

Peel EcoSchools Program

Presentation to the Natural Science and Education
Committee

Presented by:

Amy Thurston, Program Manager, Education & Training

September 23, 2024

EcoSchools Canada

Mission

To nurture student leaders, reduce the environmental impact of schools, and build sustainable school communities.

Build
environmental leadership
and capacity for students,
staff, and communities

Recognize
excellence with robust
reporting and a collective
impact framework

Connect
to local resources through
a strong network of regional
and national partners

Support
Canada's commitment to
achieving the UN Sustainable
Development Goals

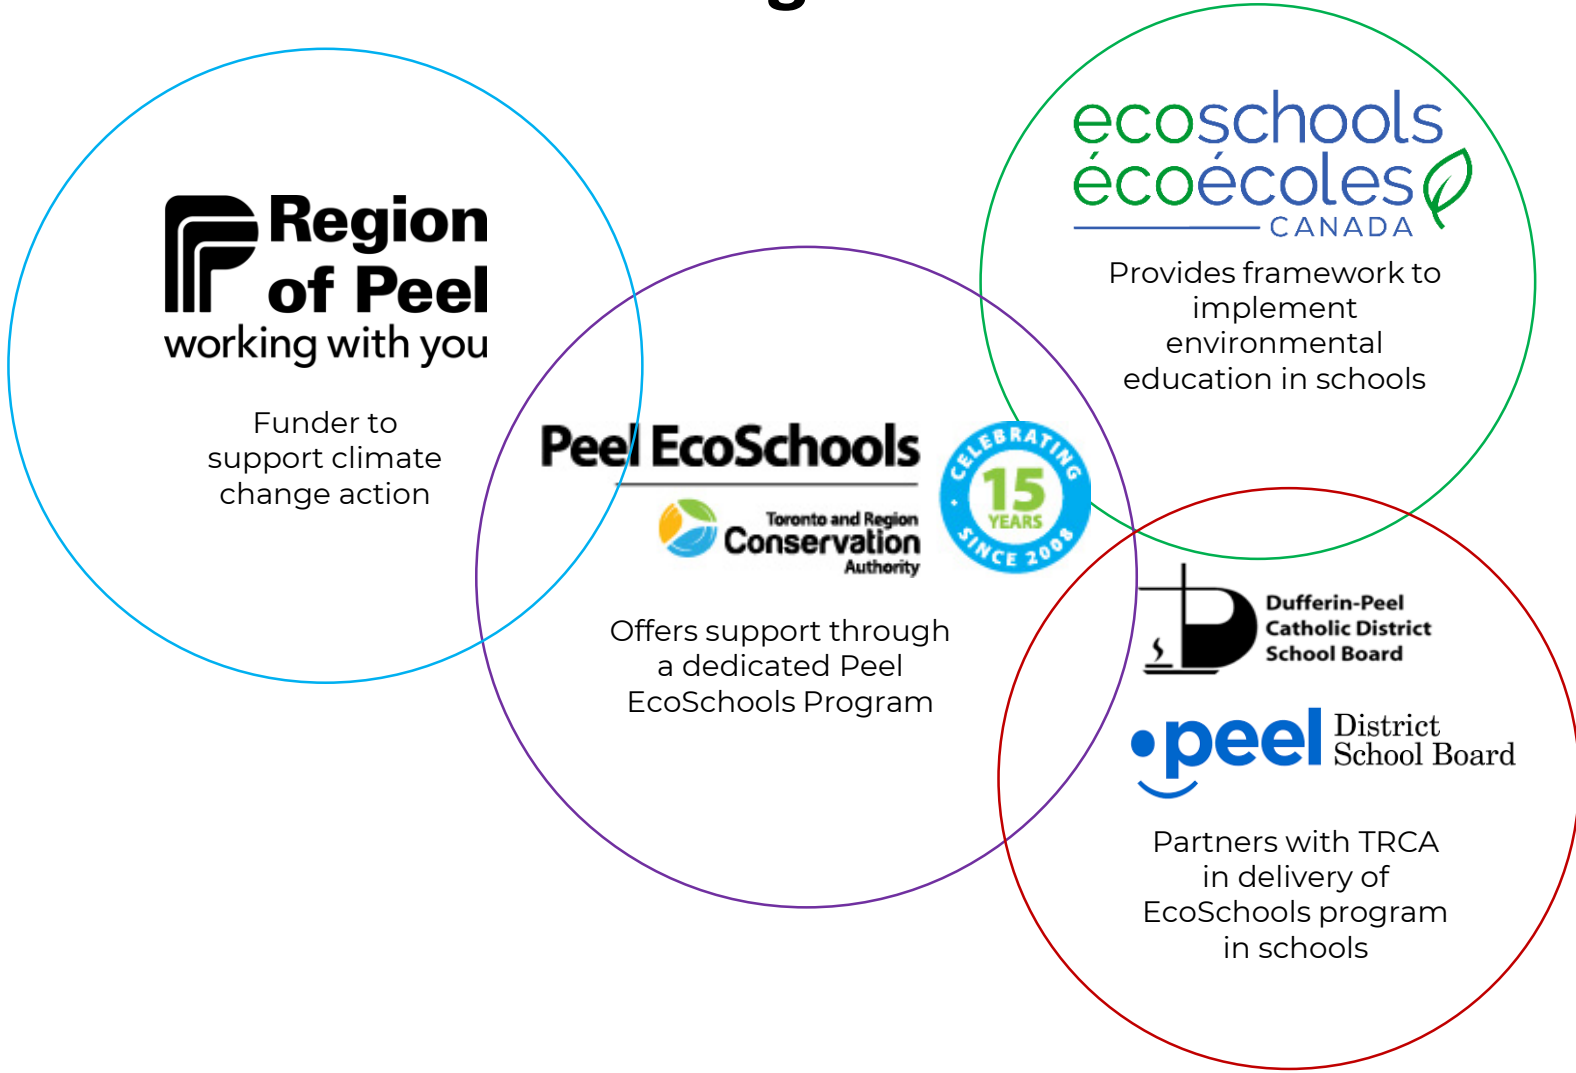

Improve
the operational
efficiency of school
buildings

EcoSchools Certification Levels

- Throughout the school year, schools complete actions in their online application and earn points towards their certification.
- There are four levels of certification – bronze, silver, gold and platinum – as well as a new ‘participant’ designation.
