as well as opportunities to integrate risk management practices into existing corporate practices.

Section III – Items for the Information of the Board

TO: Chair and Members of the Executive Committee
Friday, September 10, 2021 Meeting

FROM: Michael Tolensky, Chief Financial and Operating Officer

RE: **Q2 2021 COMMUNICATIONS SUMMARY**

KEY ISSUE

Information report regarding Toronto and Region Conservation Authority's (TRCA) corporate media communication activities during the second quarter of 2021. (April 1 – June 30)

IT IS RECOMMENDED THAT the Q2 2021 Communications Summary report be received.

BACKGROUND

The Communications, Marketing and Events business unit, with involvement of program areas across TRCA's Divisions, carries out corporate communications programs to provide TRCA with a unified voice that aligns consistently with strategic priorities, and monitors results to identify opportunities for improvements. Working with staff from all divisions and external program and service providers, the business units deliver communications campaigns through traditional media outlets and online social media channels. Content is typically disseminated through materials such as news releases and media advisories, direct outreach to targeted journalists, producers and editors, and responses to incoming media inquiries. Digital campaigns involve posting of visual and written content on websites and distribution via social media platforms. All media activity is supported by ongoing assessment and deployment of technology tools and processes to maximize effectiveness.

Compared to the unusually high amount of media coverage in Q1 as a result of the public discourse around Minister's Zoning Orders (MZO), there was a decrease in overall media coverage in Q2. This is in line with TRCA media outreach objectives to share scientific environmental knowledge as well as create meaningful interest in the on-the-ground work that TRCA continues to advance within our watersheds.

Additionally, this quarter saw the growth of ongoing coverage about TRCA's new administrative office, opening in late 2022.

Both the traditional media and social media traction received in Q2 is an indication that our audiences are engaged and listening to TRCA's point of view and TRCA is putting out communications that provide insight and interest to its audiences.

The report provided in **Attachment 1** focuses on notable communications activities, media coverage and relevant social media activity during the reporting period.

Relationship to Building the Living City, the TRCA 2013-2022 Strategic Plan

This report supports the following strategy set forth in the TRCA 2013-2022 Strategic Plan: **Strategy 6 – Tell the story of the Toronto region**

DETAILS OF WORK TO BE DONE

TRCA is preparing a Communications Plan to ensure more streamlined and strategically focused media relations that will guide our approach in working with media, which will be

Item 9.5

brought forward in October to the Board of Directors.

TRCA is creating media relations documents and holding education sessions with staff to better prepare staff to speak to media in a consistent manner with accurate messaging.

TRCA continues to engage media outlets on stories that are unique to the organization and its mandate.

Attachments: 1

Attachment 1: Notable TRCA Media Coverage & Social Media Activity: April 1 – June 30, 2021

Attachment 1 – Q2 Communications Reporting to BOD

Report Overview

This report covers communications and marketing activities for TRCA between April 1, 2021 – June 31, 2021, achieved by Communications, Marketing and Events (CME) Team.

Q2 Successes

1. CME team continued to respond, adapt and update TRCA digital assets in a timely manner to keep up with the latest COVID-19 health guidelines and mandates.
2. Bike the Creek, the virtual biking event in partnership with City of Brampton took place between June 9 - 30 was a great success with 590 registered participants.
3. For Earth Day, April 22, CME staff successfully launched the Watershed and Ecosystem Hub, a new site designed to allow users to interactively explore information about watersheds and the waterfront in the Toronto region.
4. Successful execution/promotion of TRCA Summer Camps via social media and online advertising between April 1 – May 31 resulted in 95% of spots being filled.
5. Between April 1 and June 30, a marketing campaign for Maple Syrup online store was set up to move leftover stock from the cancelled 2020/2021 Maple Syrup festivals. The campaign included newsletters, display ads and social media, resulting in over 1,000 items sold.

Key Q2 Communications Metrics

1. In Q2 there were a total of 58 campaigns/newsletter issues with an average open rate of 44% and click rate of 8.21%.
2. Social media audience growth rate was 5%.
3. Social media audience engagement was up by 67% with a total of 51,039 interactions. This was the result of boosted Facebook ads as well as social media advertising for TRCA summer campaigns.
4. TRCA.ca website page visits grew by 34% as a result of those same summer marketing campaigns.

Q2 Social Activity

During Q2 2021, social media content focused mainly on wildlife species, tree planting, fisheries, parks, and outdoor recreation.

Two campaigns of note included Bike the Creek, which received over 950 engagement actions (likes, comments, and shares) and a photo contest for a park pass that received over 575 engagement actions.

Media Coverage

Summary

Compared to the unusually high amount of media coverage in Q1 as a result of the public discourse around MZOs, there was a predictable slight decrease in overall media coverage in Q2. The topics of coverage returned to TRCA's normal themes after a more politically charged Q1. This is in line with TRCA media outreach objectives to share scientific environmental knowledge as well as create meaningful interest in the on-the-ground work that TRCA continues to work within our watersheds. The media coverage we saw in Q2 was neutral and positive.

Additionally, this quarter saw the start of what will likely be ongoing coverage about the exciting new administration building. Specifically, the two topics that received the most coverage this quarter were:

1. TRCA New HQ building and the wood material used for its structure got a lot of media attention in Q2. The articles all had a common thread which is that the new TRCA HQ sets the standards for sustainable new development. The coverage was very positive and created excellent brand exposure.
2. Through our metrics measuring and tracking, we have found that TRCA Flood statements have a wide reach as we have seen Toronto.com, CanIndia News, Daily Hive, CBC pick up on our statements. *Flood Notices are not included in the summary below as they are reproduced exactly from TRCA content.*

Q2 Key Learnings and Next Steps

1. Video Content: In Q2 CME saw an increase of engagement with video content that related to the ecosystem services TRCA provides as well as ones that highlight wildlife. CME will build on this momentum and create exciting digital content to share amongst TRCA audiences. To this end, CME will commence seeking vendors of record for videography services to help further enhance

TRCA's video content across all channels.

2. **Newsletter Strategy:** In Q2, there was a slight decrease in open rates for TRCA newsletters. This is likely attributed to the wide number of newsletters that are issued across the organization. In response to this, CME is developing a newsletter strategy to provide more relevant content to subscribers which will bring down the number of newsletters our subscribers will receive but increase the types of relevant content for each unique audience groups.
3. **Internal Business Writing Support:** CME saw an increase in inquiries to the team regarding support and guidance on business writing. In our continued effort to create a consistent brand across all channels, including internal direct communications between staff, CME will be working with the HR department to create training and business writing templates. This will enable all TRCA communications to be consistent, clear and effective in messaging when engaging with the various TRCA audiences.
4. **Social Media Audience:** In Q2, audience growth was solid and there was a consistent increase compared to Q1. Based on our metrics, CME saw a boost in TRCA audience growth that can be attributed to tagging partners and leveraging their social networks. To continue this upward trend, CME is creating a formal outreach plan to partner marketing and communications departments to cross promote relevant content.

Look Ahead

Below is a list of upcoming communications activities set for the upcoming months:

1. **Member recruitment campaigns** for the following Education and Training programs: Professional Access into Employment (PAIE), Newcomer Youth Green Economy Project (NYGEP), and Environmental Leaders of Tomorrow. These campaigns will be great opportunities for the BOD to share available environmental programming with their constituents furthering TRCA's reach to all communities within its jurisdiction.
2. In Q2, and continuing into Q4, CME will start the communications activities for the Partners in Project Green (PPG) membership re-structure. Working with the PPG team the campaign will include partner/member outreach, social media, traditional media and newsletter content development. The communications efforts will further the PPG objective to increase revenue through refined membership offerings and levels.
3. CME will be running a virtual campaign for Salmon Festival in mid-September for the month-long event that will start on September 29. The communications activities will include the launch of an interactive storymap for participants to report on salmon sightings; social media campaign; and video production to help tell the significant ecological story of salmon travelling through the Toronto region waters.

4. In Q4, TRCA Communications will be working cross-functionally with divisions to implement a new email marketing and newsletter strategy to increase cross promotion and marketing opportunities, improve user experience, and enhance brand consistency. Over the fall the team will consult, test, and restructure the digital infrastructure of our current email system to prepare for a January 2022 launch of our new email strategy.

Section III – Items for the Information of the Board

TO: Chair and Members of the Executive Committee
Friday, September 10, 2021 Meeting

FROM: Sameer Dhalla, Director, Development and Engineering Services

RE: **UPDATE ON APPROVED DELEGATED MAJOR PERMITS**
July and August 2021

KEY ISSUE

TRCA staff are required to report back on any major permits issued through the approved delegated process during the months of July and August 2021.

RECOMMENDATION

IT IS RECOMMENDED THAT the staff report regarding the staff issuance of major delegated permits during the period of July and August 2021, be received.

BACKGROUND

At Board of Directors Meeting #8/20, held on November 20, 2020, Resolution #A183/20 was approved as follows:

THAT the approval of all major development and infrastructure permits within TRCA's regulatory jurisdiction for the months of December 2020 and July, August and December 2021 be delegated to the Director, Development and Engineering Services or their designate;

THAT TRCA staff provide a report to the Executive Committee at the January and September 2021 and January 2022 meetings to summarize permits that were approved under this delegation of authority;

RATIONALE

During the months of July and August 2021, staff issued no major development permits and one major infrastructure permit within TRCA's regulatory jurisdiction, as follows:

1. A permit was issued for the reconstruction of the Lake Shore Boulevard bridge located over the mouth of the Don River, widening of Lake Shore Boulevard from the Don Roadway to Carlaw Avenue, relocation of the existing rail spur line, removal of the Gardiner Logan ramps and construction of the associated public realm (bi-directional protected cycling lanes, generous sidewalks with landscaping and planted buffers and pocket parks/social seating areas), in the City of Toronto. These are enabling works associated with the redevelopment of the Toronto Port Lands Flood Protection and Don Mouth Naturalization project and the Gardiner Expressway and Lake Shore Boulevard Reconfiguration work.

As required, the Clerk provided a copy of the attached permit report to Board of Directors members in the representing the affected area for a review period of one week. No comments were received from members. Permit C-211035 was issued on September 2, 2021.

Item 9.6

Relationship to Building the Living City, the TRCA 2013-2022 Strategic Plan

This report supports the following strategy set forth in the TRCA 2013-2022 Strategic Plan:

Strategy 4 – Create complete communities that integrate nature and the built environment

FINANCIAL DETAILS

Funding for the review of Waterfront Toronto permit applications is made available through an existing delivery agreement between Waterfront Toronto and TRCA which is in effect until December 31, 2023.

DETAILS OF WORK TO BE DONE

Not applicable.

Report prepared by: Sharon Lingertat, extension 5717

Attachment 1: CFN 65394 – Executive Report – LSBE and Gardiner

WATERFRONT TORONTO

To construct, reconstruct, erect or place a building or structure, site grade, temporarily or permanently place, dump or remove any material originating on the site or elsewhere and alter a watercourse on Lake Shore Boulevard East, between Carlaw Avenue and the Don Roadway, in the City of Toronto (Toronto and East York Community Council Area), Waterfront Watershed as located on property owned by the City of Toronto, Ports Toronto and CreateTO.

The purpose is to reconstruct the Lake Shore Boulevard bridge located over the mouth of the Don River, widen Lake Shore Boulevard from the Don Roadway to Carlaw Avenue, relocate the rail spur line, remove the Gardiner Logan ramps and construct the public realm associated with this area, in the City of Toronto. These are enabling works associated with the redevelopment of the Toronto Port Lands Flood Protection and Don Mouth Naturalization project and the Gardiner Expressway and Lake Shore Boulevard Reconfiguration work.

MAP LOCATION: CFN 65394 Board Map

The permit will be issued for the period of September 2, 2021 to September 1, 2023 in accordance with the following documents and plans which form part of this permit:

- **Drawing LSA-C104; Removals Utility Services, STA. 10+473 to STA. 10+650; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;**

- Drawing LSA-C105; Removals Utility Services, STA. 10+650 to STA. 10+820; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C106; Removals Utility Services, STA. 10+820 to STA. 10+880; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C107; Removals Road, STA. 9+804 to STA. 9+935; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C108; Removals Road, STA. 9+935 to STA. 10+110; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C109; Removals Road, STA. 10+110 to STA. 10+291; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C110; Removals Road, STA. 10+291 to STA. 10+473; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C111; Removals Road, STA. 10+473 to STA. 10+650; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C112; Removals Road, STA. 10+650 to STA. 10+820; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C113; Removals Road, STA. 10+820 to STA. 10+958; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C114; Removals Gardiner Ramp, STA. 9+847 to STA. 9+985; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C115; Removals Gardiner Ramp, STA. 9+985 to STA. 10+160; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C116; Removals Gardiner Ramp, STA. 10+160 to STA. 10+340; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C117; Removals Gardiner Ramp, STA. 10+340 to STA. 10+510; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C200; New Construction, STA. 9+804 to STA. 9+965; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C201; New Construction, STA. 9+965 to STA. 10+125; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C202; New Construction, STA. 10+125 to STA. 10+285; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C203; New Construction, STA. 10+285 to STA. 10+445; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;

- Drawing LSA-C204; New Construction, STA. 10+445 to STA. 10+605; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C205; New Construction, STA. 10+605 to STA. 10+765; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C206; New Construction, STA. 10+765 to STA. 10+910; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C207; New Construction – Watermain Relocation North of Lakeshore Blvd. E.; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C208; New Construction – Storm System Layout, STA. 9+950 to STA. 10+310; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C209; New Construction – Storm System Layout, STA. 10+310 to STA. 10+670; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C210; New Construction – Storm System Layout, STA. 10+670 to STA. 10+960; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C300; Typical Sections, STA. 9+900; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C301; Typical Sections, STA. 10+220; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C302; Typical Sections, STA. 10+620; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C303; Catchbasin Details, CB 2; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C304; Catchbasin Details, CB 5 to CB 8; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C305; Catchbasin Details, CB 9 to CB 12; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C306; Catchbasin Details, CB 13 to CB 16; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C307; Catchbasin Details, CB 17 to CB 20; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C308; Catchbasin Details, CB 21 to CB 24; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C309; Catchbasin Details, CB 25 to CB 28; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C310; Catchbasin Details, CB 29 to CB 32; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;

- Drawing LSA-C311; Catchbasin Details, CB 33 to CB 36; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C312; Catchbasin Details, CB 37 to CB 40; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C313; Catchbasin Details, CB 41 to CB 44; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C314; Catchbasin Details, CB 45 to CB 48; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C315; Typical Catch Basin Details – Connection to Soil Cell & Planting Area; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C316; Catch Basin Overflow Connection to Storm Sewer, Details; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C317; Soil-Cell Connection to Storm Sewer Details; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C318; Planting Area Connection to Storm Sewer Details; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C319; Planting Area Drain Details; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C320; Soil-Cell Drain Details; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C321; Soil-Cell Drain Details; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C322; Monitoring Well Detail; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C400; Rail Road Crossing Details: 300Ø Watermain at Saulter Street; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C401; Rail Road Crossing Details: 300Ø Watermain at Booth Avenue; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C402; Rail Road Crossing Details: 400Ø Watermain at Logan Avenue; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C403; Rail Road Crossing Details: 300Ø Watermain at Logan Avenue; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C404; Rail Road Crossing Details: 150Ø Watermain at Morse Street; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C405; Rail Road Crossing Details: 300Ø Watermain at Carlaw Avenue; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;

- Drawing LSA-C406; Rail Road Crossing Details: 300Ø Sanitary Sewer East of Don Roadway; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C407; Rail Road Crossing Details: 525Ø Storm Sewer East of Don Roadway; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C500; River Excavation Sections Under Lakeshore Bridge; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C700; City of Toronto Standard Drawings; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C701; City of Toronto Standard Drawings; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C702; City of Toronto Standard Drawings; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C703; Ontario Provincial Standard Drawings; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C704; City of Toronto Standard Drawings and OPSD; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C800; Design Sections, STA. 9+825 to STA. 9+850; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C801; Design Sections, STA. 9+875 to STA. 9+900; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C802; Design Sections, STA. 9+925 to STA. 9+950; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C803; Design Sections, STA. 9+975 to STA. 10+000; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C804; Design Sections, STA. 10+025 to STA. 10+050; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C805; Design Sections, STA. 10+075 to STA. 10+100; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C806; Design Sections, STA. 10+125 to STA. 10+150; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C807; Design Sections, STA. 10+175 to STA. 10+200; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C808; Design Sections, STA. 10+225 to STA. 10+250; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;

- Drawing LSA-C809; Design Sections, STA. 10+275 to STA. 10+300; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C810; Design Sections, STA. 10+325 to STA. 10+350; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C811; Design Sections, STA. 10+375 to STA. 10+400; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C812; Design Sections, STA. 10+425 to STA. 10+450; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C813; Design Sections, STA. 10+475 to STA. 10+500; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C814; Design Sections, STA. 10+525 to STA. 10+550; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C815; Design Sections, STA. 10+575 to STA. 10+600; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C816; Design Sections, STA. 10+625 to STA. 10+650; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C817; Design Sections, STA. 10+675 to STA. 10+700; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C818; Design Sections, STA. 10+725 to STA. 10+750; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C819; Design Sections, STA. 10+775 to STA. 10+800; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C820; Design Sections, STA. 10+825 to STA. 10+850; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-C821; Design Sections, STA. 10+875; prepared by Entuitive and Planmac Engineering Inc. on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-L-101; Key Plan; prepared by Entuitive, West 8 and The Planning Partnership on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-L-110; Landscape Removal and Protection Plan; prepared by Entuitive, West 8 and The Planning Partnership on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-L-111; Landscape Removal and Protection Plan; prepared by Entuitive, West 8 and The Planning Partnership on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-L-112; Landscape Removal and Protection Plan; prepared by Entuitive, West 8 and The Planning Partnership on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-L-113; Landscape Removal and Protection Plan; prepared by Entuitive, West 8 and The Planning Partnership on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;

- Drawing LSA-L-114; Landscape Removal and Protection Plan; prepared by Entuitive, West 8 and The Planning Partnership on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-L-115; Landscape Removal and Protection Plan; prepared by Entuitive, West 8 and The Planning Partnership on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-L-116; Landscape Removal and Protection Plan; prepared by Entuitive, West 8 and The Planning Partnership on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-L-117; Landscape Removal and Protection Plan; prepared by Entuitive, West 8 and The Planning Partnership on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-L-118; Landscape Removal and Protection Plan; prepared by Entuitive, West 8 and The Planning Partnership on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-L-119; Landscape Removal and Protection Plan; prepared by Entuitive, West 8 and The Planning Partnership on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-L-120; Landscape Removal and Protection Plan; prepared by Entuitive, West 8 and The Planning Partnership on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-L-200; Materials Plan Legend; prepared by Entuitive, West 8 and The Planning Partnership on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-L-201; Materials Plan, Lake Shore Blvd E – Keating Channel to Don Roadway; prepared by Entuitive, West 8 and The Planning Partnership on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-L-202; prepared by Entuitive, West 8 and The Planning Partnership on behalf of Waterfront Toronto; received by TRCA on June 16, 2021;
- Drawing LSA-L-203; Materials Plan, Lake Shore Blvd E – B/W Don Roadway and Saulter Street; prepared by Entuitive, West 8 and The Planning Partnership on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-L-204; Materials Plan, Lake Shore Blvd E – At Saulter Street; prepared by Entuitive, West 8 and The Planning Partnership on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-L-205; Materials Plan, Lake Shore Blvd E – B/W Saulter Street and Bouchette Street; prepared by Entuitive, West 8 and The Planning Partnership on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-L-206; Materials Plan, Lake Shore Blvd E – B/W Saulter Street and Bouchette Street; prepared by Entuitive, West 8 and The Planning Partnership on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-L-207; Materials Plan, Lake Shore Blvd E – B/W Bouchette Street and Logan Avenue; prepared by Entuitive, West 8 and The Planning Partnership on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-L-208; Materials Plan, Lake Shore Blvd E – B/W Bouchette Street and Logan Avenue; prepared by Entuitive, West 8 and The Planning Partnership on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-L-209; Materials Plan, Lake Shore Blvd E – B/W Logan Avenue and Carlaw Avenue; prepared by Entuitive, West 8 and The Planning Partnership on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-L-210; Materials Plan, Lake Shore Blvd E – B/W Logan Avenue and Carlaw Avenue; prepared by Entuitive, West 8 and The Planning Partnership on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;

- Drawing LSA-L-300; Layout Plan Legend; prepared by Entuitive, West 8 and The Planning Partnership on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-L-301; Layout Plan, Lake Shore Blvd E – Keating Channel to Don Roadway; prepared by Entuitive, West 8 and The Planning Partnership on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-L-302; Layout Plan, Lake Shore Blvd E – B/W Don Roadway and Saulter Street; prepared by Entuitive, West 8 and The Planning Partnership on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-L-303; Layout Plan, Lake Shore Blvd E – B/W Don Roadway and Saulter Street; prepared by Entuitive, West 8 and The Planning Partnership on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;
- Drawing LSA-L-304; Layout Plan, Lake Shore Blvd E – At Saulter Street; prepared by Entuitive, West 8 and The Planning Partnership on behalf of Waterfront Toronto; dated May 31, 2021; received by TRCA on June 16, 2021;

Application-Specific Permit Conditions

A minimum of three (3) weeks prior to the start of construction, the Proponent must submit engineer stamped final drawings for the temporary dockwall work which have been signed and stamped by a professional to the satisfaction of TRCA. Once the drawings have been approved, a TRCA permit revision will be issued. Construction of the temporary dockwall must not begin prior to issuance of the permit revision.

A minimum of three (3) weeks prior to the start of construction, the Proponent must submit final drawings for the erosion and sediment control measures to be implemented, including but not limited to isolation measures for work in or near water to the satisfaction of TRCA. Once the drawings have been approved, a TRCA permit revision will be issued. Construction of the bridge must not begin prior to issuance of the permit revision.

A minimum of three (3) weeks prior to the scheduled start of construction, the Proponent must submit a detailed flood contingency/emergency response plan for any in or near water work during a rain event demonstrating how risks to workers/on-site personnel and equipment from flooding (e.g., resulting from ice jams, storms, etc.) during construction will be minimized and/or avoided. Once the plan has been approved, a TRCA permit revision will be issued. Construction in or near water must not begin prior to issuance of the permit revision.

A minimum of three (3) weeks prior to the scheduled start of construction, the Proponent must submit detailed plans for any in-water work and confirm that there will be no increases to flood levels during interim (construction) conditions to the satisfaction of TRCA. Once the drawings have been approved, a TRCA permit revision will be issued. In-water construction must not begin prior to issuance of the permit revision.

A minimum of three (3) weeks prior to the start of construction, the Proponent must submit final drawings and supporting documentation for the Don Roadway and Lake Shore Boulevard East (LSBE) intersection design once available to the satisfaction of TRCA. Once the drawings have been approved, a TRCA permit revision will be issued. Construction at the Don Roadway and LSBE intersection must not begin prior to issuance of the permit revision.

The Proponent must strictly adhere to the approved design drawings and reports, including any TRCA redline revisions, to the satisfaction of TRCA. The Proponent acknowledges that all proposed revisions to the design of this project that may impact TRCA interests must be submitted for review and approval by TRCA prior to implementation of the re-designed works.

RATIONALE

The application was reviewed by staff on the basis of the following information:

Proposal:

Currently, 290 hectares of urban land east and south of the Don River are subject to risk of flooding from the Don River during a Regulatory Storm event. This includes portions of the Port Lands, South Riverdale, Leslieville and Cadillac Fairview lands. The [Don Mouth Naturalization](#)

[and Port Lands Flood Protection Environmental Assessment](#) (PLFP) identified major municipal infrastructure (bridges, roads, underground services) needed to enable flood protection and unlock development in this area. At the same time studies were underway to find a design solution for the aging infrastructure associated with the elevated section of the Gardiner Expressway and Lake Shore Boulevard East to improve connectivity to Toronto's downtown waterfront, support the PLFP project and balance transportation modes through the [Gardiner Expressway and Lake Shore Boulevard Reconfiguration Environmental Assessment](#) (2016). The preferred design through the Environmental Assessment (EA) identified maintaining the existing elevated expressway between Lower Jarvis Street and Cherry Street and rebuilding the Gardiner-Don Valley Parkway (DVP) connection along an alignment further north, closer to the rail corridor. The design also includes reconfiguring the Gardiner Expressway east of Cherry Street, removing the elevated structure along the eastern waterfront and constructing a landscaped six-lane boulevard including sidewalks on the north and south sides of Lake Shore Boulevard and a bike path on the north side of the road. These public realm improvements extend across the Lake Shore Bridge.

As such, the proposed work associated with this permit combines elements of the Gardiner East project with the PLFP project for the area of the Lower Don to deliver the following modifications to the Lake Shore Boulevard Bridge, Gardiner Expressway and Lake Shore Boulevard:

- Constructing two new spans to extend the Lake Shore Boulevard Bridge to accommodate the future widening of the mouth of the Don River.
- Replacing the two existing spans of Lake Shore Boulevard Bridge and rehabilitating the existing pier and abutments.
- Demolishing the elevated structure of the Gardiner Expressway from east of Cherry Street to the eastern end of the Gardiner Expressway (Logan ramps).
- Demolishing and reconstructing the existing rail bridge north of the Lake Shore Boulevard bridge.
- Relocating utilities from the existing rail bridge to the new Lake Shore Bridge to accommodate extension of this structure.
- Realigning/widening Lake Shore Boulevard from the Don Roadway to Carlaw Avenue.
- Constructing new landscaping, pedestrian and cycling facilities on the Lake Shore Boulevard Bridge and Lake Shore Boulevard from the Don Roadway to Carlaw Avenue.
- Shifting the existing rail tracks east of the Don Roadway to the centre median of Lake Shore Boulevard with a connection to the existing tracks at approximately Carlaw Avenue.

Gardiner Expressway Ramp Removal

The Gardiner Expressway ramps will be removed from just west of the Don River to the eastern end of the Gardiner Expressway. Removal of the Gardiner/Logan ramps prior to the start of construction at the Lake Shore Boulevard East bridge will significantly increase the efficiency and safety of construction. Due to proximity of the works required for the Lake Shore Boulevard bridge footings located adjacent to the existing ramp footings, if the existing ramps are not removed prior to start of construction, underpinning of the Gardiner ramps and monitoring of the ramps stability would be required with additional costs. The existing ramps also complicate the installation of the foundations for the new bridge spans due to low overhead clearance by the ramps if not removed. The ramps also limit access for cranes to install bridge girders and other related structural elements required for the bridge extension. Safety of workers will also be increased through ramp removal.

Lake Shore Boulevard and Bridge

Reconstruction of the Lake Shore Boulevard East bridge is a critical component of the design for flood protection in this area. The current width of the Don River mouth over which the Lake Shore Boulevard East bridge and rail bridge traverses act as a pinch point restricting the passage of water within the Don River. This proposal involves widening the existing bridge through the construction of two additional bridge spans (approximately 24 m in width each) on the west side of the existing bridge to accommodate the future widening of the Don River at this location (widening of the Don River is being reviewed through a separate permit application and through permit revisions associated with this permit). In addition, the Gardiner East design requires that the Lake Shore Boulevard bridge be widened to accommodate the expected increase in traffic resulting from the planned removal of the overhead Gardiner/Logan ramps. As such, the existing two spans currently used to convey flows from the Don River will be extended to accommodate the widened bridge structure in order to achieve the flood protection objectives of the PLFP EA, the expanded public realm infrastructure (cycling and pedestrian infrastructure), 3 lanes of traffic in each direction with additional left turning lanes at intersections, the Harbour Lead Rail Line and space to accommodate relocated utilities. The new bridge will also be designed to prevent ice build-up on the bridge piers to reduce the risk of an ice jam in the future Sediment and Debris Management Area (under separate review) and improve conveyance of ice flows to the future Ice Management Area and Keating Channel located south of the bridge. A new 300 to 400 mm diameter watermain will also be constructed within the road alignment. Plans for the temporary dockwalls (required for construction) and plans for the Don Roadway and Lake Shore Boulevard intersection still need to be provided and are covered under the additional conditions associated with this permit.

Harbour Lead Rail Line Relocation

As noted above, the existing Harbour Lead Rail Line will be removed and relocated to the newly widened Lake Shore Boulevard bridge. East of the bridge, between the Don Roadway to Carlaw Avenue the track will be upgraded to meet current safety standards and relocated to the middle of Lake Shore Boulevard within a dedicated median. The relocation will begin immediately east of the Don Roadway where it will transition to the median until it crosses Carlaw Avenue, where it will tie into the existing track that is already located within the median of Lake Shore Boulevard. To accommodate the median, the westbound lanes and public realm north of Lake Shore Boulevard will shift north into the land that is made available by the relocation of the track.

The rail spur line at the Keating Rail Yards previously served Toronto Water's Ashbridges Bay Treatment Plant, as well as two employment sites in the Port Lands. Due to multiple capital works projects in the area, the spur line has not been in service since 2018 and as such Toronto Water is now supporting its Ashbridges Bay operations through the use of trucks. When operational, use of this spur line has been relatively infrequent and typically only at night. Waterfront Toronto's design for the Lake Shore Boulevard Bridge assumes that the spur line will remain in its existing location where it crosses the Don River.

Public Realm

This project will deliver significant public realm improvements and connections that respond to community needs. It will also enable development of the [Keating Channel Precinct](#), a plan that envisions mixed-use development complete with parks and a waterside promenade generally located on both sides of the Keating Channel.

Widening the Lake Shore Boulevard Bridge will allow for the reconstruction of the intersection of Lake Shore Boulevard East and the Don Roadway. This intersection is currently challenging for

pedestrians to navigate and presents a potential safety issue. As part of the PLFP project, the pedestrian bridge north of the Lake Shore Boulevard Bridge will also be removed. The replacement for this critical east-west cycling connection is ultimately captured in the reconstructed Lake Shore Boulevard Bridge. Public realm improvements will include bi-directional protected cycling lanes, generous sidewalks with landscaping and planted buffers and pocket parks/social seating areas adjacent to the cycling lanes on the north side of the road.

Timing

It is expected that construction will begin with the removal of the Gardiner/Logan ramps and that work related to this permit including the bridge, relocation of the rail spur line and widening of Lake Shore Boulevard East will be completed by December 2024.

Control of Flooding:

Although the site is currently within the Don River flood plain, the proposed works are not anticipated to impact flooding, flood storage or conveyance of flood waters. The goal of the PLFP project is to address current flood risk thereby protecting the Port Lands and adjacent areas for future development and from potential loss of life and costly flood damage. It is anticipated that flow conveyance through the bridge will be improved as a result of this work. As requested by TRCA staff through the permit conditions associated with this permit, the Proponent must also submit a detailed flood contingency/emergency response plan for any in or near-water work during rain events. The Proponent must also submit detailed plans for any in-water work with confirmation that there will be no increases to flood levels during interim (construction) conditions to the satisfaction of TRCA, prior to the start of work.

Pollution:

Erosion and sediment control measures will be installed prior to construction and maintained for its duration. These measures are being implemented to prevent the release of construction generated sediment into the Don River. As requested by TRCA staff through the permit conditions associated with this permit, the Proponent must also submit final plans for the erosion and sediment control measures to the satisfaction of TRCA, prior to the start of work.

Dynamic Beaches:

Not applicable.

Erosion:

No geotechnical/slope stability issues have been identified.

Conservation of Land:

Where impacts to local fish populations may occur during their spawning, nursery and migratory periods, construction timing windows should apply to in-water/near-water activities. The proponent/contractor should confirm applicability and dates with appropriate provincial and federal agencies.

Plantings

Through the public realm work the reconfigured Lake Shore Boulevard from approximately the Lake Shore Boulevard Bridge eastward will be reconfigured with landscaping and planter buffers. Approximately 725 trees and large shrubs as well as approximately 868 smaller shrubs, over 190,000 plugs and over 15,000 bulbs. A network of storm sewers within this redesigned road will direct stormwater to soil/planting cells along Lake Shore Boulevard. Landscaping and water holding capacity

was coordinated with the landscape architect and connections to the cells will be via road catch basins.

Policy Guidelines:

This proposal complies with Section 8.8 Interference with a Watercourse and Section 8.9 Infrastructure Policies of The Living City Policies for Planning and Development in the Watersheds of the Toronto and Region Conservation Authority.

Section IV – Ontario Regulation 166/06, As Amended

TO: Chair and Members of the Executive Committee
Friday, September 10, 2021 Meeting

FROM: Sameer Dhalla, Director, Development and Engineering Services

RE: **APPLICATIONS FOR PERMITS PURSUANT TO ONTARIO REGULATION 166/06, AS AMENDED**
Development, Interference with Wetlands and Alterations to Shorelines and Watercourses

KEY ISSUE

Pursuant to Ontario Regulation 166/06, as amended, written permission from the Authority is required for:

- a) straightening, changing, diverting or interfering in any way with the existing channel of a river, creek, stream or watercourse, or for changing or interfering in any way with a wetland;
- b) development, if in the opinion of the Authority, the control of flooding, erosion, dynamic beaches or pollution or the conservation of land may be affected by the development.

A permit may be refused through a Hearing Process, if in the opinion of the Authority, the control of flooding, erosion, dynamic beaches, pollution or the conservation of land is affected.

RECOMMENDATION

THAT standard delegated permits, permission for routine infrastructure works, minor works letters of approval, and permits after the fact / resolution of violations granted by Toronto and Region Conservation Authority staff, in accordance with Ontario Regulation 166/06, as amended, which are listed below, be received.

STANDARD DELEGATED PERMITS FOR RECEIPT– STAFF APPROVED AND ISSUED

Delegated Permits are processed by Development and Engineering Services Division staff, authorized by designated staff appointed as Enforcement Officers by the Board of Directors and received monthly by the Executive Committee. Delegated permits are categorized as standard, routine infrastructure works, emergency infrastructure works, minor works and permits after the fact/resolution of violations. Standard permits are non-complex permissions consistent with TRCA approved policies and procedures and issued for a time period of two years or less.

CITY OF BRAMPTON

2366885 ONTARIO INC. C/O VANDYK PROPERTIES - Etobicoke Creek Watershed

The purpose is to undertake works within a TRCA Regulated Area of the Etobicoke Creek Watershed to permit in-situ capping of a wetland feature.

15816 MOUNT PLEASANT ROAD - Etobicoke Creek Watershed

The purpose is to recognize the construction of a 4.88 m by 9.76 m (16 ft by 32 ft) deck, 32.7 sq. m. (351.99 sq. ft.) shed and driveway to the shed located at the south east side of an existing dwelling within TRCA's Regulated Area of the Humber River Watershed. The works were constructed at 15816 Mount Pleasant Road, in the Town of Caledon without the benefit of TRCA or municipal permits. As such, an additional application fee of 100% was charged for this "after-the-fact" permit.

CFN: 65372 - Application #: 0924/21/CAL
